CODE OF ETHICS

My fundamental duty is to serve the community; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation and the peaceful against violence or disorder; and to respect the constitutional rights of all to liberty, equality and justice.

I will keep my private life unsullied as an example to all and will behave in a manner that does not bring discredit to me or to my agency. I will maintain courageous calm in the face of danger, scorn or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed both in my personal and official life, I will be exemplary in obeying the law and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.

I will never act officiously or permit personal feelings, prejudices, political beliefs, aspirations, animosities or friendships to influence my decisions. With no compromise for crime, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

I recognize the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of criminal justice service. I will never engage in acts of corruption or bribery, nor will I condone such acts by other officers. I will cooperate with all legally authorized agencies and their representatives in the pursuit of justice.

I know that I alone am responsible for my own standard of professional performance and will take every reasonable opportunity to enhance and improve my level of knowledge and competence.

I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession.

Discriminatory Harassment

104.1 PURPOSE AND SCOPE

The purpose of this policy is to prevent office members from being subjected to discriminatory harassment, including sexual harassment and retaliation (Government Code § 12940(k); 2 CCR 11023). Nothing in this policy is intended to create a legal or employment right or duty that is not created by law.

104.2 POLICY

The Santa Cruz County Sheriff's Office is an equal opportunity employer and is committed to creating and maintaining a work environment that is free of all forms of discriminatory harassment, including sexual harassment and retaliation. The Office will not tolerate discrimination against a member in hiring, promotion, discharge, compensation, fringe benefits and other privileges of employment. The Office will take preventive, corrective and disciplinary action for any behavior that violates this policy or the rights and privileges it is designed to protect.

The nondiscrimination policies of the Office may be more comprehensive than state or federal law. Conduct that violates this policy may not violate state or federal law but still could subject a member to discipline.

104.3 DEFINITIONS

Definitions related to this policy include:

104.3.1 DISCRIMINATION

The Office prohibits all forms of discrimination, including any employment-related action by a member that adversely affects an applicant or member and is based on actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law.

Discriminatory harassment, including sexual harassment, is verbal or physical conduct that demeans or shows hostility or aversion toward an individual based upon that individual's protected class. It has the effect of interfering with an individual's work performance or creating a hostile or abusive work environment.

Conduct that may, under certain circumstances, constitute discriminatory harassment can include making derogatory comments; making crude and offensive statements or remarks; making slurs or off-color jokes; stereotyping; engaging in threatening acts; making indecent gestures, pictures, cartoons, posters, or material; making inappropriate physical contact; or using written material or office equipment and/or systems to transmit or receive offensive material, statements, or pictures. Such conduct is contrary to office policy and to a work environment that is free of discrimination.

Retaliation will not be tolerated.

104.3.3 SEXUAL HARASSMENT

The Office prohibits all forms of discrimination and discriminatory harassment, including sexual harassment. It is unlawful to harass an applicant or a member because of that person's sex.

Sexual harassment includes but is not limited to unwelcome sexual advances, requests for sexual favors, or other verbal, visual, or physical conduct of a sexual nature when:

- (a) Submission to such conduct is made either explicitly or implicitly as a term or condition of employment, position, or compensation.
- (b) Submission to, or rejection of, such conduct is used as the basis for any employment decisions affecting the member.
- (c) Such conduct has the purpose or effect of substantially interfering with a member's work performance or creating an intimidating, hostile, or offensive work environment.

104.3.4 ADDITIONAL CONSIDERATIONS

Discrimination and discriminatory harassment do not include actions that are in accordance with established rules, principles, or standards, including:

- (a) Acts or omission of acts based solely upon bona fide occupational qualifications under the Equal Employment Opportunity Commission and California Civil Rights Council guidelines.

104.4 RESPONSIBILITIES

This policy applies to all office members, who shall follow the intent of these guidelines in a manner that reflects office policy, professional standards, and the best interest of the Office and its mission.

Members are encouraged to promptly report any discriminatory, retaliatory, or harassing conduct or known violations of this policy to a supervisor. Any member who is not comfortable with reporting violations of this policy to the member's immediate supervisor may bypass the chain of command and make the report to a higher-ranking supervisor or manager. Complaints may also be filed with the Sheriff, the Personnel Director, or the County Administrator.

Any member who believes, in good faith, that the member has been discriminated against, harassed, or subjected to retaliation, or who has observed harassment, discrimination, or retaliation, is encouraged to promptly report such conduct in accordance with the procedures set forth in this policy.

104.4.1 QUESTIONS OR CLARIFICATION

Members with questions regarding what constitutes discrimination, sexual harassment, or retaliation are encouraged to contact a supervisor, a manager, the Sheriff, the Personnel Director, the County Administrator, or the California Civil Rights Department for further information, direction, or clarification (Government Code § 12950).

104.4.2 SUPERVISOR RESPONSIBILITIES

The responsibilities of supervisors and managers shall include but are not limited to:

- (a) Behavior of supervisors and managers should represent the values of the Office and professional standards.
- (b) False or mistaken accusations of discrimination, harassment, or retaliation can have negative effects on the careers of innocent members.

Nothing in this section shall be construed to prevent supervisors or managers from discharging supervisory or management responsibilities, such as determining duty assignments, evaluating or counseling members, or issuing discipline, in a manner that is consistent with established procedures.

104.5 INVESTIGATION OF COMPLAINTS

Various methods of resolution exist. During the pendency of any such investigation, the supervisor of the involved member should take prompt and reasonable steps to mitigate or eliminate any continuing abusive or hostile work environment. It is the policy of the Office that all complaints of

104.5.1 SUPERVISOR RESOLUTION

Members who believe they are experiencing discrimination, harassment, or retaliation should be encouraged to inform the individual that the behavior is unwelcome, offensive, unprofessional, or inappropriate. However, if the member feels uncomfortable or threatened or has difficulty expressing the member's concern, or if this does not resolve the concern, assistance should be sought from a supervisor or manager who is a rank higher than the alleged transgressor.

104.5.2 FORMAL INVESTIGATION

If the complaint cannot be satisfactorily resolved through the supervisory resolution process, a formal investigation will be conducted.

The person assigned to investigate the complaint will have full authority to investigate all aspects of the complaint. Investigative authority includes access to records and the cooperation of any members involved. No influence will be used to suppress any complaint and no member will be subject to retaliation or reprisal for filing a complaint, encouraging others to file a complaint, or for offering testimony or evidence in an investigation.

Formal investigation of the complaint will be confidential to the extent possible and will include but is not limited to details of the specific incident, frequency and dates of occurrences, and names of any witnesses. Witnesses will be advised regarding the prohibition against retaliation, and that a disciplinary process, up to and including termination, may result if retaliation occurs.

Members who believe they have been discriminated against, harassed, or retaliated against because of their protected status are encouraged to follow the chain of command but may also file a complaint directly with the Sheriff, the Personnel Director, or the County Administrator.

104.5.3 ALTERNATIVE COMPLAINT PROCESS

No provision of this policy shall be construed to prevent any member from seeking legal redress outside the Office. Members who believe that they have been harassed, discriminated against, or retaliated against are entitled to bring complaints of employment discrimination to federal, state, and/or local agencies responsible for investigating such allegations. Specific time limitations apply to the filing of such charges. Members are advised that proceeding with complaints under the provisions of this policy does not in any way affect those filing requirements.

104.6 DOCUMENTATION OF COMPLAINTS

All complaints or allegations should be thoroughly documented on forms and in a manner designated by the Sheriff. The outcome of all reports shall be:

- (a) Approved by the Sheriff, the County Administrator or the Personnel Director if appropriate.

Brady Material Disclosure

105.1 PURPOSE AND SCOPE

This policy establishes guidelines for identifying and releasing potentially exculpatory or impeachment information (so-called "Brady information") to a prosecuting attorney.

105.1.1 DEFINITIONS

Definitions related to this policy include:

Brady information -Information known or possessed by the Santa Cruz County Sheriff's Office that is both favorable and material to the defense of a criminal defendant.

105.2 POLICY

The Santa Cruz County Sheriff's Office will conduct fair and impartial criminal investigations and will provide the prosecution with both incriminating and exculpatory evidence, as well as information that may adversely affect the credibility of a witness. In addition to reporting all evidence of guilt, the Santa Cruz County Sheriff's Office will assist the prosecution by complying with its obligation to disclose information that is both favorable and material to the defense. The Office will identify and disclose to the prosecution potentially exculpatory information, as provided in this policy.

105.3 DISCLOSURE OF INVESTIGATIVE INFORMATION

Officers must include in their investigative reports adequate investigative information and reference to all material evidence and facts that are reasonably believed to be either incriminating or exculpatory to any individual in the case. If a deputy learns of potentially incriminating or exculpatory information any time after submission of a case, the deputy or the handling investigator must prepare and submit a supplemental report documenting such information as soon as practicable. Supplemental reports shall be promptly processed and transmitted to the prosecutor's office.

If information is believed to be privileged or confidential (e.g., confidential informant or protected personnel files), the deputy should discuss the matter with a supervisor and/or prosecutor to determine the appropriate manner in which to proceed.

Evidence or facts are considered material if there is a reasonable probability that they would affect the outcome of a criminal proceeding or trial. Determining whether evidence or facts are material often requires legal or even judicial review. If a deputy is unsure whether evidence or facts are material, the deputy should address the issue with a supervisor.

Supervisors who are uncertain about whether evidence or facts are material should address the issue in a written memo to an appropriate prosecutor. A copy of the memo should be retained in the Department case file.

(b) The prosecution attorney should then be requested to file a *Pitchess* motion in order to initiate an in camera review by the court.

(c) Any member who is the subject of such a motion shall be notified in writing that a motion has been filed.

(d) The Custodian of Records shall accompany all relevant files during any in camera inspection and address any issues or questions raised by the court in determining whether any information contained in the files is both material and favorable to the criminal defendant.

(e) If the court determines that there is relevant *Brady* information contained in the files, only that information ordered released will be copied and released to the parties filing the motion.

1. Prior to the release of any information pursuant to this process, the Custodian of Records should request a protective order from the court limiting the use of such information to the involved case and requiring the return of all copies upon completion of the case.

105.5 INVESTIGATING BRADY ISSUES

If the Office receives information from any source that a member may have issues of credibility, dishonesty or has been engaged in an act of moral turpitude or criminal conduct, the information shall be investigated and processed in accordance with the Personnel Complaints Policy.

This policy prohibits retaliation against members who identify workplace issues, such as fraud, waste, abuse of authority, gross mismanagement, or any inappropriate conduct or practices, including violations that may pose a threat to the health, safety, or well-being of members.

This policy does not prohibit actions taken for nondiscriminatory or non-retaliatory reasons, such as discipline for cause.

These guidelines are intended to supplement and not limit members' access to other applicable remedies. Nothing in this policy shall diminish the rights or remedies of a member pursuant to any applicable federal law, provision of the U.S. Constitution, state and local law, ordinance, or memorandum of understanding.

106.2 POLICY

Members shall not report or state an intention to report information or an allegation knowing it to be false or with willful or reckless disregard for the truth or falsity of the information, or otherwise act in bad faith.

Investigations are generally more effective when the identity of the reporting member is known, thereby allowing investigators to obtain additional information from the reporting member. However, complaints may be made anonymously. All reasonable efforts shall be made to protect the reporting member's identity. However, confidential information may be disclosed to the extent required by law or to the degree necessary to conduct an adequate investigation and make a determination regarding a complaint. The written results of any screening tests and all documents generated by the employee assistance program are considered confidential medical records and shall be maintained separately in the member's confidential medical file in accordance with the Personnel Records Policy.

Financial Practices

201.1 PURPOSE AND SCOPE

The Sheriff shall prepare and present an annual budget request that ensures an adequate allocation of resources for facility operations and programming. Budget requests shall be prepared in the manner and detail prescribed by the Office. Service goals and objectives should be delineated in the budget plan.

201.2 POLICY

The Office's responsibilities include the development of a budget plan, submitting the plan to the County Administrator, and monitoring the facility's progress toward meeting its budget objectives throughout the fiscal year.

A fiscal system has been established that accounts for all income and expenditures on an ongoing basis. Methods for collecting, safeguarding and disbursing monies shall comply with established accounting procedures.

201.3 BUDGET PLAN

The Facility Manager will establish a system of quarterly projections of expenditures for personnel, operating expenses, equipment and capital projects. A record of a historical pattern of expenditures along with a justification for new expenditures should be used as the supporting documentation in the development of the budget plan.

Once completed, the budget plan will be submitted to the Auditor's Office for review and approval and/or returned to the Office for additional development. Once the budget plan has been approved by the County Administrator or the authorized designee, the Office may initiate expenditures in accordance with the plan.

201.4 FISCAL ACCOUNTING AND MANAGEMENT OF APPROVED BUDGET

The Auditor's Office is responsible for monitoring the facility's progress toward meeting its budget objectives throughout the fiscal year. Data on key performance indicators should be collected and evaluated at regular intervals and reviewed by the Sheriff and the Facility Manager's budget officials and other policy-makers. Reports should contain at a minimum the following information:

- The budget amount
- The amount expended for the month
- The year-to-date amount expended
- Any outstanding encumbrances
- The cumulative total year-to-date expenditures plus outstanding encumbrances

When the Facility Manager receives the monthly budget report, they should review all of the expenditure accounts for risk indicators, such as:

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Financial Practices

- Significant variations in expenditures in an account used consistently, where the amounts charged are expected to vary little, if any, from month to month.
- Expenditures that are significantly beyond the forecasted amounts or whether the year-to-date percentages expended are significantly higher than the percentage of time elapsed.
- Large balances of/or long-term outstanding encumbrances.

Fiscal data collected during the year should be used to formulate a budget for the following year.

201.5 TRANSFERRING FUNDS AMONG BUDGET CATEGORIES

Unless otherwise specified, the transfer of funds among budget categories may require the approval of the County Administrator.

201.6 FINANCIAL AUDITS

The Sheriff should ensure that a financial audit of the facility is conducted annually. The audit shall conform to generally accepted auditing standards.

201.6.1 FINANCIAL AUDITS OF THE INCARCERATED PERSON WELFARE FUND

An annual financial audit of the Incarcerated Person Welfare Fund shall be conducted and shall include the Office's budget and any monies placed into the Incarcerated Person Welfare Fund. The methods used for collecting, safeguarding, and disbursing monies, including incarcerated persons' personal funds held by the facility, shall comply with accepted accounting procedures.

201.6.2 POSITION CONTROL

Position control is the process used by the Office to exercise control over the size and cost of its workforce. It ensures that any new, regular employee added to an agency's payroll basis is filling a position that has been approved and budgeted, and that the rate of pay for the position is within the salary range for the job classification in which the position resides.

This facility is one of the most labor-intensive functions and therefore control of payroll expenditures is a crucial part of managing the facility budget. In order to exercise control of payroll expenditures, the Office will utilize a system of position control as part of its ongoing budget process.

201.7 STAFFING PLAN

The Facility Manager should maintain an up-to-date staffing plan for the purpose of exercising position control. The staffing plan should include a comprehensive list of all positions in this facility. Each position has a descriptive job title that is associated with a description of the position's duties and responsibilities. Each position will have a written job description for all position classifications and post assignments that define responsibilities, duties, and qualifications.

The Facility Manager should adhere to the following strategies for the management of position control and personnel costs:

- (a) Ensure that this facility is staffed with the appropriate number and type of staff. The proper allocation and deployment of staff across shifts and functional units is essential.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Financial Practices

In addition, the availability of the right classification of staff (e.g., custody staff supervising incarcerated persons, maintenance staff performing maintenance, food service staff preparing meals) with the appropriate job skills and training enhances efficiency.

- (b) Strategically time the filling of newly authorized positions or vacancies in current positions. Strategic timing is important throughout the budget year to create vacancy savings that can be used to address current budget year shortfalls.
- (c) Manage the use of overtime carefully. The historical use of overtime should be tracked to make the case for additional staff and/or to provide sufficient funding in an overtime line item. The use of overtime should also be monitored at regular intervals to verify that it is being used within projected levels.
- (d) Manage the use of part-time staff. The number of hours worked by part-time staff should be monitored to ensure that part-time employees are not working in excess of what has been authorized (e.g., a part-time employee should be working no more than an average of 20 hours per week).
- (e) Establish and maintain procedures to ensure the accuracy and integrity of payroll documentation. Time cards, time sheets, and related documentation should reflect actual hours worked.
- (f) Consider the impact of position upgrades on the entire job classification. An upgrade for one position may set the stage for upgrades of similar positions within the same job classification.
- (g) Monitor the use of merit increases. Caution should be exercised in granting merit increases as a way of making up for perceived shortfalls in cost-of-living increases. Each merit increase, unless it is a one-time bonus, increases the base pay and has an impact on continuation funding in future budget years.

201.7.1 INSURANCE REQUIREMENTS

The Office shall ensure, by way of office risk managers, the procurement of adequate liability coverage of the correctional facility operations. Coverage shall include, at minimum, workers' compensation, civil liability and the public employee blanket bond.

Supervision of Incarcerated Persons

202.1 PURPOSE AND SCOPE

The purpose of this policy is to ensure the safety and security of the facility through the application of appropriate staffing levels.

202.2 POLICY

It is the policy of this facility to provide for the safety and security of citizens, staff and incarcerated persons through appropriate staffing levels that are sufficient to operate the facility and perform functions related to the safety, security, custody, and supervision of incarcerated persons.

202.3 SUPERVISION OF INCARCERATED PERSONS

There shall be, at all times, sufficient staff designated to remain in the facility for the supervision and welfare of incarcerated persons, to ensure the implementation and operation of all programs and activities as required by Title 15 CCR Minimum Jail Standards, and to respond to emergencies when needed. Such staff must not leave the facility while incarcerated persons are present and should not be assigned duties that could conflict with the supervision of incarcerated persons (15 CCR 1027).

When a person from each gender is being held at this facility, a minimum of one corrections officer from each gender should be on-duty in the correctional facility at all times.

Staff members shall not be placed in positions of responsibility for the supervision and welfare of incarcerated persons of the opposite gender in circumstances that can be described as an invasion of privacy or that may be degrading or humiliating to the incarcerated persons.

To the extent reasonably practicable, incarcerated person bathrooms will contain modesty screens that preserve privacy without creating areas that cannot be properly supervised.

The Facility Manager or the authorized designee shall be responsible for developing staffing plans to comply with this policy. Records of staff deployment should be maintained in accordance with established records retention schedules (Penal Code § 4021; 15 CCR 1027).

202.4 SEPARATION OF DUTIES

Maintenance personnel are employed to perform preventive, routine and emergency maintenance functions. With the exception of Custody Staff assigned to the Logistics Unit or on special assignment, other Custody staff will not be given physical plant maintenance duties that distract from their primary responsibility of supervising inmates.

Prohibition on Incarcerated Person Control

203.1 PURPOSE AND SCOPE

The purpose of this policy is to define the requirement that staff should at all times exercise control of the incarcerated person population under their supervision and should prevent incarcerated persons from controlling other incarcerated persons within the facility.

203.2 POLICY

All staff, including support staff, contractors, and volunteers should exercise control and supervision of all incarcerated persons under their control. It is the policy of this office to prohibit any staff member to implicitly allow, or by dereliction of duty allow, any incarcerated person or group of incarcerated persons to exert authority over any other incarcerated person (Penal Code § 4019.5; 15 CCR 1083(b)).

203.3 EDUCATION, DRUG, OR ALCOHOL PROGRAM ASSISTANTS

Nothing in the policy is intended to restrict the legitimate use of incarcerated persons to assist in the instruction of educational or drug and alcohol programs. Any use of incarcerated persons in this manner will be expressly authorized by the Facility Manager in a legally prescribed manner. Any program that uses incarcerated persons to assist in legitimate program activities will be closely supervised by facility employees or vocational instructors. Nothing in this section is intended to authorize an incarcerated person program assistant to engage in disciplining other incarcerated persons.

Equipment Inventory and Supplies

204.1 PURPOSE AND SCOPE

This facility must have the materials, supplies and equipment that are necessary to maintain effective and efficient operations. This policy establishes responsibilities and requirements for purchasing, storing and inventory of those items.

204.2 POLICY

The Facility Manager shall ensure that all correctional facility property and fixed assets are inventoried annually and that all supplies purchased are reconciled with the invoice prior to payment.

The Santa Cruz County Sheriffs Office maintains a secure storage area for the purpose of storing supplies and equipment. The Facility Manager shall maintain oversight of the area.

204.3 PURCHASING

The Facility Manager, along with the Administrative Services Manager, is responsible for managing the purchasing process to ensure that amounts and types of purchases fall within budget parameters. The Facility Manager must also ensure that this facility's purchasing process complies with applicable laws, regulations and office policies.

With approval of the Facility Manager and the Administrative Services Manager, small purchases of critical need may be reimbursed by way of petty cash.

Personnel with spending authority should adhere to the following strategies:

- (a) Be knowledgeable about the county's requirements and procedures for purchasing goods and services.
- (b) Establish a working relationship with this facility's purchasing agent.
- (c) Provide the purchasing agent with information describing the types of goods and services required to operate the facility.
- (d) Ensure that staff with spending authority follow procedures that outline the process for submission and approval of purchase requisitions.
- (e) Review purchase requisitions to verify the need, urgency and priority.
- (f) Monitor service contracts to ensure that this facility is receiving the scope and quality of services specified in the contract.
- (g) Regularly monitor expenditures to make certain the purchase of goods and services is charged to the appropriate accounts and within budget limits.
- (h) Keep purchase records to maintain the integrity and availability of purchasing documents, including requisitions, purchase orders, receiving reports and invoices.

Equipment Inventory and Supplies

204.4 EQUIPMENT INVENTORY

The Facility Manager or authorized designee will conduct an audit on all supplies and equipment annually. The Auditor's Office may also conduct an interim audit on all fixed assets in order to maintain a complete and accurate accounting of equipment and its location.

Tool and Culinary Equipment

205.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a tightly controlled process for the use of tools and culinary equipment in order to reduce the risk of such items becoming weapons for the incarcerated person population. While there are times that specific incarcerated workers may need to possess tools or equipment for legitimate daily operations, the possession and use of those tools must be carefully monitored and controlled by staff (15 CCR 1029(a)(6)).

205.2 POLICY

It is the policy of this facility to securely store, inventory, control and monitor the use of tools and culinary equipment to ensure accountability and the secure use of these items (15 CCR 1029(a)(6)).

205.2.1 CUSTODY TOOLS

Tools include all implements that are maintained within the secure perimeter of the facility to complete specific tasks. These tools include, but are not limited to, mops, brooms, dustpans and floor polishers.

All tools, culinary items or medical equipment shall be locked in secure cabinets or storage rooms when not in use.

Any time tools are brought into a secure area where inmates are present, staff supervising the area shall count the number of tools brought in to ensure that the same number of tools is taken out.

Any tool that is used within the secure perimeter of the facility must be closely monitored and controlled by the staff supervising the area so that it cannot be used as a weapon (15 CCR 1029(a)(6)). Inmates who are assigned tasks that require these tools shall be closely supervised.

An inventory of all tools used and stored within the secure perimeter of the facility shall be developed and maintained by the Facility Manager. Tools will be inventoried by an assigned staff member at least once every 24 hours. The loss of any tool will be immediately reported to the on-duty supervisor, who shall initiate immediate action to locate or account for the missing tool, including:

- (a) Detaining and searching any inmate who had access to the tool.
- (b) Conducting a thorough search of the immediate area for the missing item.
- (c) Initiating a facility-wide search.

The staff member responsible for the supervision of the use of the missing tool will prepare and submit a report to the Sergeant documenting the specific tool that is missing and the circumstances of the disappearance. The report will be forwarded to the Facility Manager. All staff members involved in the search will submit a report to the on-duty supervisor documenting their findings.

Tool and Culinary Equipment

205.2.2 MAINTENANCE OR CONSTRUCTION TOOLS

Maintenance or construction tools are those tools and equipment that are brought into and out of the secure perimeter of the facility by employees or contractors to facilitate repairs or construction of the physical plant. Only the tools and equipment needed specifically for the intended work will be permitted into the facility. All tools and equipment will be inventoried and a list of the tools will be provided to the control booth prior to any tools or equipment being brought inside the secure perimeter.

A staff member will check the tools being brought into this facility against the inventory list. Prior to entering the secure perimeter of the facility, the contractor shall be instructed to maintain personal possession of the tools at all times. When it is necessary to complete a task in an area where inmates are present, the inmates shall be locked down by staff supervising the area.

When the person has finished working in the area, a corrections officer will ensure that all tools are accounted for. In the event of a discrepancy, the on-duty supervisor shall be immediately notified and appropriate action taken to locate or account for the items. Once all tools have been accounted for, the inmates may be released from lockdown.

205.2.3 EXTERIOR-USE TOOLS

Exterior-use tools are those that are used by inmate workers outside of the secure perimeter. These tools include, but are not limited to, the following:

- Handheld tools
- Power tools
- Landscape maintenance tools
- Farm equipment

Only inmate workers who are classified to work outside the secure perimeter of the facility will be allowed to possess exterior-use tools. The corrections officer responsible for supervising inmate workers on outside work crews will inventory all tools assigned for this purpose at the beginning of the shift.

Any tool issued to an inmate will be logged with the inmate's name, the tool type and serial number documented. When an inmate worker is finished with that tool, the responsible staff member shall check the tool against the check-out log and document its return. Inmate workers shall not be permitted to pass tools between each other except under the direct supervision of a corrections officer.

All tools will be checked-in and noted on the log and returned to the tool storage area at the end of each shift. Inmate workers should not be released from the work assignment until all tools are accounted for.

In the event that an exterior-use tool is missing, the corrections officer shall immediately notify a supervisor. A thorough search for the tool will be undertaken and an incident report shall be completed. Inmates may only be released from their work assignments when it has been

determined that it is safe to do so, and upon the approval of the supervisor. The incident report with all relevant information shall be forwarded to the Facility Manager.

205.2.4 KITCHEN EQUIPMENT

Culinary tools are located in the kitchen and include common tools used in the preparation, service and delivery of meals.

All kitchen knives or metal tools with sharp edges shall be stored in a locked cabinet. There shall be an outline of the tool's assigned location in the cabinet so that any tool missing from the cabinet can be easily identified. When in use, all knives shall be tethered to the work area. All tools shall be returned to the secure cabinet when not in use.

Staff assigned to the kitchen shall inventory all kitchen tools at the beginning of his/her shift and prior to the arrival of inmate workers. Kitchen tools will only be issued to inmates who have been classified as inmate workers. Staff will supervise inmates at all times when the inmates are using tools.

Each tool issued will be assigned to an individual inmate and logged. The inmate's name and the tool type will be documented. When an inmate worker is finished with a tool, the tool shall be checked in with the corrections officer and documented. Inmate workers shall not be permitted to pass tools between each other except under the direct supervision of a corrections officer.

All tools will be returned to the kitchen tool cabinet at the end of each shift and must be accounted for prior to any inmate worker being released from the work assignment.

In the event that a kitchen tool is missing, the corrections officer shall immediately notify the on-duty supervisor, who shall initiate immediate action to locate or account for the missing tool. A thorough search for the tool will be undertaken and an incident report shall be completed by the corrections officer responsible for the supervision of the use of the tool. The incident report with all relevant information shall be forwarded to the Facility Manager.

Disposition of Evidence

206.1 PURPOSE AND SCOPE

The purpose of this policy is to provide direction regarding the proper handling and disposition of contraband and evidence to ensure that the chain of custody is maintained so that evidence is admissible in a court of law or disciplinary hearing.

206.2 POLICY

It is the policy of the Santa Cruz County Sheriff's Office to seize evidence and contraband in accordance with current constitutional and search-and-seizure law. Members of this office shall properly handle all contraband and evidence in order to maintain its admissibility. All contraband and evidence shall be handled in a safe manner and in a way that will maintain the chain of custody.

206.3 INITIAL SEIZURE OF EVIDENCE

Any staff member who first comes into possession of any evidence should retain such evidence in their possession until it is properly tagged and booked. When handling evidence and contraband, staff should observe the following safety precautions:

- (a) Unload any firearm located in the approved loading/unloading area outside of the facility. If it is a revolver, the cylinder should be left open. If it is a semi-automatic pistol, the magazine shall be removed and the slide locked back in an open position. The cartridges and/or magazine will be packaged separately and booked with the firearm.
- (b) Sheath any knife or other stabbing instrument in its holster (if any), or attach (tape) stiff cardboard to completely cover the blade.
- (c) Place needles, such as syringes, into a hard plastic container that cannot be punctured by the needle.
- (d) If the contraband is a suspected "home brew" alcoholic beverage, the handling corrections officer shall place a sample of the liquid in a plastic container that can be safely sealed. The remainder of the liquid will be treated as a biohazard and carefully disposed of as recommended by the environmental health official.

206.4 PROPERTY BOOKING PROCEDURE

All property shall be booked prior to the employee going off-duty unless otherwise approved by a supervisor. Employees booking property shall observe the following guidelines:

- (a) Complete the property form describing each item of property separately, listing all serial numbers, owner's name, finder's name and other identifying information or markings.
- (b) Mark each item of evidence with the booking employee's initials and the date booked using the appropriate method to prevent defacing or damaging the value of the property.
- (c) Complete an evidence/property tag and attach it to each package or envelope in which the property is stored.

Disposition of Evidence

- (d) Place the case number in the upper right corner of the bag or in the appropriate field of the evidence/property tag.
- (e) The original property form shall be submitted with the case report. A copy shall be placed with the property in the temporary property locker or with the property if it is stored somewhere other than a property locker.
- (f) When the property is too large to be placed in a locker, the item may be retained in the secure supply room or another area that can be secured from unauthorized entry. Place the completed property form into a numbered locker indicating the location of the property.

206.4.1 NARCOTICS AND DANGEROUS DRUGS

All narcotics and dangerous drugs shall be booked separately using a separate property form. Paraphernalia shall also be booked separately. All narcotics and dangerous drugs shall be properly weighed by the booking staff member. The weight of all narcotics and dangerous drugs shall be documented on the booking form. A copy of the booking form shall be placed with the evidence in the designated locker and shall also be distributed in accordance with current evidence booking procedures.

206.4.2 EXCEPTIONAL HANDLING

Certain property items require a separate process. Bodily fluids, such as blood or semen stains, shall be air-dried prior to booking.

206.4.3 RECORDING OF PROPERTY

The property officer receiving custody of evidence or property shall record on the property control card their signature, the date and time the property was received, and where the property will be stored.

A property number shall be obtained for each item or group of items. This number shall be recorded on the property tag and the property control card.

Any changes in the location of property held by the Office shall be noted in the property log book.

206.4.4 PROPERTY CONTROL

Every time property is released or received, an appropriate entry on the evidence package and property control card shall be completed to maintain the chain of custody. No property or evidence is to be released without first receiving written authorization from a supervisor or the employee who is managing the case.

Corrections officers desiring property for court shall contact the property officer at least one day prior to the court day.

Request for analysis for items other than narcotics and dangerous drugs shall be completed on the appropriate forms and submitted to the property officer. This request may be filled out any time after booking the property or evidence.

206.4.5 STATUS OF PROPERTY

Each person receiving property will make the appropriate entry to document the chain of custody. Temporary release of property to a law enforcement authority for investigative purposes or for court shall be noted on the property control card, stating the date, time and to whom it was released.

The property officer shall obtain the signature of the person to whom the property was released and the reason for release. Any employee receiving property shall be responsible for such property until it is returned to property or released to another authorized person or entity.

The return of the property should be recorded on the property control card, indicating date, time and the name of the person who returned the property.

206.5 RELEASE OR DISPOSITION OF UNCLAIMED FUNDS AND PROPERTY

The employee managing the case or a supervisor shall authorize the disposition or release of all evidence and property coming into the care and custody of the Office.

All reasonable attempts should be made to return unclaimed property, found property, or evidence not needed for an investigation.

Release of property shall be made upon receipt of an authorized release form. The release authorization shall be signed by the approving staff member and must match the items listed on the property form or must specify the items to be released. A signature of the person receiving the property shall be recorded on the original property form. Upon release, the proper entry shall be documented on the property control card log and related forms.

The Property supervisor shall ensure that all cash not needed as evidence or funds that are left unclaimed by an incarcerated person, are transferred as soon as practical to the Auditor's Office. A record of the transfer shall be kept in the appropriate incarcerated person file.

The Property supervisor or the authorized designee shall submit a report of presumed abandoned property or funds once a year to the Sheriff and the Auditor's Office, or more frequently as directed. The Property supervisor may dispose of property in compliance with existing laws upon receipt of proper authorization from the Sheriff.

Found property and property held for safekeeping shall be held for a minimum of 90 days during which time the property officer shall attempt to contact the rightful owner if sufficient identifying information is available. If no person appears to prove rightful ownership of the property during this period, the Office shall publish notice of its possession of any property valued at \$250 or more at least once in a newspaper of general circulation. If, after seven days following the publication, a person does not appear to claim ownership, the property shall be sold at public auction. Property valued at less than \$250 shall be sold at public auction if no person appears to prove rightful ownership within 90 days (Civil Code § 2080.3).

If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed in accordance with applicable law. The final disposition of all such property shall be fully documented in related reports.

Disposition of Evidence

The property officer shall release the property upon proper identification presented by the person receiving the property for which an authorized release has been received. A signature of the person receiving the property shall be recorded on the original property form. Upon release, the proper entry shall be documented in the property log.

After release of all property listed on the property control card, the card shall be forwarded to the Records Section for filing with the case. If some items have not been released, the property card will remain in the property section.

206.6 DISPOSITION OF PROPERTY

All property not held for evidence in a pending criminal investigation or proceeding, and held for three months or longer because the owner has not been located or has failed to claim the property, may be disposed of in compliance with existing laws, upon receipt of proper authorization for disposal.

Property personnel shall make reasonable efforts to attempt to contact the owner when known. Property not held for any other purpose and not claimed within 90 days after notification (or receipt, if notification is not feasible) may be auctioned to the highest bidder at a properly published public auction. If such property is not sold at auction or otherwise lawfully claimed, it may thereafter be destroyed (Civil Code § 2080.6). The final disposition of all such property shall be fully documented on the property control card and in any related reports (Civil Code § 2080.6).

206.7 UNCLAIMED MONEY

Except as otherwise provided by law, money, excluding restitution to victims, that is in the custody of this office and is no longer needed as evidence, and that remains unclaimed after three years, will be transferred to the general fund after proper notice has been given. Before transferring the money to the general fund, the Office shall publish a notice each week for a period of two consecutive weeks in a local newspaper of general circulation, in accordance with all laws, ordinances and regulations (Government Code § 50050 et seq.). Such notice shall state the amount of money, the fund in which it is held and that the money will become the property of the office on a designated date, between 45 days and 60 days after the first publication of the notice (Government Code § 50051).

If the money remains unclaimed as of the date designated in the published notice, the money will become the property of this office to fund official custody facility operations. Money representing restitution collected on behalf of victims shall either be deposited into a restitution fund or used for purposes of victim services.

Any individual item with a value of less than \$15, or any amount of money if the depositor/owner's name is unknown, that remains unclaimed for a year or by order of the court, may be transferred to the general fund without the necessity of public notice in accordance with applicable laws, ordinances and regulations (Government Code § 50055).

Records and Data Practices

207.1 PURPOSE AND SCOPE

This policy establishes guidelines for the control and access of confidential records by staff, contractors and volunteers.

207.2 ACCESS TO CRIMINAL RECORDS

Official files, documents, records, electronic data, video and audio recordings and information held by the Santa Cruz County Sheriffs Office or in the custody or control of office employees, volunteers or contractors are regarded as non-public and/or confidential.

Access to confidential paper or electronically generated records in this facility is restricted at various locations according to job function and the need to know. Employees working in assigned areas will only have access to the information that is necessary for the performance of their duties. Granting access to other employees or anyone outside of the work area must meet with supervisory approval. All requests for information received from outside the office shall be forwarded to the Facility Manager.

Custody staff, volunteers and contractors shall not access, disclose or permit the disclosure or use of such files, documents, reports, records, video or audio recordings or other confidential information except as required in the performance of their official duties and in accordance with office policies, statutes, ordinances and regulations related to data practices.

Custody staff, volunteers and contractors who are uncertain of the confidentiality status of any document should consult with a supervisor or Facility Manager to determine the status of the documents in question.

207.3 STAFF TRAINING

Prior to being allowed to work inside this facility, all custody staff, volunteers and contractors will receive training on office policies and confidentiality requirements, including the potential criminal and civil penalties that may result from a breach of confidentiality in violation of this policy and all applicable statutes.

Research Involving Incarcerated Persons

208.1 PURPOSE AND SCOPE

The purpose of this policy is to establish safeguards and guidelines to protect incarcerated persons from being used as research subjects in medical and other research experiments based only on their status as incarcerated persons and without proper approval, review, or informed consent.

208.2 POLICY

The Santa Cruz County Sheriff's Office will conduct and support research that improves operations, enhances professional knowledge, decreases recidivism, and advances the office's mission in accordance with existing laws and with appropriate protection of all incarcerated persons. However, the use of incarcerated persons for medical, pharmaceutical, or cosmetic experiments is prohibited.

208.3 AUTHORIZATION REQUIREMENTS

Prior to initiating any approved research, all persons conducting research in this facility must agree to abide by all office policies relating to the security and confidentiality of incarcerated person files. Based upon the intended use of the research, guidelines will be established regarding what information shall be accessible to the researcher or the research organization.

Any requests for an exception shall include a response to the following questions as part of the proposed research project:

- Who is conducting the research?
- What is the purpose of the research?
- What is the methodology?
- Do the researchers or persons advocating research involving the use of incarcerated persons have an understanding of their ethical responsibilities, including considerations for the establishment of an Institutional Review Board (IRB), as described in 45 CFR 46.301 et seq.?
- Any other information as deemed appropriate by the Facility Manager or Sheriff.

Inquiries regarding proposed research projects from local, state, and federal executive and legislative bodies/agencies will be brought to the attention of the Sheriff immediately by the employee who receives the request. At the direction of the Sheriff, an appropriate and timely response will be made to each legitimate inquiry.

Research or studies involving more than the information identified as public information may require signed release/waiver forms from the involved incarcerated persons. The Sheriff should consult and seek guidance from the legal counsel serving the Office or other legal expert in these matters.

Incarcerated persons are not precluded from individual treatment based on the need for a specific medical procedure that is not generally available. An incarcerated person's treatment with a new

medical procedure by the incarcerated person's own physician shall be undertaken only after the incarcerated person has received a full explanation of the positive and negative features of the treatment, and only with the incarcerated person's informed consent.

208.4 LEGAL CONSIDERATIONS

Any research conducted or supported by the United States Department of Health and Human Services (DHHS) will be required to comply with the provisions of 45 CFR 46.301 et seq.

208.4.1 BIOMEDICAL RESEARCH

Research relating to or involving biological, medical, or physical science shall not be conducted on any incarcerated person. This does not include the accumulation of statistical data in the assessment of the effectiveness of nonexperimental public health programs or treatment programs in which incarcerated persons routinely participate (Penal Code § 3502).

Records-based biomedical research using existing information, without prospective interaction with incarcerated persons, may be conducted consistent with Penal Code § 3500 et seq. and federal law.

208.5 INCARCERATED PERSONS IN COMMUNITY-BASED RESEARCH

When incarcerated persons who are participants in a community-based research protocol are admitted to the facility, the following shall occur:

- (a) The intake nurse shall collect all relevant data, including name and contact information of the treating physician, and all available detail about the treatment regimen and the condition being treated.
- (b) The responsible physician shall be contacted prior to the initiation of treatment.
- (c) Consultation with community researchers shall be made by the responsible physician to determine the intent of the study and any necessary parameters to measure as the treatment period progresses.
- (d) Necessary information shall be obtained so that withdrawal from the research protocol is done without harming the health of the incarcerated person.

208.6 HUMAN RESEARCH STUDIES

This office does not endorse enrolling incarcerated persons in human research studies. Requests to enroll incarcerated persons in human research studies will not ordinarily be approved. However, any request to enroll an incarcerated person into such a study must be reviewed by the Sheriff, the Responsible Physician, and legal counsel, and authorization provided prior to enrollment. Any authorized enrollments shall comply with all state and federal guidelines.

Incarcerated Person Records

Report Preparation

210.1 PURPOSE AND SCOPE

Report preparation is a major part of each corrections officer's job. The purpose of these reports is to document incidents at the facility, refresh the corrections officer's memory, and provide sufficient information for a follow-up investigation and successful prosecution or a disciplinary proceeding. Report writing is the subject of substantial formal and on-the-job training.

210.2 REPORT PREPARATION

Employees should ensure that reports are sufficiently detailed for their purpose and free from errors prior to submission. Reports shall be prepared by the staff assigned to investigate or document an incident, approved by a supervisor and submitted to the Facility Manager or the authorized designee in a timely manner (15 CCR 1044). Reports relating to any incident resulting in death, serious injury or endangerment to staff, incarcerated person, or a visitor; an escape; a major disturbance; a facility emergency, or an unsafe condition at the facility shall be submitted to the Facility Manager as soon as practicable but within 24 hours of the incident. It is the responsibility of the assigned employee to ensure that all the above listed reports meet this requirement or that supervisory approval has been obtained to delay the report. The supervisor must determine whether the report will be available in time for appropriate action to be taken, such as administrative notifications or resolution, investigative leads, or an incarcerated person disciplinary proceeding.

Handwritten reports must be prepared legibly. If the report is not prepared legibly, the employee shall be required by the reviewing supervisor to promptly correct the report. Employees who dictate reports by any means shall use appropriate grammar, as content is not the responsibility of the typist. Employees who generate reports on computers are subject to all requirements of this policy.

All reports shall accurately reflect the identity of the persons involved, all pertinent information seen, heard, or assimilated by any other sense, and any actions taken. Employees shall not suppress, conceal, or distort the facts of any reported incident, nor shall any employee make a false report orally or in writing. Generally, the reporting employee's opinions should not be included in reports unless specifically identified as such.

210.3 REQUIRED REPORTING

Written reports are required in all of the following situations on the appropriate office-approved form unless otherwise approved by a supervisor (15 CCR 1044).

210.3.1 CRIMINAL ACTIVITY REPORTING

When an employee responds to an incident, or as a result of self-initiated activity, and becomes aware of any activity where a crime has occurred, the employee is required to document the activity. The fact that a victim is not desirous of prosecution is not an exception to documentation.

210.3.2 INCIDENT REPORTING

Incident reports generally serve as an in-house notation of occurrences in the facility and to initiate, document, and support the incarcerated person disciplinary process. The Office shall establish a

Report Preparation

filing system that differentiates between incident reports, crime reports, and disciplinary actions. This policy does not require the duplication of information on two different forms. Where both exist, cross-referencing facilitates retrieval of one or both.

Incidents that shall be documented using the appropriate approved report include (15 CCR 1044):

- (a) Non-criminal incidents of rule violations by incarcerated persons.
- (b) Attempted suicide or suicidal ideation on the part of an incarcerated person.
- (c) Non-criminal breaches of security or evidence of an escape attempt.

- (h) Traffic collisions involving office vehicles.
- (i) Risk management incidents, including injuries to incarcerated persons and lost or damaged property.
- (j) Accidental injuries of staff, incarcerated persons, or the public.
- (k) Unusual occurrences.

210.3.3 DEATHS

All deaths shall be investigated and a report completed by a qualified investigating officer to determine the manner of death and to gather information, including statements of incarcerated persons and staff who were in the area at the time the death occurred.

Reporting of deaths will be handled in accordance with the Reporting In-Custody Deaths Policy.

210.3.4 INJURY OR DAMAGE BY OFFICE PERSONNEL

Reports shall be taken if an injury occurs that is a result of an act of an employee. Reports shall be taken involving damage to property or equipment.

210.3.5 USE OF FORCE

Reports related to the use of force shall be made in accordance with the Use of Force Policy.

210.4 GENERAL POLICY OF EXPEDITIOUS REPORTING

In general, all employees and supervisors shall act with promptness and efficiency in the preparation and processing of all reports. An incomplete report, unorganized reports or reports delayed without supervisory approval are not acceptable. Reports shall be processed according to established priorities or according to special priority necessary under exceptional circumstances.

Report Preparation

210.4.1 GENERAL POLICY OF HANDWRITTEN REPORTS

Some incidents and report forms lend themselves to block print rather than typing. In general, the narrative portion of those reports in which there is a long narrative should be typed or dictated.

Supervisors may require, with the foregoing general policy in mind, block printing or typing of reports of any nature for office consistency.

210.4.2 GENERAL USE OF OTHER HANDWRITTEN FORMS

County, state and federal agency forms may be block printed as appropriate. In general, the form itself may make the requirement for typing apparent.

210.5 REPORT CORRECTIONS

Supervisors shall review reports for content and accuracy. If a correction is necessary, the reviewing supervisor should return it to the reporting employee for correction as soon as practicable. It shall be the responsibility of the originating employee to ensure that any report returned for correction is processed in a timely manner. It shall be the responsibility of the supervisor rejecting the report to follow up on any report corrections not received in a timely manner.

210.6 REPORT CHANGES OR ALTERATIONS

Reports that have been approved by a supervisor and submitted to the Records Section for filing and distribution shall not be modified or altered except by way of a supplemental report. Reviewed reports that have not yet been submitted to the Records Section may be corrected or modified by the authoring employee only with the knowledge and authorization of the reviewing supervisor. Reviewing supervisors should not alter reports. When modifications are required, these should be the responsibility of the authoring employee.

210.7 ELECTRONIC SIGNATURES

The Office has established an electronic signature procedure for use by all employees. The Facility Manager or the authorized designee shall be responsible for maintaining the electronic signature system and ensuring that each employee creates a unique, confidential password for their electronic signature. The system use and design shall follow the requirements of Civil Code § 1633 et seq. when applicable.

- (a) Employees may only use their electronic signature for official reports or other official communications.
- (b) Each employee shall be responsible for the security and use of their electronic signature and shall promptly notify a supervisor if the electronic signature has or may have been compromised or misused.

210.8 DOCUMENTATION OF DE-ESCALATION TECHNIQUES

Officers should document in their reports any de-escalation techniques employed prior to the application of force. In instances where the use of de-escalation techniques are not practicable or reasonable based on the totality of the circumstances, officers should articulate the specific factors that rendered such techniques untenable.

Key and Electronic Access Device Control

211.1 PURPOSE AND SCOPE

The control and accountability of facility keys and electronic access devices are vital factors in maintaining a safe and secure environment for incarcerated persons, staff, volunteers, contractors, and the public (15 CCR 1029(a)(6)). This policy outlines the methods that the Office will use in maintaining strict security of its keys and electronic access devices. For ease of reference, the term "key" as used in this policy includes all physical means of access to or exit from the secure areas of the facility.

211.2 POLICY

It is the policy of this office that all keys used to access secure areas of the facility or to exit the secure areas of the facility are strictly controlled. Employees and supervisors will be held accountable for the security and safety of the facility. All key control activities shall be accurately documented on a daily basis (15 CCR 1029(a)(6)).

211.3 KEY CONTROL RECORDS

A shift roster will be maintained for the accounting and security of all keysets. Each shift is responsible for reporting any key malfunctions or missing keysets.

211.4 ELECTRONIC ACCESS DEVICES

Proximity cards, fobs, or other devices may be issued to staff to allow access to restricted or controlled areas of the facility. In the event of a lost or stolen device, an employee shall notify their supervisor as soon as it is known the device is missing. The device shall be immediately deactivated to prevent unauthorized use.

211.5 KEY IDENTIFICATION

All keys that open any doors within the facility shall be marked with unique identification codes that will allow for quick inventory. Keys that are bundled together as a set shall be numbered or coded with a tag to identify that set and the number of keys on the ring. The identifying numbers or code on keys shall not correspond to numbers/codes on locks.

A separate secure document identifying all keys will be maintained by the Central Control supervisor.

211.6 KEY SET CONTENTS

Key sets issued to staff for use within the secure perimeter of the facility shall not contain any key that would permit access to areas outside the secure perimeter. The armory key shall not be permitted inside the secure perimeter. Exterior door keys shall not be permitted inside the facility except during an emergency requiring access to the exterior doors.

211.7 KEY CONTROL

All facility keys shall be maintained in a locked key box within the Central Control room. This room shall have controlled access for staff only. Each person assigned to the facility shall be issued

Key and Electronic Access Device Control

key tags bearing their employee number. Key sets will be exchanged for key tags to maintain a record of which employee has which set. At the end of a shift, employees shall exchange all keys for their key tags.

Under no circumstances shall an employee pass a key or key set to another employee. All keys must be checked out through the control process. Employees shall not possess any key for which they have not been authorized.

Employees shall not duplicate, mark, alter, or manufacture any key without written authorization from the Facility Manager or the authorized designee.

Central Control staff shall, at the beginning and end of their respective shifts, inventory the key box and its contents. All keys must be accounted for before the end of shift.

Under no circumstances will security keys be made available to incarcerated persons regardless of their status.

211.8 LOCK POLICY

All security perimeter entrances, Central Control doors and cell doors shall be kept locked, except when used for admission or exit of employees, incarcerated persons, or visitors, and in an emergency. Operators of sallyports shall ensure that only one of the doors of a sallyport is opened at any time for entry or exit purposes, except where the entry or exit of emergency personnel requires the operator to override the doors and allow for rapid entry or exit. Each time the override function is engaged, the officer must submit a written report to the on-duty supervisor prior to the end of their shift.

211.9 EXTERIOR DOOR AND ARMORY KEYS

Keys for exterior doors to the facility and the armory shall be kept in a locked cabinet in a secure location, outside of the facility's secure perimeter. Supervisors shall, at the beginning and end of their respective shifts, inventory and account for these keys.

211.10 EMERGENCY KEY SET

At least one key set containing every key for the facility shall be kept separate from all other key sets in a secure location and made accessible only to the Facility Manager, the Sergeant, the supervisor, or the authorized designee in the event of an emergency.

211.11 MISSING KEYS

Any staff member who discovers that a key or key set is missing shall immediately make a verbal report to a supervisor and shall prepare a written incident report as directed by the supervisor. The supervisor shall immediately initiate a search for the missing key. If a reasonable effort to locate the key fails, the supervisor shall order a lockdown of the facility. All incarcerated persons shall be locked in their cells/housing units and a headcount conducted. Incarcerated persons shall not be allowed to pass into or out of the facility without being thoroughly searched for the missing key. The supervisor shall, as soon as practicable, notify the Facility Manager regarding the loss of the key, when it was discovered and the circumstances involved.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Key and Electronic Access Device Control

A methodical and thorough search of the entire facility will be made by the on-duty staff.

Additional staff may be called to assist with the search. If, after a thorough search, the key or key set is not located, the Facility Manager will determine whether to re-key any locks that may have been compromised, and whether this should be done immediately.

The Facility Manager shall initiate an investigation into the disappearance of the keys to reexamine the procedures for key control, and shall notify the Sheriff of their findings. Based upon the findings of the investigation and any recommendations, the procedures governing this policy may be amended.

211.12 DAMAGED KEYS OR LOCK

Damaged keys or locks shall be promptly reported to a supervisor. No part of a broken key shall be left in the lock. All portions of the damaged key must be turned in to the Sergeant, who will ensure duplicate keys are provided as needed. Damaged locks shall be replaced or repaired as soon as practicable. Appropriate security measures shall be taken until such time as the lock is properly restored. No lock to a security door or gate shall be permitted to be inoperable or left in an unsuitable condition. No incarcerated person shall be secured in a cell, detention room, or area that has inoperable locks.

Administrative and Supervisory Inspections

212.1 PURPOSE AND SCOPE

The purpose of this policy is to establish both regularly scheduled and unannounced inspections of the facility's living and activity areas. This is to encourage contact with staff and incarcerated persons and to observe incarcerated person living and working conditions. Inspections may be useful in identifying deficiencies, which can be corrected, as well as processes working properly, which may be replicated elsewhere in the facility.

212.2 POLICY

Tours and inspections shall be conducted by administrative and supervisory staff throughout the correctional facility at least weekly to facilitate and encourage communication among administrators, managers, supervisors, staff employees, incarcerated persons, and the visiting public.

212.3 INSPECTIONS

- Incarcerated person housing areas
- Booking and receiving areas, including holding cells
- Exercise yard and recreation areas
- Visiting and program areas
- Medical and dental service areas
- Vocational work areas, e.g., the kitchen, janitorial closets

Administrative and Supervisory Inspections

212.4 INSPECTIONS OF SECURITY EQUIPMENT

The Facility Manager shall be responsible for designating a qualified person to conduct weekly inspections of all security devices, identifying those in need of repair or maintenance and providing a written report of the results of the inspection. The Facility Manager shall document all action taken to correct identified deficiencies, including maintenance records, and shall retain those records in accordance with established records retention schedules.

212.5 DOCUMENTATION AND REPORTING

Each staff member conducting the inspection or tour shall document the activity in the appropriate station form or facility log. The log should include any significant findings that indicate remedial action or training may be needed. Significant issues of security or safety shall be addressed promptly. Commendable or successful actions that should be replicated elsewhere in the facility should also be noted in the log.

The Sergeant shall review the logs daily and ensure that any deficiencies noted are addressed or forwarded through the chain of command, as appropriate, and that commendable actions are also appropriately addressed.

Perimeter Security

213.1 PURPOSE AND SCOPE

The purpose of this policy is to establish this facility's perimeters, to ensure that incarcerated persons remain inside the perimeters, and that visitor, vendor, volunteer, and employee access is granted only with proper authorization and through designated safety vestibules and sallyports. The secure perimeter of this facility will provide protection from the escape of persons being processed, held, or housed, and will act as a defense against the entry of unauthorized persons. It shall be maintained to prevent contraband from entering the secure areas of the facility (15 CCR 1029(a)(6)).

213.2 POLICY

All entry points to the secure perimeter of the facility shall be monitored and controlled continuously by Central Control staff. The entire perimeter shall be inspected, maintained, monitored, and continuously assessed to ensure its physical integrity and prevent unauthorized entry, incarcerated person escape, and contraband from entering the facility.

213.2.1 VISITORS

This facility shall be maintained as a secure area and no person shall enter any portion of the inner perimeter without specific authorization from the Facility Manager or the authorized designee. All visitors shall be required to provide satisfactory identification, such as a valid driver's license, valid passport or military identification. Visitors shall be required to sign in on the visitor log and state the reason for the visit. Visitors must wear a visitor's badge at all times and shall be escorted by one or more staff members at all times while they are in the secure areas of the facility.

213.3 PROCEDURE

The secure perimeter shall be maintained by assigned staff as well as a contracted law enforcement agency. The Facility Manager or the authorized designee shall ensure that a staffing plan is in place to monitor the secure perimeter of this facility. Suspicious activity at or near the perimeter shall immediately be reported to the Sergeant and the Central Control. The Central Control staff shall initiate an appropriate law enforcement response.

Individuals suspected to be in violation of any law may be subject to detention or arrest. Warrant checks should be conducted on all individuals who are on the property without proper authorization. Individuals found to be loitering on or around the perimeter of the facility will be stopped and questioned to determine the circumstances of their presence. They may be denied entrance into the facility.

The Central Control staff shall identify all persons seeking to gain access to the secure perimeter of the facility. Persons delivering goods or services shall identify themselves to the Central Control staff prior to being allowed access to the delivery area.

Santa Cruz County Sheriff's Office

Perimeter Security

Materials delivered to or transported from the facility's secure perimeter shall be inspected for contraband. Vendors making deliveries into the secure area of the facility will do so under the supervision of custody staff.

Keys to the secure perimeter shall be easily identifiable and issued only in emergency situations or with the authorization of the Facility Manager.

Weapons lockers are provided outside all secure perimeter entrances. All weapons must be secured prior to an individual being allowed to enter the facility.

The sallyport and the secure garage are to be used for the transfer of incarcerated persons.

Operation of the sallyport doors will be done in such a manner as to effectively control movement into and out of the secure inner perimeter of this facility. Central Control staff are responsible for ensuring all perimeter surveillance equipment is in good working order and shall immediately report malfunctions or failures to the on-duty supervisor.

Outer perimeter security may be accomplished by using fencing or another type of barrier. These barriers should be designed to route vehicular and pedestrian traffic away from non-public areas. Outer perimeter lighting should be designed to illuminate all areas of the exterior to allow visual inspection by video monitor or perimeter patrols.

The Facility Manager shall ensure that a system is in place for individuals to request release or escape notification on any incarcerated person housed in this facility.

Notification requests or requirements that are known during the booking process should be documented in the appropriate designated section of the incarcerated person's booking file.

In the event that an individual contacts this facility and requests notification on any incarcerated person housed in this facility, staff should notify a supervisor, who will determine whether notifications are required or appropriate, and ensure the notification request and determination is documented in the incarcerated person's file. Subsequent and continuing attempts shall be made to contact the person using the numbers listed in the notification request. All attempts to contact shall be documented on the victim notification request form.

Vehicle Safety

218.1 PURPOSE AND SCOPE

It is the policy of this office to maintain and operate the vehicles assigned to this facility in a lawful and safe manner. The Office utilizes office-owned motor vehicles for a variety of applications. To maintain a system of accountability and ensure that office-owned vehicles are used appropriately, regulations relating to the use of these vehicles have been established. The term "office-owned" as used in this section also refers to any vehicle leased or rented by the Office.

218.2 USE AND SECURITY OF OFFICE VEHICLES

All staff members who operate office-owned or leased vehicles must comply with all applicable state laws and must possess a valid driver's license endorsed for the type of vehicle operated.

A list of individuals who are authorized to drive office vehicles shall be maintained by the Facility Manager. The list shall be updated monthly to ensure that only qualified personnel who are in possession of a current and appropriately endorsed operator's license are on the list.

218.2.1 USE OF SEAT BELTS

The use of seat belts and other safety restraints significantly reduces the chance of death or injury in case of a traffic collision. This policy establishes guidelines for seat belt use to promote maximum operator and passenger safety, thus reducing the possibility of death or injury as the result of a motor vehicle crash. This policy will apply to all members operating or riding in office vehicles.

All members shall wear properly adjusted safety restraints when operating or riding in a seat equipped with restraints, in any vehicle owned, leased, or rented by this office, while on- or off-duty, or in any privately owned vehicle while on-duty. The member driving such a vehicle shall ensure that all other occupants, including non-members, are also properly restrained.

Exceptions to the requirement to wear safety restraints may be made only in exceptional situations where, due to unusual circumstances, wearing a seat belt would endanger the member or the public. Members must be prepared to justify any deviation from this requirement.

Whenever possible, incarcerated persons should be secured in a prisoner restraint system or, when a prisoner restraint system is not available, by seat belts. The incarcerated person should be in the seating position for which seat belts have been provided by the vehicle manufacturer. The prisoner restraint system is not intended to be a substitute for handcuffs or other appendage restraints.

No person shall operate any office vehicle in which the seat belt in the driver's position is inoperable. No person shall be transported in a seated position in which the seat belt is inoperable.

No person shall modify, remove, deactivate, or otherwise tamper with the vehicle safety belts, except for vehicle maintenance and repair staff, who shall do so only with the express authorization of the Sheriff.

Vehicle Safety

Members who discover an inoperable restraint system shall report the defect to the appropriate supervisor. Prompt action will be taken to replace or repair the system.

218.2.2 VEHICLE SECURITY

Office vehicles will be locked and the keys will be secured when not in use. The staff will make every effort to ensure that the vehicles are parked in a secure location.

Under no circumstances will incarcerated persons be allowed to operate a vehicle or have possession of any vehicle keys. Incarcerated workers who are assigned to clean vehicles must be closely supervised by staff.

The loss of any vehicle key shall be promptly reported, in writing, to the on-duty supervisor.

218.3 VEHICLE INSPECTIONS

All office-owned vehicles are subject to inspection and or search at any time by a supervisor. No member assigned to or operating such vehicle shall be entitled to any expectation of privacy with respect to the vehicle or any of its contents, regardless of who owns the contents.

218.4 VEHICLE SAFETY REPAIRS

Anyone authorized to drive office vehicles is responsible for assisting in maintaining the vehicles so that they are properly equipped, maintained, and refueled and present a clean appearance.

Anyone authorized to drive office vehicles is responsible for inspecting the interior and exterior of any assigned vehicle before placing the vehicle into service and again at the conclusion of their shift. Any previously unreported damage, mechanical problems, unauthorized contents, or other problems with the vehicle shall be promptly reported to a supervisor and documented as appropriate.

Vehicles that are deemed as unsafe shall not be used until necessary repairs are made. The written request for repairs shall be submitted before the operator checks out a replacement vehicle. The Facility Manager or the authorized designee shall monitor the maintenance requests and ensure that the necessary repairs are made before the vehicle is placed back into service.

Annual vehicle safety inspections will be conducted on all vehicles that are owned, leased, or used by the Office. The inspection will be conducted by a qualified individual designated by the Facility Manager. Inspection reports will be forwarded to and maintained by the Facility Manager.

218.5 USE OF PERSONAL VEHICLES

The use of personal vehicles for official business must be approved by the Facility Manager. The Facility Manager or the authorized designee shall verify that the personal vehicle meets the state's insurance requirements. A copy of the insurance card shall be retained in facility files. All policies and procedures applicable to facility vehicles shall apply to the personal vehicle while it is being used for official business.

218.6 COLLISION DAMAGE, ABUSE AND MISUSE

When any office-owned or leased vehicle is involved in a traffic collision, the involved member shall promptly notify a supervisor. A traffic collision report shall be filed with the agency having jurisdiction. The member shall complete the office's vehicle collision form.

When a collision involves any office vehicle or when a member of this office is an involved driver in a collision that occurs in this jurisdiction, and the collision results in serious injury or death or potentially involves any criminal charge, an outside agency should be summoned to handle the investigation. If the member is incapable of completing the office's vehicle collision form, a supervisor shall complete the form.

Any damage to a vehicle that was not caused by a traffic collision shall be immediately reported during the shift in which the damage was discovered. It shall be documented in memorandum format and forwarded to the Sergeant. An administrative investigation will be conducted to determine if there is any vehicle abuse or misuse. If it is determined that misuse or abuse was a result of negligent conduct or operation, appropriate disciplinary action may result.

218.7 TOLL ROAD USE

Law enforcement vehicles are not routinely exempt from incurring toll road charges. Pursuant to the non-revenue policy of the toll roads, law enforcement agencies responding to an emergency or incident on the toll roads while on-duty are exempt from paying the toll.

Commuting or returning to the Office after an emergency does not qualify for this exemption; personnel using office-owned vehicles are subject to the toll charge.

To avoid unnecessary toll road violation charges, all members operating a office-owned vehicle on a toll road shall adhere to the following:

- (a) Members operating office-owned vehicles for any reason other than an initial response to an emergency shall stop and pay the appropriate toll charge.
- (b) Members may submit for reimbursement from the Office for any toll fees.
- (c) Members driving office-owned vehicles through a toll plaza or booth during a response to an emergency shall draft a memo to their supervisor within five working days, explaining the circumstances.

218.8 POLICY

The Santa Cruz County Sheriff's Office provides vehicles for official business use and may assign take-home vehicles based on its determination of operational efficiency, economic impact to the [AgencyOffice, tactical deployments, and other considerations.

219.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a comprehensive staffing plan and analysis to identify staffing needs sufficient to maintain the safety and security of the facility, staff, visitors, incarcerated persons, and the public.

219.2 POLICY

It is the policy of the Santa Cruz County Sheriff's Office to ensure the safety, security and efficient operation of this facility by assigning custody personnel according to a detailed staffing plan that is developed and maintained in accordance with law.

219.3 STAFFING PLAN REQUIREMENTS

The Facility Manager shall ensure that a staffing plan conforming to the class type and size of this facility is prepared and maintained as described in the following section. The plan should detail all custody personnel assignments, including work hours and weekly schedules, and should account for holidays, vacations, training schedules, and other atypical situations (15 CCR 1027).

At minimum, the staffing plan will include the following:

- Facility administration and supervision
- Facility programs, including exercise and out of cell time
- Incarcerated person supervision and custody
- Support services including medical, food services, maintenance, and clerical
- Other jail-related functions such as escort and transportation of incarcerated persons

219.4 STAFFING ANALYSIS

The Sheriff or the authorized designee shall complete an annual comprehensive staffing analysis to evaluate personnel requirements and available staffing levels. The staffing analysis will be used to determine staffing needs and to develop staffing plans.

This analysis shall include information gathered in collaboration with the health care provider in each facility regarding staffing requirements. The analysis relating to health care personnel shall be annually reviewed for adequacy by the health authority.

The Facility Manager, in conjunction with the PREA coordinator, should ensure that staffing levels are sufficient to consistently and adequately fill essential positions, as determined by the staffing plan (28 CFR 115.13). Relief factors for each classification and position should be calculated into the staffing analysis to ensure staffing levels will consistently meet requirements. Staff should be deployed in an efficient and cost-effective manner that provides for the safety and security of the staff, incarcerated persons, and the public.

The staffing analysis should be used to identify whether required activities are being performed competently and in compliance with current laws and office policies. If deficiencies are noted, the

staffing analysis should also include recommendations regarding what corrective measures may be needed, including the following:

- (a) Operational change
- (b) Equipment requirement
- (c) Additional training
- (d) Supervisory intervention
- (e) Additional personnel

219.5 REPORTING

The facility staffing plan shall be made available for review to the Board of State and Community Corrections (BSCC) staff at the time of their biennial inspection. The Facility Manager shall report the results of the BSCC biennial review and recommendations to the officials with fiscal responsibility for the facility (15 CCR 1027).

Speech, Expression, and Social Networking

220.1 PURPOSE AND SCOPE

This policy is intended to address issues associated with employee use of social networking sites and to provide guidelines for the regulation and balancing of employee speech and expression with the legitimate needs of the Office.

Nothing in this policy is intended to prohibit or infringe upon any communication, speech or expression that is protected or privileged under law. This includes speech and expression protected under state or federal constitutions as well as labor or other applicable laws. For example, this policy does not limit an employee from speaking as a private citizen, including acting as an authorized member of a recognized bargaining unit, about matters of public concern, such as misconduct or corruption.

Employees are encouraged to consult with their supervisor regarding any questions arising from the application or potential application of this policy.

220.1.1 APPLICABILITY

This policy applies to all forms of communication including, but not limited to, film, video, print media, public or private speech, use of all internet services, including the World Wide Web, email, file transfer, remote computer access, news services, social networking, social media, instant messaging, blogs, forums, video, and other file-sharing sites.

220.2 POLICY

Public employees occupy a trusted position in the community, and thus, their statements have the potential to contravene the policies and performance of this office. Due to the nature of the work and influence associated with the law enforcement profession, it is necessary that employees of this office be subject to certain reasonable limitations on their speech and expression. To achieve its mission and efficiently provide service to the public, the Santa Cruz County Sheriff's Office will carefully balance the individual employee's rights against the Office's needs and interests when exercising a reasonable degree of control over its employees' speech and expression.

220.3 SAFETY

Employees should consider carefully the implications of their speech or any other form of expression when using the internet. Speech and expression that may negatively affect the safety of the Santa Cruz County Sheriff's Office employees, such as posting personal information in a public forum, can result in compromising an employee's home address or family ties. Employees should therefore not disseminate or post any information on any forum or medium that could reasonably be anticipated to compromise the safety of any employee, an employee's family or associates. Examples of the type of information that could reasonably be expected to compromise safety include:

- Disclosing a photograph and name or address of a corrections officer who is working undercover.

Speech, Expression, and Social Networking

- Disclosing the address of a fellow corrections officer.
- Otherwise disclosing where another corrections officer can be located off-duty.

220.4 PROHIBITED SPEECH, EXPRESSION, AND CONDUCT

To meet the office's safety, performance and public-trust needs, the following are prohibited unless the speech is otherwise protected (for example, an employee speaking as a private citizen, including acting as an authorized member of a recognized bargaining unit, on a matter of public concern):

- (a) Speech or expression made pursuant to an official duty that tends to compromise or damage the mission, function, reputation or professionalism of the Office or its employees.
- (b) Speech or expression that, while not made pursuant to an official duty, is significantly linked to, or related to, the Office and tends to compromise or damage the mission, function, reputation or professionalism of the Office or its employees. Examples may include:
 - 1. Statements that indicate disregard for the law or the state or U.S. Constitution.
 - 2. Expression that demonstrates support for criminal activity.
 - 3. Participating in sexually explicit photographs or videos for compensation or distribution.
- (c) Speech or expression that could reasonably be foreseen as having a negative impact on the credibility of the employee as a witness. For example, posting statements or expressions to a website that glorify or endorse dishonesty, unlawful discrimination or illegal behavior.
- (d) Speech or expression of any form that could reasonably be foreseen as having a negative impact on the safety of the employees of the correctional facility. For example, a statement on a blog that provides specific details as to how and when prisoner transportations are made could reasonably be foreseen as potentially jeopardizing employees by informing criminals of details that could facilitate an escape or attempted escape.
- (e) Speech or expression that is contrary to this office's Code of Ethics.
- (f) Use or disclosure, through whatever means, of any information, photograph, video or other recording obtained or accessible as a result of employment with the correctional facility for financial or personal gain, or any disclosure of such materials without the express authorization of the Sheriff or the authorized designee.
- (g) Posting, transmitting or disseminating any photographs, video or audio recordings, likenesses or images of office logos, emblems, uniforms, badges, patches, marked vehicles, equipment or other material that specifically identifies the Office on any personal or social networking or other website or web page, without the express authorization of the Sheriff.

 - 1. When brief personal communication may be warranted by the circumstances (e.g., inform family of extended hours).
 - 2. During authorized breaks such usage should be limited as much as practicable to areas out of sight and sound of the public and shall not be disruptive to the work environment.

Employees must take reasonable and prompt action to remove any content, including content posted by others, that is in violation of this policy from any web page or website maintained by the employee (e.g., social or personal website).

220.4.1 UNAUTHORIZED ENDORSEMENTS AND ADVERTISEMENTS

While employees are not restricted from engaging in the following activities as private citizens or as authorized members of a recognized bargaining unit, employees may not represent the Office or identify themselves in any way that could be reasonably perceived as representing the Office in order to do any of the following, unless specifically authorized by the Sheriff (Government Code § 3206; Government Code § 3302):

Additionally, when it can reasonably be construed that an employee, acting in their individual capacity or through an outside group or organization (e.g., bargaining group), is affiliated with this office, the employee shall give a specific disclaiming statement that any such speech or expression is not representative of the Office.

Employees retain their right to vote as they choose, to support candidates of their choice, and to express their opinions as private citizens, including as authorized members of a recognized bargaining unit, on political subjects and candidates at all times while off-duty. However, employees may not use their official authority or influence to interfere with or affect the result of an election or a nomination for office. Employees are also prohibited from directly or indirectly using their official authority to coerce, command, or advise another employee to pay, lend, or contribute anything of value to a party, committee, organization, agency, or person for political purposes (5 USC § 1502).

220.5 PRIVACY EXPECTATION

Employees forfeit any expectation of privacy with regard to anything published or maintained through file-sharing software or any internet site open to public view (e.g., Facebook).

Speech, Expression, and Social Networking

The Office also reserves the right to access, audit, and disclose for whatever reason all messages, including attachments, and any information transmitted over any technology that is issued or maintained by the Office, including the office email system, computer network, or any information placed into storage on any office system or device.

All messages, pictures and attachments transmitted, accessed or received over office networks are considered office records and, therefore, are the property of the Office. The Office reserves the right to access, audit and disclose for whatever reason all messages, including attachments, that have been transmitted, accessed or received through any office system or device, or any such information placed into any office storage area or device. This includes records of all key strokes or web-browsing history made at any office computer or over any office network. The fact that access to a database, service or website requires a user name or password will not create an expectation of privacy if it is accessed through office computers or networks.

220.6 CONSIDERATIONS

In determining whether to grant authorization of any speech or conduct that is prohibited under this policy, the factors that the Sheriff or authorized designee should consider include:

- (a) Whether the speech or conduct would negatively affect the efficiency of delivering public services.
- (b) Whether the speech or conduct would be contrary to the good order of the Office or the efficiency or morale of its members.
- (c) Whether the speech or conduct would reflect unfavorably upon the Office.
- (d) Whether the speech or conduct would negatively affect the member's appearance of impartiality in the performance of their duties.
- (e) Whether similar speech or conduct has been previously authorized.
- (f) Whether the speech or conduct may be protected and outweighs any interest of the Office.

220.7 TRAINING

Subject to available resources, the Office should provide training regarding employee speech and the use of social networking to all members of the office.

Information Technology Use

221.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the proper use of office information technology resources, including computers, electronic devices, hardware, software, and systems.

221.2 POLICY

Santa Cruz County Sheriff's Office members shall use information technology resources, including computers, software and systems, that are issued or maintained by the Office in a professional manner and in accordance with this policy.

Portable Audio / Video Recorders

222.1 PURPOSE AND SCOPE

This policy provides guidelines for the use of portable audio/video recording devices by members of this department while in the performance of their duties. Portable audio/video recording devices include all recording systems whether body-worn, hand held or integrated into portable equipment.

This policy does not apply to mobile audio/video recordings, interviews or interrogations conducted at any Santa Cruz County Sheriff's Office facility, authorized undercover operations, wiretaps or eavesdropping (concealed listening devices).

222.2 POLICY

The Santa Cruz County Sheriffs Office may provide members with access to portable recorders, either audio or video or both, for use during the performance of their duties. The use of recorders is intended to enhance the mission of the office by accurately capturing contacts between members of the office and the public.

222.3 MEMBER PRIVACY EXPECTATION

All recordings made by members on any department-issued device at any time, and any recording made while acting in an official capacity for this department, regardless of ownership of the device it was made on, shall remain the property of the Department. Members shall have no expectation of privacy or ownership interest in the content of these recordings.

222.4 ACTIVATION OF THE PORTABLE RECORDER

This policy is not intended to describe every possible situation in which the portable recorder should be used, although there are many situations where its use is appropriate. Members should activate the recorder any time the member believes it would be appropriate or valuable to record an incident.

The portable recorder should be activated in any of the following situations:

- (a) All enforcement and investigative contacts including stops and field interview (FI) situations
- (b) Traffic stops including, but not limited to, traffic violations, stranded motorist assistance and all crime interdiction stops
- (c) Self-initiated activity in which a member would normally notify Netcom
- (d) Any other contact that becomes adversarial after the initial contact in a situation that would not otherwise require recording

Members should remain sensitive to the dignity of all individuals being recorded and exercise sound discretion to respect privacy by discontinuing recording whenever it reasonably appears to the member that such privacy may outweigh any legitimate law enforcement interest in recording. Requests by members of the public to stop recording should be considered using this same

Santa Cruz County Sheriff's Office

criterion. Recording should resume when privacy is no longer at issue unless the circumstances no longer fit the criteria for recording.

At no time is a member expected to jeopardize his/her safety in order to activate a portable recorder or change the recording media. However, the recorder should be activated in situations described above as soon as reasonably practicable.

222.4.1 SURREPTITIOUS USE OF THE PORTABLE RECORDER

Members of the Department may surreptitiously record any conversation during the course of a criminal investigation in which the member reasonably believes that such a recording will be lawful and beneficial to the investigation (Penal Code § 633).

Members shall not surreptitiously record another department member without a court order unless lawfully authorized by the Sheriff or the authorized designee

222.4.2 CESSATION OF RECORDING

Once activated, the portable recorder should remain on continuously until the member reasonably believes that his/her direct participation in the incident is complete or the situation no longer fits the criteria for activation. Recording may be stopped during significant periods of inactivity such as report writing or other breaks from direct participation in the incident.

Members shall cease audio recording whenever necessary to ensure conversations are not recorded between a person in custody and the person's attorney, religious advisor or physician, unless there is explicit consent from all parties to the conversation (Penal Code § 636).

222.5 PROHIBITED USE OF PORTABLE RECORDERS

Members are prohibited from using department-issued portable recorders and recording media for personal use and are prohibited from making personal copies of recordings created while on-duty or while acting in their official capacity.

Members are also prohibited from retaining recordings of activities or information obtained while on-duty, whether the recording was created with department-issued or personally owned recorders. Members shall not duplicate or distribute such recordings, except for authorized legitimate department business purposes. All such recordings shall be retained at the Department.

Members are prohibited from using personally owned recording devices while on-duty without the express consent of the Patrol Lieutenant. Any member who uses a personally owned recorder for department-related activities shall comply with the provisions of this policy, including retention and release requirements, and should notify the on-duty supervisor of such use as soon as reasonably practicable.

Recordings shall not be used by any member for the purpose of embarrassment, harassment or ridicule.

222.6 IDENTIFICATION AND PRESERVATION OF RECORDINGS

To assist with identifying and preserving data and recordings, members should download, tag or mark these in accordance with procedure and document the existence of the recording in any related case report.

A member should transfer, tag or mark recordings when the member reasonably believes:

- (a) The recording contains evidence relevant to potential criminal, civil or administrative matters.
- (b) A complainant, victim or witness has requested non-disclosure.
- (c) A complainant, victim or witness has not requested non-disclosure but the disclosure of the recording may endanger the person.
- (d) Disclosure may be an unreasonable violation of someone's privacy.
- (e) Medical or mental health information is contained.
- (f) Disclosure may compromise an undercover officer or confidential informant.

Any time a member reasonably believes a recorded contact may be beneficial in a non-criminal matter (e.g., a hostile contact), the member should promptly notify a supervisor of the existence of the recording.

222.7 REVIEW OF RECORDED MEDIA FILES

When preparing written reports, members should review their recordings as a resource (see the Officer-Involved Shootings and Deaths Policy for guidance in those cases). However, members shall not retain personal copies of recordings. Members should not use the fact that a recording was made as a reason to write a less detailed report.

Supervisors are authorized to review relevant recordings any time they are investigating alleged misconduct or reports of meritorious conduct or whenever such recordings would be beneficial in reviewing the member's performance.

Recorded files may also be reviewed:

- (a) Upon approval by a supervisor, by any member of the Department who is participating in an official investigation, such as a personnel complaint, administrative investigation or criminal investigation.
- (b) Pursuant to lawful process or by court personnel who are otherwise authorized to review evidence in a related case.
- (c) By media personnel with permission of the Sheriff or the authorized designee.
- (d) In compliance with a public records request, if permitted, and in accordance with the Records Maintenance and Release Policy.

All recordings should be reviewed by the Custodian of Records prior to public release (see the Records Maintenance and Release Policy). Recordings that unreasonably violate a person's

privacy or sense of dignity should not be publicly released unless disclosure is required by law or order of the court.

- (e) Establishing a system to prevent tampering, deleting and copying recordings and ensure chain of custody integrity.
- (f) Working with counsel to ensure an appropriate retention schedule is being applied to recordings and associated documentation.
- (g) Maintaining logs of access and deletions of recordings.

- (c) Incidents that lead to the detention or arrest of an individual
- (d) Recordings relevant to a formal or informal complaint against a deputy or the Santa Cruz County Sheriff's Office

All other recordings should be retained for a period consistent with the requirements of the organization's records retention schedule but in no event for a period less than 180 days.

Records or logs of access and deletion of recordings should be retained permanently (Penal Code § 832.18).

Occupational Disease and Work-Related Injury Reporting

226.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidance regarding the timely reporting of occupational diseases, mental health issues, and work-related injuries.

226.1.1 DEFINITIONS

Definitions related to this policy include:

Occupational disease or work-related injury - An injury, disease, or mental health issue arising out of employment (Labor Code § 3208; Labor Code § 3208.3; Labor Code § 3212 et seq.).

226.2 POLICY

The Santa Cruz County Sheriff's Office will address occupational diseases and work-related injuries appropriately, and will comply with applicable state workers' compensation requirements (Labor Code § 3200 et seq.).

226.3 RESPONSIBILITIES

226.3.1 MEMBER RESPONSIBILITIES

Any member sustaining any occupational disease or work-related injury shall report such event as soon as practicable, but within 24 hours, to a supervisor, and shall seek medical care when appropriate (8 CCR 14300.35).

226.3.2 SUPERVISOR RESPONSIBILITIES

A supervisor learning of any occupational disease or work-related injury should ensure the member receives medical care as appropriate.

Supervisors shall ensure that required documents regarding workers' compensation are completed and forwarded promptly. Any related Countywide disease- or injury-reporting protocol shall also be followed.

Supervisors shall determine whether the Illness and Injury Prevention Policy applies and take additional action as required.

226.3.3 FACILITY MANAGER RESPONSIBILITIES

The Facility Manager who receives a report of an occupational disease or work-related injury should review the report for accuracy and determine what additional action should be taken. The report shall then be forwarded to the Chief Deputy and the County's risk management entity to ensure any required Division of Occupational Safety and Health (Cal/OSHA) reporting is made as required in the illness and injury prevention plan identified in the Illness and Injury Prevention Policy.

Santa Cruz County Sheriff's Office

Occupational Disease and Work-Related Injury Reporting

226.3.4 ADMINISTRATIVE RESPONSIBILITIES

The Sheriff or his/her designee shall review and forward copies of the report to the Personnel Department. Copies of the report and related documents retained by the Office shall be filed in the member's confidential medical file.

226.4 OTHER DISEASE OR INJURY

Diseases and injuries caused or occurring on-duty that do not qualify for workers' compensation reporting shall be documented on the designated report of injury form, which shall be signed by a supervisor. A copy of the completed form shall be forwarded to the appropriate Bureau Commander through the chain of command and a copy sent to the Undersheriff.

Unless the injury is extremely minor, this report shall be signed by the affected member, indicating that he/she desired no medical attention at the time of the report. By signing, the member does not preclude his/her ability to later seek medical attention.

226.5 SETTLEMENT OFFERS

When a member sustains an occupational disease or work-related injury that is caused by another person and is subsequently contacted by that person, their agent, insurance company, or attorney and offered a settlement, the member shall take no action other than to submit a written report of this contact to their supervisor as soon as possible.

226.5.1 NO SETTLEMENT WITHOUT PRIOR APPROVAL

No less than 10 days prior to accepting and finalizing the settlement of any third-party claim arising out of or related to an occupational disease or work-related injury, the member shall provide the Sheriff with written notice of the proposed terms of such settlement. In no case shall the member accept a settlement without first providing written notice to the Sheriff. The purpose of such notice is to permit the County to determine whether the offered settlement will affect any claim the County may have regarding payment for damage to equipment or reimbursement for wages against the person who caused the disease or injury, and to protect the County's right of subrogation, while ensuring that the member's right to receive compensation is not affected.

Temporary Modified-Duty Assignments

227.1 PURPOSE AND SCOPE

This policy establishes procedures for providing temporary modified-duty assignments. This policy is not intended to affect the rights or benefits of employees under federal or state law, county rules, current memorandums of understanding or collective bargaining agreements. For example, nothing in this policy affects the obligation of the Office to engage in a good faith, interactive process to consider reasonable accommodations for any employee with a temporary or permanent disability or limitation that is protected under federal or state law.

227.2 POLICY

Subject to operational considerations, the Santa Cruz County Sheriff's Office may identify temporary modified-duty assignments for employees who have an injury or medical condition resulting in temporary work limitations or restrictions. A temporary assignment allows the employee to work, while providing the Office with a productive employee during the temporary period.

227.3 GENERAL CONSIDERATIONS

Priority consideration for temporary modified-duty assignments will be given to employees with work-related injuries or illnesses that are temporary in nature. Employees having disabilities covered under the Americans with Disabilities Act (ADA) or the California Fair Employment and Housing Act (Government Code § 12940 et seq.) shall be treated equally, without regard to any preference for a work-related injury.

No position in the Santa Cruz County Sheriff's Office shall be created or maintained as a temporary modified-duty assignment.

Temporary modified-duty assignments are a management prerogative and not an employee right. The availability of temporary modified-duty assignments will be determined on a case-by-case basis, consistent with the operational needs of the Office. Temporary modified-duty assignments are subject to continuous reassessment, with consideration given to operational needs and the employee's ability to perform in a modified-duty assignment.

The Sheriff or the authorized designee may restrict employees working in temporary modified-duty assignments from wearing a uniform, displaying a badge, carrying a firearm, operating an emergency vehicle, or engaging in outside employment, or may otherwise limit them in employing their peace officer powers.

Temporary modified-duty assignments shall generally not exceed a cumulative total of 960 hours in a one-year period.

227.4 PROCEDURE

Employees may request assignment to modified duty by providing a signed statement from their health care provider describing their restrictions, limitations and expected duration to their Chief

Temporary Modified-Duty Assignments

Deputy or his/her designee. The statement must also indicate if the employee requires any workplace accommodations, mobility aids or medical devices.

The Chief Deputy will determine what modified-duty assignments may be available based on the needs of the office, limitations of the employee and suitability of the employee to work a particular assignment. Requests for a modified-duty assignment of 20 hours or less may be approved and facilitated by the Facility Commander or Chief Deputy. All modified-duty assignments are subject to the approval of the Sheriff or his/her designee.

227.5 ACCOUNTABILITY

Written notification of assignments, work schedules, and any restrictions should be provided to employees assigned to temporary modified-duty assignments and their supervisors. Those assignments and schedules may be adjusted to accommodate office operations and the employee's medical appointments, as mutually agreed upon with the Bureau Commander.

The employee's supervisor shall coordinate efforts with Payroll to ensure proper time accountability.

- (a) Employees on modified duty are responsible for coordinating required doctor visits and physical therapy appointments in advance with their supervisor. Doctor visits and appointments for treatment of injuries or illnesses shall be arranged during off-duty time or otherwise charged to the employee's sick leave.
- (b) Employees shall promptly submit a status report for each visit to their treating health care provider and shall immediately notify their supervisor of any change in restrictions or limitations as determined by their health care provider. An employee assigned to a modified-duty assignment shall provide a duty status report to their supervisor no less than once every 30 days while the employee is on modified duty.
- (c) Supervisors shall keep the Bureau Commander apprised of the employee's status and ability to perform the modified-duty assignment. Modified-duty assignments that extend beyond 180 days, or the initial projected term of modified duty if less than 180 days, will require a written status report and a request for an extension to the Bureau Commander with an update of the employee's current status and anticipated date of return to regular duty. Extensions require approval of the Sheriff.
- (d) When it is determined that an employee on modified duty will return to regular duty, the supervisor shall notify the Bureau Commander. All training and certification necessary for return to duty shall be reviewed and updated as necessary.

227.5.1 EMPLOYEE RESPONSIBILITIES

The responsibilities of employees assigned to temporary modified duty shall include but are not limited to:

- (a) Communicating and coordinating any required medical and physical therapy appointments in advance with their supervisors.
- (b) Promptly notifying their supervisors of any change in restrictions or limitations after each appointment with their treating medical professionals.

227.5.2 SUPERVISOR RESPONSIBILITIES

The employee's immediate supervisor shall monitor and manage the work schedule of those assigned to temporary modified duty.

The responsibilities of supervisors shall include but are not limited to:

- (a) Periodically apprising the Bureau Commander of the status and performance of employees assigned to temporary modified duty.
- (b) Notifying the Bureau Commander and ensuring that the required documentation facilitating a return to full duty is received from the employee.
- (c) Ensuring that employees returning to full duty have completed any required training and certification.

227.6 MEDICAL EXAMINATIONS

The office reserves the right to require, prior to returning to full-duty status, a fitness-for-duty examination of any employee assigned to a modified-duty assignment or of any employee having been on such assignment. Such examinations shall be at the expense of the office.

Prior to returning to full-duty status, employees shall be required to provide a statement signed by their health care provider indicating that they are medically cleared to perform the basic and essential job functions of their assignment without restriction or limitation.

227.7 PREGNANCY

If an employee is temporarily unable to perform regular duties due to a pregnancy, childbirth, or a related medical condition, the employee will be treated the same as any other temporarily disabled employee (42 USC § 2000e(k)). A pregnant employee shall not be involuntarily transferred to a temporary modified-duty assignment. Nothing in this policy limits a pregnant employee's right to a temporary modified-duty assignment if required under Government Code § 12945.

If notified by an employee or the employee's representative regarding a limitation related to pregnancy, childbirth, or related medical conditions, the Office should make reasonable efforts to provide an accommodation for the employee in accordance with federal and state law. The accommodation should be provided without unnecessary delay, as appropriate (42 USC § 2000gg-1; 29 CFR 1636.3; 29 CFR 1636.4; Government Code § 12945).

227.7.1 NOTIFICATION

Pregnant employees should notify their immediate supervisors as soon as practicable and provide a statement from their medical providers identifying any pregnancy-related job restrictions or limitations. If at any point during the pregnancy it becomes necessary for the employee to take a

227.8 PROBATIONARY EMPLOYEES

Probationary employees who are assigned to a temporary modified-duty assignment may have their probation extended by a period of time equal to their assignment to temporary modified duty.

227.9 MODIFIED-DUTY SCHEDULES

The schedules of employees assigned to modified duty may be adjusted to suit medical appointments or office needs at the discretion of the Chief Deputy.

The employee and his/her supervisors should be informed in writing of the schedule, assignment and limitations and restrictions as determined by the employee's health care provider.

Employees may be temporarily assigned to a different work schedule based on the modified-duty assignment available. Such temporary assignment may extend for the duration of the modified-duty assignment and shall be outside of the normal shift selection process outlined in the various Memoranda of Understanding.

These hazards should be corrected when observed or discovered, when it is reasonable to do so. When a hazard exists that cannot be immediately abated without endangering members or property, supervisors should protect or remove all exposed members from the area or item, except those necessary to correct the existing condition.

The Office's employee performance evaluation system is designed to record work performance for both the Office and the employee, providing recognition for good work and developing a guide for improvement.

229.2 POLICY

The Santa Cruz County Sheriff's Office utilizes a performance evaluation report to measure performance and to use as a factor in making personnel decisions that relate to merit increases, promotion, reassignment, discipline, demotion, and termination. The evaluation report is intended to serve as a guide for work planning and review by the supervisor and employee. It gives supervisors a way to create an objective history of work performance based on job standards.

The Office evaluates employees in a nondiscriminatory manner based upon job-related factors specific to the employee's position, without regard to actual or perceived race, ethnicity, national origin, religion, sex, sexual orientation, gender identity or expression, age, disability, pregnancy, genetic information, veteran status, marital status, and any other classification or status protected by law.

229.3 EVALUATION PROCESS

Evaluation reports will cover a specific period of time and should be based on documented performance during that period. Evaluation reports will be completed by each employee's immediate supervisor. Other supervisors directly familiar with the employee's performance during the rating period should be consulted by the immediate supervisor for their input.

All sworn and non-sworn supervisory personnel shall attend an approved supervisory course that includes training on the completion of performance evaluations within one year of the supervisory appointment.

Each supervisor should discuss the tasks of the position, standards of performance expected and the evaluation criteria with each employee at the beginning of the rating period. Supervisors should document this discussion in the prescribed manner.

Assessment of an employee's job performance is an ongoing process. Continued coaching and feedback provides supervisors and employees with opportunities to correct performance issues as they arise.

Non-probationary employees demonstrating substandard performance shall be notified in writing as soon as possible in order to have an opportunity to remediate the issues. Such notification should occur at the earliest opportunity, with the goal being a minimum of 90 days' written notice prior to the end of the evaluation period.

Employees who disagree with their evaluation and who desire to provide a formal response or a rebuttal may do so in writing in the prescribed format and time period.

Evaluation of Employees

229.4 FULL-TIME PROBATIONARY PERSONNEL

Civilian personnel are on probation for six months before being eligible for certification as permanent employees. An evaluation is completed monthly for all full-time non-sworn personnel during the probationary period.

Correctional Officers are on probation for twelve months before being eligible for certification as permanent employees. Probationary correctional officers are evaluated daily, weekly, and monthly during the probationary period.

229.5 FULL-TIME PERMANENT STATUS PERSONNEL

Permanent employees are subject to three types of performance evaluations:

Regular - An Employee Performance Evaluation shall be completed once each year by the employee's immediate supervisor on the anniversary of the employee's date of hire except for employees who have been promoted in which case an Employee Performance Evaluation shall be completed on the anniversary of the employee's date of last promotion.

Transfer - If an employee is transferred from one assignment to another in the middle of an evaluation period and less than six months have transpired since the transfer, then an evaluation may be completed by the current supervisor with input from the previous supervisor.

Special - A special evaluation may be completed any time the rater and the rater's supervisor feel one is necessary due to employee performance that is deemed less than standard. Generally, the special evaluation will be the tool used to demonstrate those areas of performance deemed less than standard when follow-up action is planned (action plan, remedial training, retraining). The evaluation form and the attached documentation shall be submitted as one package.

229.5.1 RATINGS

When completing the Employee Performance Evaluation, the rater will place a check mark in the column that best describes the employee's performance. The definition of each rating category is as follows:

Outstanding - Is actual performance well beyond that required for the position. It is exceptional performance, definitely superior or extraordinary.

Exceeds standards - Represents performance that is better than expected of a fully competent employee. It is superior to what is expected, but is not of such rare nature to warrant outstanding.

Meets standards - Is the performance of a fully competent employee. It means satisfactory performance that meets the standards required of the position.

Needs improvement - Is the level of performance less than that expected of a fully competent employee and less than standards required of the position. A needs improvement rating shall be thoroughly discussed with the employee.

Unsatisfactory - Performance is inferior to the standards required of the position. It is inadequate or undesirable performance that cannot be tolerated.

Evaluation of Employees

Space for written comments is provided at the end of the evaluation in the rater comments section. This section allows the rater to document the employee's strengths, weaknesses, and suggestions for improvement. Any rating under any job dimension marked unsatisfactory or outstanding shall be substantiated in the rater comments section. The Lieutenant of the Division shall review the evaluation before presentation to the employee.

229.6 EVALUATION INTERVIEW

When the supervisor has completed the preliminary evaluation, arrangements shall be made for a private discussion of the evaluation with the employee. The supervisor should discuss the results of the just completed rating period and clarify any questions the employee may have. If the employee has valid and reasonable protests of any of the ratings, the supervisor may make appropriate changes to the evaluation. Areas needing improvement and goals for reaching the expected level of performance should be identified and discussed. The supervisor should provide relevant counseling regarding advancement, specialty positions, and training opportunities. The supervisor and employee will sign and date the evaluation. Permanent employees may also write comments in the Employee Comments section of the performance evaluation report.

229.6.1 DISCRIMINATORY HARASSMENT FORM

At the time of each employee's annual evaluation, the reviewing supervisor shall require the employee to read the County and Office harassment and discrimination policies. Following such policy review, the supervisor shall provide the employee a form to be completed and returned by the employee certifying the following:

- (a) That the employee understands the harassment and discrimination policies.
- (b) Whether any questions the employee has have been sufficiently addressed.
- (c) That the employee knows how and where to report harassment policy violations.
- (d) Whether the employee has been the subject of, or witness to, any conduct that violates the discrimination or harassment policy which has not been previously reported.

The completed form should be returned to the supervisor (or other authorized individual if the employee is uncomfortable returning the form to the presenting supervisor) within one week.

The employee's completed answers shall be attached to the evaluation. If the employee has expressed any questions or concerns, the receiving supervisor or other authorized individual shall ensure that appropriate follow-up action is taken.

229.7 EVALUATION REVIEW

After the supervisor finishes the discussion with the employee, the signed performance evaluation is forwarded to the rater's supervisor. The Main Jail Lieutenant shall review the evaluation for fairness, impartiality, uniformity, and consistency. The Main Jail Lieutenant shall evaluate the supervisor on the quality of ratings given.

Personal Communication Devices

The fact that access to a database, service, or website requires a username or password will not create an expectation of privacy if it is accessed through office PCDs or networks (see the Information Technology Use Policy for additional guidance).

Members have no expectation of privacy regarding any communications while using a personally owned PCD for office-related business or when the use reasonably implicates work-related misconduct.

232.4.1 CALIFORNIA ELECTRONIC COMMUNICATIONS PRIVACY ACT (CALECPA)

No member is authorized to be the sole possessor of an office-issued PCD. Office-issued PCDs can be retrieved, reassigned, accessed, or used by any member as directed by a supervisor without notice. If a member is in an authorized status that allows for appropriate compensation consistent with policy or existing memorandum of understanding or collective bargaining agreement, or if the member has prior express authorization from their supervisor, the member may engage in office business-related communications. Should members engage in such approved off-duty communications or work, members entitled to compensation shall promptly document the time worked and communicate the information to their supervisors to ensure appropriate compensation. Members who independently document off-duty office-related business activities in any manner shall promptly provide the Office with a copy of such records to ensure accurate recordkeeping.

232.7 USE OF PCD

The following protocols shall apply to all PCDs that are carried while on-duty or used to conduct office business:

The Sergeant, or in their absence Central Control, may determine whether to order a partial or full lockdown of the facility and shall notify the Facility Manager as soon as practicable.

If a lockdown is ordered, all incarcerated persons will be directed back to their housing units/cells. All incarcerated persons in transit within the facility will either be escorted back to their housing units/cells or to another secure location (holding cell). The Sergeant should instruct any staff not directly involved in the lockdown to escort any visitors and nonessential contractors out of the facility.

A headcount shall be immediately conducted for all incarcerated persons, visitors, contractors, and staff. The Sergeant shall be immediately notified of the status of the headcount. If any person is unaccounted for, the Sergeant shall direct an immediate search of the facility and notify the Facility Manager of the situation as soon as practicable.

If an incarcerated person is engaging in a hunger strike due to a mental condition, the appropriate medical protocols for mental illness will be followed.

400.5.2 RESPONSE TO HUNGER STRIKES

Beginning at the line staff level, a resolution to grievances should be sought at the lowest level. The Grievances Policy shall guide staff on resolving incarcerated person grievances.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Facility Emergencies

If the hunger strike remains unresolved, the Facility Manager may direct the appropriate staff to examine the incarcerated person's commissary purchases made in advance of the hunger strike, and to monitor commissary purchases made during the hunger strike. Additional staff should be directed to observe the cell area, including trash containers, of the incarcerated persons involved for evidence of food items purchased from the commissary and of food hoarding.

400.5.3 LEGAL GUIDANCE

If all attempts to resolve the grievance are unsuccessful or not reasonably possible, the Sheriff should consider consulting with legal resources or the health authority as appropriate to develop other steps to resolve the issues.

400.6 CPR RESPONSE

The Facility Manager, in coordination with the Health Authority, shall establish and implement procedures that require correctional officers certified in cardiopulmonary resuscitation (CPR) to initiate CPR on a nonresponsive individual without first obtaining supervisory or medical approval, when it is safe and appropriate to do so.

All correctional officers shall maintain current CPR certification. Copies of certification shall be retained on-site or at a designated central location and made available for inspection.

When a nonresponsive person is identified, officers shall:

- Immediately summon medical aid, and
- Begin CPR unless there is a known medical condition that contraindicates its use

Personal protective equipment (PPE) shall be used when available to reduce exposure to bloodborne pathogens and other bodily fluids.

If immediate CPR administration poses a physical danger, officers shall initiate or resume CPR as soon as it is safe to do so and the individual is out of danger, provided medical responders have not yet taken over. CPR shall be continued until the individual shows clear signs of life (e.g., breathing, movement, verbal response) or until relieved by qualified medical personnel. When qualified medical staff or emergency responders are already present, correctional officers shall defer CPR to those personnel. 15 CCR 1028

400.8 RIOTS

Riots occur when incarcerated persons forcibly and/or violently take control or attempt to take control of any area within the confines of the correctional facility.

Staff should make reasonable attempts to prevent incarcerated person-on-incarcerated person violence but should take measures to avoid being engulfed in the problem, thereby exacerbating the situation.

400.8.1 RESPONSE TO RIOTS

Once the area of the disturbance is secured and isolated from other areas of the facility, time is generally on the side of staff. If possible, the process of quelling the disturbance should slow down in order for staff to develop response plans, to ensure there are adequate facility personnel to effectively take the required actions, and to ensure that responding staff are appropriately equipped with protective gear.

Staff should evaluate their response given the totality of circumstances in any situation, but generally should not enter the space where a riot is occurring until sufficient staff members are present to safely suppress the riot. Nothing in this policy shall prohibit any staff member from assisting staff members who are being assaulted.

All incarcerated persons who have participated in a riot shall be separated and secured as soon as practicable. If necessary, injured incarcerated persons shall receive a medical evaluation and treatment. If the injured incarcerated person is medically cleared to remain in the correctional facility, the incarcerated person will be reclassified and moved to appropriate housing.

Other housing units must be secured, with sufficient staff remaining at their posts to continue to supervise the unaffected units. When the riot has been suppressed, all involved staff must immediately return to their assigned posts.

400.8.2 QUALIFIED HEALTH CARE PROFESSIONALS RESPONSE

A supervisor or the authorized designee should notify the appropriate qualified health care professionals and identify a staging area for medical emergency responders and for medical triage should it appear to be necessary.

Facility Emergencies

The Responsible Physician or the authorized designee should be included in developing the response plan as it relates to the potential for a medical response, medical triage and treatment activities, and the safety and security of medical personnel during the incident.

400.8.3 NOTIFICATIONS

As soon as practicable, the Sergeant or a responsible staff member shall notify the Facility Manager, who in turn, shall notify the Sheriff.

400.8.4 REPORTING

The Facility Manager or the Sergeant shall direct that a report be written detailing the incident by the end of the shift. If appropriate, a crime report will also be prepared by the responsible law enforcement agency.

400.8.5 DEBRIEFING

All responding staff, including medical responders, shall be debriefed on the incident as soon as practicable after the conclusion of the emergency incident. The staff shall examine the incident from the perspective of what worked, what actions were less than optimal, and how the response to a future incident might be improved.

If appropriate, the details of the incident will be used to develop a training course for responding to facility disturbances. The goal of any debriefing process is continuous improvement. The debriefing should be focused on the incident and an improved response. A moderator should be used to ensure that no individual or group involved in the response is publicly ridiculed.

400.9 HOSTAGES

The Office does not recognize the taking of hostages as a reason to relinquish control of the correctional facility environment. All staff, incarcerated persons, visitors, volunteers, and contractors shall be informed of the "no hostage" policy prior to entering the facility for the first time and shall sign an acknowledgment, which the facility shall retain.

It is the policy of the Santa Cruz County Sheriff's Office to use all available resources necessary to bring about a successful end to a hostage situation (15 CCR 1029(a)(7)(B)).

400.9.1 RESPONSE TO HOSTAGE INCIDENT

Central Control should immediately be notified at the earliest sign of a hostage incident. Central Control shall notify the Sergeant and the Facility Manager. The Facility Manager will notify the Sheriff as soon as practicable.

The Sergeant or the Facility Manager shall make every effort to ensure that the hostage incident remains confined to the smallest area possible. All door controls accessible to the incarcerated person shall be disabled. Emergency exits that lead outside the secure perimeter shall be guarded.

400.9.2 NOTIFICATION OF QUALIFIED HEALTH CARE PROFESSIONALS

At the direction of the Sergeant or the authorized designee, the qualified health care professionals should be notified in order to identify a location and form a logistical plan for medical triage. The location also shall serve as a medical staging area for other medical emergency responders.

400.9.3 HOSTAGE RESCUE

Communications with the hostage-taker should be established as soon as practicable. Hostage-taker demands for the staff to open doors will not be met. A hostage rescue team should be immediately summoned and the established protocols for resolving the situation shall be implemented. The Facility Manager and Sheriff should be consulted regarding decisions faced by the hostage rescue team.

400.9.4 REPORTING AND DEBRIEFING

Following the conclusion of a hostage incident, the Facility Manager should direct that an incident report be completed by the end of the shift. All aspects of the incident should be reviewed, focusing on the incident and the outcome, with the intent of using the incident as an opportunity for continuous improvement and to identify additional training or systemic changes that may be required.

400.10 ESCAPES

Upon being made aware that an escape may have occurred, or did in fact occur, the staff member should immediately notify Central Control. Central Control should notify the Sergeant or the Facility Manager. As soon as practicable, the Facility Manager should notify the Sheriff.

Once the escape is verified and immediate actions taken inside the facility (lockdown, etc.), the Sergeant should notify all local law enforcement agencies.

400.10.1 INCARCERATED PERSON COUNTS

As soon as the facility is fully locked down, a full incarcerated person/wristband count should be taken.

All incarcerated persons who are outside of the secure perimeter of the facility (e.g., court, work details) should be located and identified. Any missing incarcerated person should have their identity disclosed and their facility record should be accessed by the Facility Manager (15 CCR 1029(a)(6)).

400.10.2 SEARCH

Concurrent with the lockdown, the area surrounding the facility should be searched for the escapee. Areas where an incarcerated person may be hiding or may have discarded correctional facility clothing should be searched first. Any witnesses should be interviewed.

Classification officers or supervision staff (after hours), will develop a flyer with the incarcerated person's name, description, the incarcerated person's latest picture, classification status and charges, and supply it to the custody staff and local law enforcement. Local law enforcement should also be given the incarcerated person's last known address and a list of their associates.

Facility Emergencies

400.10.3 REPORTING

The Sergeant or a designated staff member should submit an incident report to the Facility Manager. A crime report should also be written regarding the escape. The incident report should focus on events and physical plant weaknesses that contributed to the escape. The Facility Manager should review the reports, interview involved parties and develop action plans to minimize the risk of future occurrences.

400.11 CIVIL DISTURBANCES OUTSIDE OF THE JAIL

Upon being notified that jail space will be needed in response to a civil disturbance involving mass arrests, the Sergeant should notify the Facility Manager. The Facility Manager should make the determination regarding the magnitude of the event and whether it warrants notification of the Sheriff.

The size of the event may also require a lockdown, suspension of any programs that are not critical to correctional facility operations, and/or implementation of alternate staffing plans. To accommodate the influx of incarcerated persons, the Sergeant shall develop a housing plan that will not adversely affect the safety and security of the facility. Program spaces, such as exercise yards, classrooms, and dayrooms, may be used to temporarily house a limited number of additional incarcerated persons.

In the event that the correctional facility can no longer accept additional incarcerated persons without compromising the safety and security of the facility, mutual aid may be requested from allied counties. Title 15 CCR standards may be temporarily suspended. The Facility Manager shall notify the California Board of State and Community Corrections (BSCC) in writing in the event that such a suspension lasts longer than three days. Suspensions lasting for more than 15 days require approval of the chairperson of the BSCC (15 CCR 1012).

400.12 REVIEW OF EMERGENCY PROCEDURES

The Facility Manager shall ensure that there is a review of emergency response plans at least annually. This review should be documented with reports submitted to the Facility Manager or the authorized designee within 10 days of the review for approval. This review should also include the signatures or initials of the facility staff responsible for the review. At a minimum, the review shall include:

- (a) Assignments of persons to specific tasks in emergency situations.
- (b) Instructions in the use of the alarm systems and signals.
- (c) Systems for the notification of appropriate persons outside of the facility.
- (d) Information on the location and use of emergency equipment in the facility.
- (e) Specification of evacuation routes and procedures.

400.13 TRAINING

The staff shall be trained annually on this policy. This facility will provide emergency preparedness training as part of orientation training for all personnel assigned to the facility and for those who

may be required to respond to the facility in an emergency. The staff shall also receive refresher training at least annually in the emergency response plans. The Training Officer is responsible for developing and delivering appropriate initial training and annual refresher training.

Emergency planning training should occur in the form of classroom instruction (or roll call training), mock practical exercises, and drills. Each type of emergency covered in the emergency response plan must be included in the training.

A lesson plan, staff training sign-up sheet with the dates and the times training should be provided, and proof of competency (testing) for each participant should be maintained by the Training Officer.

The Training Officer shall forward an annual report to the Sheriff and the Facility Manager on the status of emergency response plan training. Any training deficiencies identified in this report should be rectified within 90 days of the report.

The facility emergency plans and all training shall be documented by the Training Officer and retained in accordance with established records retention schedules.

Emergency Staffing

401.1 PURPOSE AND SCOPE

The facility must operate at all times as a safe and secure environment, regardless of staffing levels. Consequently, contingency plans must be made in advance for any staffing emergency or planned job action, regardless of the length of the staffing deficit.

The purpose of this policy is to establish roles and responsibilities for creating and implementing emergency staffing plans, providing appropriate emergency staffing training to supervisory and management personnel, and identifying an update schedule and distribution list for the plan, as identified by the Sheriff or the authorized designee.

Staffing emergencies that could negatively affect the good order of the facility may include but are not limited to an outbreak of infectious disease, a work stoppage or strike by the staff, a natural disaster, or other disruption. The Sheriff, the Facility Manager, or the authorized designee shall be responsible for ensuring that an appropriate emergency staffing plan exists.

401.2.1 EMERGENCY STAFFING

In the event the Facility Manager becomes aware that a staffing emergency exists or may occur, staff members who are present may be ordered to remain at their posts. The Facility Manager will notify the Sheriff. Plans should include measures to achieve minimum staffing for the facility within four hours of a staffing emergency and may include the following operational adjustments:

- The facility may go to a lockdown. Minimum activities, including visiting, exercise, and other programs will be suspended only if necessary. Meals, cleaning, medical services, court transportation, and attorney visits will continue. Other activities will be assessed by the Facility Manager on a case-by-case basis.
- Supervisory and management personnel may have time-off cancelled or rescheduled for the duration of the staffing emergency.
- Staff from other areas of the office who have custody experience may be used to fill vacancies in the facility.
- Assistance from allied agencies may be requested to help management and supervisors in safely staffing the facility.
- Contracting with surrounding facilities may be necessary if adequate staffing cannot be obtained to safely operate the facility.
- In the event of a health-related staffing emergency, the office Exposure Control Officer and medical staff shall be notified in accordance with the Communicable Diseases Policy.

- (f) Maintaining training records for each supervisor and manager and ensuring that those personnel periodically receive appropriate update training on the plan.

Fire Safety

402.1 PURPOSE AND SCOPE

The threat of fire and toxic smoke in the facility represents a significant risk to the safety and security of the community, the staff, incarcerated persons, volunteers, contractors, and visitors. The purpose of this policy is to clearly identify and conform to applicable federal, state, and/or local fire safety codes, and to establish a process of creating, disseminating, and training all individuals in the facility on the emergency plans for fire safety and evacuation.

402.2 POLICY

It is the policy of this office that fire prevention strategies are a high priority.

The Facility Manager shall ensure that a fire alarm and detection and suppression system, as required by law, are installed, maintained, and periodically tested. Any variance, exception, or equivalency issues must be approved by the fire jurisdiction authorities and must not constitute a serious life-safety threat to the occupants of the facility (15 CCR 1029(a)(7)(A); 15 CCR 1032 et seq.).

402.5 FIREFIGHTING EQUIPMENT

The Facility Manager shall ensure that the facility is equipped with the necessary firefighting equipment (e.g., fire hoses, extinguishers) in an amount and in a location as recommended by the local fire authority or other qualified entity. The locations of firefighting equipment will be shown on the facility fire plan (schematic).

This plan shall be reviewed annually and revised if necessary.

Emergency Power and Communications

403.1 PURPOSE AND SCOPE

The Santa Cruz County Sheriff's Office facility must continue to operate as a safe and secure environment regardless of emergencies, including electrical outages. All safety and security equipment will be repaired or replaced in an expedited manner by qualified personnel. In the event that safety and/or security equipment become inoperable or damaged and it is not safe to operate a secure portion of the facility, that portion of the facility should be vacated and the incarcerated persons housed elsewhere. Or, staffing should be increased sufficiently for the area to remain safe and secure until the repair can be completed.

503.4 CATEGORIES OF SAFETY CHECKS AND SUPERVISORY SUPPORT

Safety Check Categories, Documentation, Count Discrepancy and Supervision

(1) Safety Checks fall into three general categories: Formal Inmate Counts, Hourly Safety Checks and Special or Emergency Counts.

(a) **Formal Counts**-Such counts will be performed a minimum of four times every calendar day throughout the facility. These counts will generally occur at meal times and headcount. The officer will account for incarcerated persons by checking them with the established housing roster. It is necessary for the officer to see the incarcerated person and observe the incarcerated person's breathing and general well-being.

(b) **Hourly Safety Checks**-Housing Officers shall conduct Hourly Safety Checks of inmates in their respective assigned units a minimum of once an hour throughout the shift. Formal Counts may constitute an Hourly Safety Check. Hourly Safety Checks shall be made at irregular intervals rather than in a predictable pattern but will be conducted at least once an hour. Officers will verify an incarcerated person's welfare by direct visual observation of breathing and by seeing the skin of the incarcerated person. If unable to verify an incarcerated person's welfare and presence (such as an incarcerated person sleeping under a blanket), the officer shall take immediate action to confirm the incarcerated persons' presence and welfare. The Hourly Safety Check will consist of an officer walking through the housing unit and checking every room even if unassigned, shower stall and recreation yard. The West Housing Officer shall conduct Hourly Safety Checks on the Inmate Worker's assigned to laundry and the laundry room. Booking officers shall conduct Hourly Safety Checks of inmates placed in holding rooms, attorney rooms, visiting rooms or medical rooms. Safety checks for incarcerated persons placed in any room for reasons outlined in the Use of Restraints, Safety, and Sobering Cells Policies shall occur more frequently, as specified in those policies...

(c) **Special or Emergency Counts**-Counts conducted at the request of the Facility or Watch Commander. These will be verified in the same manner as Formal Counts.

(2) Documentation

(a) Officers shall document their individual identifier and time Formal Counts, Hourly Safety Checks or Emergency Counts are conducted. Officers shall use the Electronic Recording System when available. Officers shall notify the supervisor and Compliance Team of any malfunctions of the Electronic Recording System. Officers shall document any malfunction, omission or discrepancy in the performance of any Safety Check. In the case of automated systems being unavailable, manual logs will be completed. Any Safety Check not documented is considered a Safety Check not completed.

Safety Checks

(b) The Watch Commander or Supervising Correctional Officer will record in the daily log that the Compliance Monitor report for Safety Checks were reviewed and fully documented for the shift.. Additional documentation is required for safety checks for people in sobering cells, safety cells, and restraints shall occur more frequently as detailed in the Use of Restraints, Safety and Sobering Cells Policies..

(3) Count Discrepancy

(a) During counts, the officer will compare the number of incarcerated person's in the assigned area with the number on the roster. Incarcerated person's temporarily located outside the area are temporarily excluded from the count. If a discrepancy occurs, the officer shall immediately notify the supervisor and/or Watch Commander and begin a recount. If the recount does not reconcile, the Watch Commander shall initiate an Emergency Count for the facility and initiate escape procedures.

(4) Supervision

(a) Available sworn personnel, including supervisors, may supplement officers in making the required Safety Checks but need to note their personal identifier as the one responsible for the check. The Supervising Correctional Officer shall directly supervise the performance of a minimum of one Safety Check in each housing area or booking area during each shift to ensure quality and attention to duty. The Supervising Correctional Officer is allowed to supervise only a portion of the Safety Check. . More supervision is required for people in sobering cells, safety cells, and restraints as detailed in the Use of Restraints, Safety and Sobering Cells Policies.

Special Management Incarcerated Persons

504.1 PURPOSE AND SCOPE

Incarcerated persons who pose a heightened risk to themselves or others require special management, including enhanced review of their status. Interaction with special management incarcerated persons is essential to maintaining a safe, secure, and humane environment. These individuals may not meet the criteria for administrative separation, but their housing choice is honored when it is determined that doing so supports their safety, mental health, or rehabilitative engagement. This is a non-punitive and self-initiated status, and facility staff should regularly assess opportunities for safe reintegration into more social or group-based settings.

Special Management Incarcerated Persons - An incarcerated person who is either classified as administrative separation or voluntary single program. Classification as a special management incarcerated person is a non-punitive classification.

Special Management Incarcerated Persons

504.2 POLICY

504.3 SPECIAL MANAGEMENT INCARCERATED PERSONS HOUSING CRITERIA

The safety and security of this facility is dependent on a classification system that identifies incarcerated persons who pose a risk to themselves or to others. Incarcerated persons who pose such a risk must be promptly and appropriately separated from the general incarcerated persons population until such time that they no longer pose a risk. Staff must have the ability to promptly separate these incarcerated persons pending further review.

Individuals who may be classified as special management incarcerated persons include but are not limited to incarcerated persons who are:

- Keep aways in the least restrictive housing unit
- High escape risk
- Behavior not appropriate for the least restrictive housing unit that would compromise their safety or staff's safety.
- Medical concerns that do not necessitate placement in the transitional housing unit (ex. lice)
- Gang status that needs to be reviewed by the Classification Unit

Incarcerated persons who are held pending civil process under the sexually violent predator laws shall be held in administrative separation pursuant to Penal Code 4002.

504.4 CIRCUMSTANCES REQUIRING IMMEDIATE SEPARATION

Incarcerated persons will generally be assigned to separation through the classification process. The Facility Manager or the Sergeant has the authority to immediately place any incarcerated person into separation when it reasonably appears necessary to protect the incarcerated person or others (15 CCR 1081(d)).

504.4.1 REVIEW PROCESS

The Classification Unit shall be notified when any incarcerated person is placed into immediate separation and shall be informed of the circumstances leading to the order to separate. Within 72 hours of the incarcerated person being placed into restrictive housing, the Classification Unit must review the circumstances surrounding the separation to determine which of the following actions shall be taken:

In reviewing an alternative housing decision for an incarcerated person in protective custody, the safety of the incarcerated person should receive the utmost consideration.

504.5 MAINTENANCE OF PROGRAMS AND SERVICES

Incarcerated persons who meet the established criteria will be interviewed by classification personnel and a determination will be made whether there is good cause to release the incarcerated person on O.R. (15 CCR 1029(a)(5)).

- Previous sexual victimization
- The incarcerated person's own perceptions of vulnerability
- Whether the incarcerated person is a foreign national and, if so, from what country (see the Foreign Nationals and Diplomats Policy)
- Prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the Office (28 CFR 115.41)
- Any other criteria as deemed appropriate by the Sheriff or the authorized designee
- Any other requirements for a classification plan under 15 CCR 1050

The plan should include a methodology for evaluating the classification process and a periodic review for the purpose of continuous quality improvement.

Information obtained in response to screening questions shall be considered confidential and shall only be made available to those who have a legitimate need to know (28 CFR 115.41).

Classification

506.4.1 INCARCERATED PERSON RESPONSE TO SCREENING

Incarcerated persons may not be compelled by threat of discipline to provide information or answers regarding (28 CFR 115.41):

- (a) Whether the incarcerated person has a mental, physical, or developmental disability.
- (b) Whether the incarcerated person is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming.
- (c) Whether the incarcerated person has previously experienced sexual victimization.
- (d) The incarcerated person's own perception of vulnerability.

506.4.2 BEHAVIORAL CRISIS IDENTIFICATION

Classification staff shall work with medical and mental health staff to ensure that individuals displaying behavioral crisis symptoms are promptly identified, assessed, and housed in an environment that protects their health and safety (15 CCR 1052).

506.4.3 COMMUNICABLE DISEASES

Incarcerated persons suspected or confirmed to have communicable diseases shall be identified during classification and housed in a manner consistent with medical recommendations and infection control guidelines (15 CCR 1051). Classification staff shall coordinate with medical personnel regarding housing and separation needs.

506.4.4 DEVELOPMENTAL DISABILITIES

The classification process shall include screening for developmental disabilities. Persons identified as developmentally disabled shall be housed in accordance with their needs and in consultation with medical and mental health staff (15 CCR 1057).

506.5 INITIAL CLASSIFICATION

The initial classification process is intended to identify predatory, violent, and at-risk incarcerated persons. It should occur early in the intake process to allow for appropriate supervision while an incarcerated person is being temporarily held in this facility and until a decision is made to place the individual into a more permanent housing assignment.

Incarcerated persons should be interviewed by an intake officer as soon as possible in the booking process. The intake officer shall complete the initial classification form. The initial classification form should include a place for the intake officer to make a housing recommendation. This recommendation should be based on the initial classification form, an assessment of the incarcerated person's condition, and the incarcerated person's interview.

The initial classification form shall be placed in the incarcerated person's file and provided to the classification officer, who will, within the limits of available resources, determine the appropriate temporary housing location.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Classification

506.6 CLASSIFICATION UPON HOUSING

Once it has been determined that the person arrested will not be released from custody on bail or O.R., a more in-depth classification of the incarcerated person will be conducted as soon as possible after the person's arrival at the facility, after which the person will be moved to more permanent housing.

506.6.1 INTERVIEW

The comprehensive classification process begins with a review of any initial classification information obtained during the reception and booking process, as well as an interview by the classification officer. The review of initial classification documents and the questions, answers, and observations from the incarcerated person's interview will be documented and numerically scored, representing the security level and housing assignment appropriate for each incarcerated person.

Individualized determinations shall be made about how to ensure the health and safety of each incarcerated person (28 CFR 115.42; 15 CCR 1050).

506.6.2 OVERRIDE

The classification officer has the authority to override the scores when it appears necessary to more appropriately assign housing. The override capability exists to use the classification officer's training and expertise in those instances when the numerical scores are not reflective of the incarcerated person's potential security or health risk. All overrides will be reviewed by a supervisor and are intended to be an exception, rather than the rule.

506.7 REVIEWS AND APPEALS

Once an incarcerated person is classified and housed, the person may appeal the decision of the classification officer. The appeal process shall begin at the first-line supervisor level. The decision by the supervisor may be appealed to the Facility Manager or the authorized designee. The decision by the Facility Manager or the authorized designee is final.

506.7.1 PERIODIC CLASSIFICATION REVIEWS

An inmate who has been sentenced to more than 60 days may request a review of his/her classification plan no more often than 30 days from the prior review. The review should examine changes in the inmate's behavior or circumstances and should either raise, lower or maintain the classification status (28 CFR 115.41).

Housing and program assignments for each transgender or intersex incarcerated person shall be reassessed at least twice each year to review any threats experienced by the person (28 CFR 115.42).

Incarcerated person risk levels shall be reassessed when required due to a referral, request, incident of sexual abuse, or receipt of additional information that increases the incarcerated person's risk of sexual victimization or abusiveness (28 CFR 115.41).

Classification

506.7.2 STAFF REQUESTED REVIEW

At any point during an incarcerated person's incarceration, a staff member may request a review of the incarcerated person's classification. The reason for the review, the review itself, and the outcome of the review shall be documented in the incarcerated person's permanent file. Nothing in this section shall prohibit staff from immediately moving an incarcerated person to another location in the facility based on exigent circumstances. Under such circumstances, the staff member moving the incarcerated person must immediately document the action and notify the classification officer.

506.7.3 INCARCERATED PERSON REQUESTED REVIEW

Incarcerated persons may request a review of their classification plan no more often than 30 days from their last review (15 CCR 1050).

506.8 HOUSING ASSIGNMENTS

Incarcerated persons should be housed based upon the following criteria:

- Classification level
- Age
- Incarcerated persons will be housed in separate units based on gender
- Legal status (e.g., pretrial, sentenced)
- Need for protection or separation
- Criminal sophistication
- Special management or special needs
- Behavior
- Any other criteria identified by the Watch Commander

Classification staff shall work with medical and mental health staff to ensure that individuals displaying behavioral crisis symptoms are promptly identified, assessed, and housed in an environment that protects their health and safety (15 CCR 1052).

506.8.1 SEPARATION

Incarcerated persons shall be housed to ensure visual and physical separation based on gender.

Civil detainees shall be housed separately from pretrial and sentenced incarcerated persons.

Incarcerated persons suspected or confirmed to have communicable diseases shall be identified during classification and housed in a manner consistent with medical recommendations and infection control guidelines (15 CCR 1051). Classification staff shall coordinate with medical personnel regarding housing and separation needs.

506.8.2 SPECIAL MANAGEMENT ISSUES AND ALERT CODES

Incarcerated Persons who are identified as having Special Management Issues may require an Override, Alert Code or be housed in Specialized Housing. Alert codes should be removed when the condition is no longer valid. Special Management issues include but are not limited to the following:

Suicide History: This alert is used if the incarcerated person has made previous threats of suicide or attempted suicide while in custody, but the person has been evaluated and is no longer at risk for immediate self harm or crisis.

Medical History: This alert should be generally used under the following circumstances: the incarcerated person has been in the facility before and had medical conditions that are known to staff, the person will remain in custody and has specific medical conditions that staff should be aware, or the person has been evaluated by medical staff and is no longer an immediate Medical Risk.

Medical Risk: This alert should be used if the incarcerated person has an existing medical condition that leads staff to believe the person is at great risk while incarcerated. Whenever possible, people with this alert should be housed in the medical (O) unit. A JMS entry should support this alert. The Medical Risk alert does not prevent staff intervention if immediate medical care is required.

Physical Impairment: incarcerated person cannot care for him or herself due to a physical disability.

Pregnant PC 3407 Restraint Limits: Shall be applied to pregnant incarcerated person's while in correctional facility. Pregnant PC 3407 Restraint Limits alert should be applied when an person has been medically assessed and determined to be pregnant or in recovery after delivery. The alert should also be applied when it is reasonable to believe a person is pregnant, absent a medical evaluation.

Restraints will not be used on incarcerated person who are known to be pregnant unless based on an individualized determination that restraints are reasonably necessary for the legitimate safety and security needs of the person, the staff or the public. Handcuffs may be applied to the wrists in front of the body should restraints be necessary. The restraints shall be the least restrictive available and the most reasonable under the circumstances. The on-call Lieutenant should be notified in the event a pregnant female is handcuffed.

In no event will an incarcerated person who is known to be pregnant be restrained by the use of leg restraints/irons, waist restraints/chains, or handcuffs behind the body (Penal Code § 3407).

Senior Alert applies to those incarcerated person 65 years of age or older. The purpose of the "Senior Alert" is to increase staff awareness for those inmates 65 years in age or older. A "Senior Alert" will be assigned by booking personnel to the incarcerated person upon initial intake. The housing officer should be advised of alert by booking personnel prior to placement into a housing unit. incarcerated person's with a "Senior Alert" should be placed and reside on a lower bunk.

Classification

Detox Protocol shall be applied to incarcerated person's actively detoxing from drugs and/or alcohol while in correctional facility. The Detox Protocol alert should be applied when an person has been medically assessed and assigned detoxification protocol by Medical. The alert applies to both alcohol and opiate withdrawal, and requires Jail Medical to complete incremental medical assessments of each person. These assessments include checking vital signs and depending on the inmate's treatment plan, may include delivery of medication. Depending on the risk level and type of withdrawal, the inmate will be seen by Jail Medical every 6 to 8 hours, or on an as needed basis.

506.9 CLASSIFICATION SPACE ALLOCATION

The classification plan depends on the ability of the facility to physically separate different classes of incarcerated persons. To ensure that allocated space meets the current population needs, the Facility Manager or the authorized designee should periodically meet with representatives of the classification officer to discuss the fixed resources (e.g., cells, dorms, dayrooms).

506.10 SINGLE-OCCUPANCY CELLS

Single-occupancy cells may be used to house the following categories of incarcerated persons:

- Maximum security
- Administrative separation
- Medical condition or disabilities (upon consultation with medical staff and the availability of medical beds)
- Mental condition (upon consultation with mental health staff and the availability of mental health beds)
- Sexual predators
- Any incarcerated person with an elevated risk of being taken advantage of, being mistreated, or becoming a victim of sexual abuse or harassment
- Any other condition or status for single-occupancy housing

The classification supervisor shall notify the Facility Manager or the authorized designee when single-occupancy cells are not available for housing the above described incarcerated persons. In such cases, a risk assessment shall be used to identify incarcerated persons in the above categories who may be safely housed together.

506.11 PRISON RAPE ELIMINATION ACT (PREA) CONSIDERATIONS

Housing, bed, work, and program assignments should be made to separate incarcerated persons at high risk of being sexually victimized from those at high risk of being sexually abusive (28 CFR 115.42). Incarcerated persons identified as being at high risk for sexually aggressive behavior will be monitored and housed in an area that will minimize the risk to other incarcerated persons and staff. All incarcerated persons identified as being at risk of victimization shall be monitored and housed in an area to minimize the risk to their safety. However, incarcerated persons at high risk for sexual victimization shall not be placed in involuntary administrative separation unless an

assessment of all available alternatives has been made and it has been determined that there is no available alternative means of separation from likely abusers (28 CFR 115.43; 28 CFR 115.68).

Housing and program assignments of a transgender or an intersex incarcerated person shall include individualized consideration for the incarcerated person's health and safety and any related supervisory, management, or facility security concerns (15 CCR 1050). A transgender or an intersex incarcerated person's views with respect to their own safety shall be given serious consideration.

Lesbian, gay, bisexual, transgender, or intersex incarcerated persons shall not be placed in dedicated facilities, units, or wings solely on the basis of such identification or status, unless such placement is pursuant to a consent decree, legal settlement, or legal judgment (28 CFR 115.42).

506.12 EDUCATION, WORK, AND OTHER RELEASE

Unless a person is incarcerated for an offense for which release is prohibited by law or otherwise prohibited by court order, an incarcerated person in the correctional facility may be released for a period reasonable and necessary for the following reasons:

- To seek or maintain employment
- To attend education classes
- To obtain medical treatment
- Any other reasonable purpose as determined by the Facility Manager or the authorized designee

Education and work-release incarcerated persons who leave the secure perimeter of the correctional facility to complete programs should be housed separately from incarcerated persons in general population.

There should be no contact between the incarcerated persons in general population and those authorized for education, work, or other release. This is to minimize the risk of introducing contraband into the correctional facility and to maintain facility security.

506.13 STAFF TRAINING IN CLASSIFICATION

Classification corrections officers should receive training specific to incarcerated person classification before being assigned primary classification duties. Individuals not specifically trained in classification may work in classification provided that they are under the immediate supervision of a trained and qualified staff member.

Conducted Energy Device

507.1 PURPOSE AND SCOPE

This policy provides guidelines for the issuance and use of the conducted energy device (CED).

507.2 POLICY

The CED is intended to control a violent or potentially violent incarcerated person where there is a risk of immediate danger or injury. It is anticipated that the appropriate use of such a device should result in fewer serious injuries to custody staff and incarcerated persons.

Staff members who have completed office-approved training may be issued a CED for use during the current assignment. Staff members who have been issued a CED shall only use the device consistent with this policy and the Use of Force Policy.

Staff shall only use the CED and cartridges that have been issued by the office. The device may be carried as part of a uniformed correctional officer's equipment.

- (a) The CED shall be maintained in a secure storage location (see the Management of Weapons and Control Devices Policy).
- (b) Each CED shall be clearly and uniquely numbered.
- (c) If not assigned their own device, officers shall pass the device to the next officer assigned to their position. If the next officer does not accept it or is unavailable, the device shall be secured in the weapons locker by the officer who last used it. The officer will complete the log at that location.
- (d) Correctional officers shall be responsible for ensuring that their issued CED is properly maintained and in good working order at all times. Correctional officers carrying a CED should perform a spark test on the unit prior to every shift.
- (e) The CED should be marked with a distinctive color or marking to distinguish it from firearms or any other device.
- (f) Officers should not hold both another weapon and the CED at the same time.

507.3 VERBAL AND VISUAL WARNINGS

A verbal warning of the intended use of the CED should precede its application, unless it would otherwise endanger the safety of staff or when it is not practicable due to the circumstances. The purpose of the warning is to:

- (a) Provide the incarcerated person with a reasonable opportunity to voluntarily comply.
- (b) Provide other staff and incarcerated persons with a warning that the CED may be deployed.

If, after a verbal warning, an incarcerated person is unwilling to voluntarily comply with a member's lawful orders and it appears both reasonable and feasible under the circumstances, the member may, but is not required to, display the electrical arc (provided that a cartridge is loaded into the device) or the laser in a further attempt to gain compliance prior to the application of the CED. The

Santa Cruz County Sheriff's Office

Conducted Energy Device

aiming laser should never be intentionally directed into the eyes of another as it may permanently impair a person's vision.

The fact that a verbal and/or other warning was given or the reasons it was not given shall be documented by the member deploying the device in the related report.

507.4 USE OF THE CED

As with any correctional equipment, the CED has limitations and restrictions requiring consideration before its use. The CED should only be used when its operator can safely approach the subject within the operational range of the device. Although the CED is generally effective in controlling most individuals, officers should be aware that the device may not achieve the intended results and be prepared with other options.

507.4.1 APPLICATION OF THE CED

Authorized personnel may use the CED when circumstances perceived by the member at the time indicate that such application is reasonably necessary to control a person in any of the following circumstances:

- (a) Is violent or is physically resisting in an assaultive manner.
- (b) Has demonstrated an intention to be violent or to physically resist in an assaultive nature beyond mere non-compliance and reasonably appears to have the potential to harm staff or others.
- (c) Is threatening or attempting suicide and the use of a CED would not increase the risk of serious bodily harm or death to that person.

Mere flight from a pursuing member, without additional circumstances or factors, is not good cause for the use of the CED to apprehend an individual.

507.4.2 SPECIAL DEPLOYMENT CONSIDERATIONS

The use of the CED on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the member, the subject, or others, and the member reasonably believes that the need to control the individual outweighs the potential risk of using the device. A subject's known or apparent medical frailties must be taken into consideration prior to use of the CED. This includes but is not limited to:

- (a) Elderly individuals or obvious juveniles.
- (b) Individuals with obviously low body mass.
- (c) Individuals who are handcuffed or otherwise restrained.
- (d) Individuals known to have been recently sprayed with a flammable chemical agent or who are otherwise known to be in proximity to any known combustible vapor or flammable material, including alcohol-based oleoresin capicum (OC) spray.
- (e) Individuals whose position or activity is likely to result in collateral injury (e.g., falls from height, located in water).

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Conducted Energy Device

Application of the CED shall not be used on incarcerated persons known to be pregnant (Penal Code section 4023.8).

Because the application of the CED in the drive-stun mode (i.e., direct contact without probes) relies primarily on pain compliance, the use of the drive-stun mode generally should be limited to supplementing the probe-mode to complete the circuit, or as a distraction technique to gain separation between staff and the subject thereby giving staff time and distance to consider force options or actions. When not used to complete the circuit, drive stun mode may only be used when probe deployment is not possible or has failed, and when other force options are not reasonably available to control an actively resisting subject. All deployments of drive stun mode must be in compliance with the above listed requirements for application of CED.

The CED shall not be used to torture, psychologically torment, elicit statements from, or punish any incarcerated person.

507.4.3 TARGETING CONSIDERATIONS

Recognizing that the dynamics of a situation and movement of the subject may affect target placement of probes, when practicable, members should attempt to target the back, lower center mass, and upper legs of the subject, and avoid intentionally targeting the head, neck, area of the heart, or genitals. If circumstances result in one or more probes inadvertently striking an area outside of the preferred target zones, the individual should be closely monitored until examined by paramedics or a qualified health care professional.

507.4.4 MULTIPLE APPLICATIONS OF THE CED

Members should apply the CED for only one standard cycle and then evaluate the situation before applying any subsequent cycles. Multiple applications of the CED against a single individual are generally not recommended and should be avoided unless the member reasonably believes that the need to control the individual outweighs the potentially increased risk posed by multiple applications.

If the first application of the CED appears to be ineffective in gaining control of an incarcerated person and if circumstances allow, the member should consider certain factors before additional applications of the device, including:

- (a) Whether the probes are making proper contact.
- (b) Whether the incarcerated person has the ability and has been given a reasonable opportunity to comply.
- (c) Whether verbal commands, other options, or tactics may be more effective.

Members should generally not intentionally apply more than one CED at a time against a single subject.

507.4.5 DOCUMENTATION

All CED discharges shall be documented in the related incident report and on the CED report form. Notification shall be made to a supervisor in compliance with the Use of Force Policy. Unintentional

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Conducted Energy Device

discharges, pointing the device at a person, laser activation, and arcing of the CED will also be documented on the CED report form. Any report documenting the discharge of the CED will include an explanation of the circumstances surrounding the discharge.

Following the discharge, the onboard CED memory will be downloaded through the data port by a supervisor or CED instructor and saved with the related incident report. Photographs of the probe and contact sites should be taken after the incarcerated person has been seen by qualified medical personnel. Confetti tags should be collected and the expended cartridge along with both probes and wires should be submitted into evidence for future reference by the member collecting the cartridge. The cartridge serial number should be noted and documented on the evidence paperwork. The evidence packaging should be marked "biohazard" if the probes penetrated the incarcerated person's skin.

At a minimum the following should be documented:

- (a) Identification of all personnel firing CEDs
- (b) Cartridge serial number
- (c) Identification of all witnesses
- (d) Medical care provided to the incarcerated person
- (e) Observations of the incarcerated person's physical and physiological actions
- (f) Any known or suspected drug use, intoxication, or other medical problems

The Office should periodically analyze the report forms to identify trends, including deterrence and effectiveness. The training officer(s) should also conduct audits of data downloads and reconcile CED report forms with recorded activations. CED information and statistics, with identifying information removed, should periodically be made available to the public.

507.4.6 ACTIONS FOLLOWING DEPLOYMENTS

Members should take appropriate actions to control and restrain the individual as soon as reasonably practicable to minimize the need for longer or multiple exposures to the CED. As soon as practicable, members shall notify a supervisor any time the CED has been discharged in compliance with the Use of Force Policy. If needed for evidentiary purposes, the expended cartridge, along with any probes and wire, should be submitted into evidence (including confetti tags, when equipped on the device). The evidence packaging should be marked "Biohazard" if the probes penetrated the subject's skin.

507.5 MEDICAL TREATMENT

Absent extenuating circumstances or unavailability, only qualified medical personnel should remove CED probes from an incarcerated person's body. Used CED probes shall be considered a sharps biohazard, similar to a used hypodermic needle, and handled properly. Universal precautions should be taken accordingly.

All incarcerated persons who have been struck by CED probes or who have been subjected to the electric discharge of the device shall be medically assessed prior to continued processing or

Santa Cruz County Sheriff's Office

housing. Any incarcerated person who falls under any of the following categories should, as soon as practicable, be examined by qualified medical personnel:

- (a) The person is suspected of being under the influence of controlled substances and/or alcohol.
- (b) The person may be pregnant.
- (c) The person reasonably appears to be in need of medical attention.
- (d) The CED probes are lodged in a sensitive area (e.g., groin, breast, head, face, neck).
- (e) The person requests medical treatment.

Persons who exhibit extreme agitation, violent irrational behavior accompanied by profuse sweating, extraordinary strength beyond their physical characteristics and imperviousness to pain, or who require a protracted physical encounter with multiple staff to be brought under control, may be at an increased risk of sudden death and should be examined by qualified medical personnel as soon as practicable. Any individual exhibiting signs of distress after such an encounter shall be medically cleared.

Any incarcerated person exhibiting signs of distress or who is exposed to multiple or prolonged applications (e.g., more than 15 seconds) shall be promptly examined by qualified medical personnel or medically evaluated.

If any individual refuses medical attention, such a refusal should be witnessed by another member and/or medical personnel and shall be fully documented in related reports.

If a recording is made of the contact or an interview with the individual, any refusal should be included, if possible.

507.6 TRAINING

Personnel who are authorized to carry the TASER shall be permitted to do so only after successfully completing the initial office-approved training.

Proficiency training for personnel who have been issued CEDs should occur every year. A reassessment of an officer's knowledge and/or practical skill may be required at any time if deemed appropriate by the training Supervisor. All training and proficiency for CEDs will be documented in the officer's training file.

Command staff and supervisors should receive CED training as appropriate for the investigations they conduct and review.

Officers who do not carry CEDs should receive training that is sufficient to familiarize them with the device and with officers working with who use the device.

The training Supervisor is responsible for ensuring that all members who carry CEDs have received initial and annual proficiency training. Periodic audits should be used for verification.

Application of CEDs during training could result in injury to personnel and should not be mandatory for certification.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Conducted Energy Device

The training Supervisor should ensure that all training includes:

- (a) A review of this policy.
- (b) A review of the Use of Force Policy.
- (c) Target area considerations, including techniques or options to reduce the unintentional application of probes near the head, neck, chest and groin.
- (d) Handcuffing a subject during the application of a CED and transitioning to other force options.
- (e) Restraint techniques that do not impair respiration following the application of a CED.
- (f) De-escalation techniques.

507.6.1 TESTING

All training delivered to the staff should include testing to document that the employee understands the subject matter presented.

Control of Incarcerated Person Movement

508.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a process for the safe and secure movement of incarcerated persons between areas within the facility and transportation from the facility to court, medical appointments, or other jurisdictions (15 CCR 1029(a)(6)).

508.2 POLICY

The staff should be vigilant in the control and movement of incarcerated persons between areas within the facility and when transporting persons outside the secure confines of the facility. Control may be by direct or indirect visual observation. All staff should consider all incarcerated person movement as high-risk activity. The staff should be aware of their surroundings at all times and take necessary steps to prevent the possession and exchange of contraband.

508.3 CONTROL OF MOVEMENT

Staff shall not allow incarcerated persons to leave their assigned housing area unless they have approved activities that may include but are not limited to the following:

- (a) Court
- (b) Transportation to another facility
- (c) Receiving a visit
- (d) Law enforcement interview or to participate in a lineup
- (e) Reporting for work
- (f) Receiving dental or medical care
- (g) Attending educational classes or religious services
- (h) Release
- (i) Facility Emergency
- (j) Any other reason deemed appropriate by staff

Use of Force

509.1 PURPOSE AND SCOPE

This policy provides guidelines on the reasonable use of force. While there is no way to specify the exact amount or type of reasonable force to be applied in any situation, every member of this office is expected to use these guidelines to make such decisions in a professional, impartial, and reasonable manner (Government Code § 7286; 15 CCR 1029(a)(3)).

In addition to those methods, techniques, and tools set forth below, the guidelines for the reasonable application of force contained in this policy shall apply to all policies addressing the potential use of force, including but not limited to the Control Holds, Chemical Agents, Conducted Energy Device, Use of Restraints, and Electronic Restraints policies.

Retaliation prohibitions for reporting suspected violations are addressed in the Anti-Retaliation Policy.

509.1.1 DEFINITIONS

Definitions related to this policy include:

Deadly force - Any use of force that creates a substantial risk of causing death or serious bodily injury, including but not limited to the discharge of a firearm (Penal Code § 835a).

Feasible - Reasonably capable of being done or carried out under the circumstances to successfully achieve the arrest or lawful objective without increasing risk to the corrections officer or another person (Government Code § 7286(a)).

Force - The application of physical techniques or tactics, chemical agents, or weapons to another person. It is not a use of force when individuals allow themselves to be searched, escorted, handcuffed, or restrained.

Force team technique - The force team technique ordinarily involves trained members clothed in protective gear who enter the incarcerated person's area in tandem, each with a specific task, to achieve immediate control of the incarcerated person.

Serious bodily injury - A serious impairment of physical condition, including but not limited to the following: loss of consciousness; concussion; bone fracture; protracted loss or impairment of function of any bodily member or organ; a wound requiring extensive suturing; and serious disfigurement (Penal Code § 243(f)(4)).

Totality of the circumstances - All facts known to the corrections officer at the time, including the conduct of the corrections officer and the individual leading up to the use of force (Penal Code § 835a).

509.2 POLICY

The use of force is a matter of critical concern, both to the public and to the public safety community. Members are involved on a daily basis in numerous and varied interactions and, when warranted, may use reasonable force in carrying out their duties.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

Members must have an understanding of, and true appreciation for, their authority and limitations. This is especially true with respect to overcoming resistance while engaged in the performance of public safety duties.

The Santa Cruz County Sheriff's Office recognizes and respects the value of all human life and dignity without prejudice to anyone. Vesting members with the authority to use reasonable force and to protect the public welfare requires monitoring, evaluation, and a careful balancing of all interests.

509.2.1 FAIR AND UNBIASED USE OF FORCE

Officers are expected to carry out their duties, including the use of force, in a manner that is fair and unbiased (Government Code § 7286(b)).

509.3 USE OF FORCE

Authorized members shall use only that amount of force that reasonably appears necessary given the facts and totality of the circumstances known to or perceived by the member at the time of the event to accomplish a legitimate government purpose such as to gain control of the individual; protect and ensure the safety of incarcerated persons, members, and others; prevent serious property damage; prevent escape; obtain compliance with facility rules and member orders; or to ensure the institution's security and good order (Penal Code § 835a).

The reasonableness of force will be judged from the perspective of a reasonable member on the scene at the time of the incident. Any evaluation of reasonableness must allow for the fact that members are often forced to make split-second decisions about the amount of force that reasonably appears necessary in a particular situation, with limited information and in circumstances that are tense, uncertain, and rapidly evolving.

Given that no policy can realistically predict every possible situation a member might encounter, members are entrusted to use well-reasoned discretion in determining the appropriate use of force in each incident. Members may only use a level of force that they reasonably believe is proportional to the seriousness of the suspected offense or the reasonably perceived level of actual or threatened resistance (Government Code § 7286(b)).

It is also recognized that circumstances may arise in which members reasonably believe that it would be impractical or ineffective to use any of the approved or authorized tools, weapons, or methods provided by this office. Members may find it more effective or reasonable to improvise their response to rapidly unfolding conditions that they are confronting. In such circumstances, the use of any improvised device or method must nonetheless be objectively reasonable and utilized only to the degree that reasonably appears necessary to accomplish a legitimate government purpose.

While the ultimate objective of every encounter is to avoid or minimize injury, nothing in this policy requires a member to retreat or be exposed to possible physical injury before applying reasonable force.

Force shall never be used as punishment or retaliation.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

509.3.1 FACTORS USED TO DETERMINE THE REASONABLENESS OF FORCE

When determining whether to apply force and evaluating whether a member has used reasonable force, a number of factors should be taken into consideration, as time and circumstances permit (Government Code § 7286(b)). These factors include but are not limited to:

- (a) The apparent immediacy and severity of the threat to members or others (Penal Code § 835a).
- (b) The conduct of the individual being confronted, as reasonably perceived by the member at the time (Penal Code § 835a).
- (c) Member/individual factors (e.g., age, size, relative strength, skill level, injuries sustained, level of exhaustion or fatigue, the number of members available vs. individuals).
- (d) The conduct of the involved member leading up to the use of force (Penal Code § 835a).
- (e) The effects of suspected drug or alcohol use.
- (f) The individual's apparent mental state or capacity (Penal Code § 835a).
- (g) The individual's apparent ability to understand and comply with corrections officer commands (Penal Code § 835a).
- (h) The proximity of weapons or dangerous improvised devices.
- (i) The degree to which the individual has been effectively restrained and the individual's ability to resist despite being restrained.
- (j) The availability of other reasonable and feasible options and their possible effectiveness (Penal Code § 835a).
- (k) The seriousness of the suspected offense or reason for contact with the individual prior to and at the time force is used.
- (l) The training and experience of the member.
- (m) The potential for injury to members, incarcerated persons, bystanders, and others.
- (n) Whether the individual appears to be resisting, attempting to evade arrest by flight, or is attacking the member.
- (o) The risk and reasonably foreseeable consequences of escape.
- (p) The apparent need for immediate control of the individual or a prompt resolution of the situation to maintain or restore order.
- (q) Whether the conduct of the individual being confronted no longer reasonably appears to pose an imminent threat to the member or others.

Use of Force

509.3.2 DUTY TO INTERCEDE

Any corrections officer present and observing another law enforcement officer or member using force that is clearly beyond that which is necessary, as determined by an objectively reasonable corrections officer under the circumstances, shall, when in a position to do so, intercede (as defined by Government Code § 7286) to prevent the use of unreasonable force.

When observing or reporting force used by a law enforcement officer, each corrections officer should take into account the totality of the circumstances and the possibility that other law enforcement officers may have additional information regarding the threat posed by the subject (Government Code § 7286(b)).

509.3.3 ALTERNATIVE TACTICS - DE-ESCALATION

As time and circumstances reasonably permit, and when community and officer safety would not be compromised, officers should consider actions that may increase officer safety and may decrease the need for using force:

- (a) Summoning additional resources that are able to respond in a reasonably timely manner.
- (b) Formulating a plan with responding officers before entering an unstable situation that does not reasonably appear to require immediate intervention.
- (c) Employing other tactics that do not unreasonably increase officer jeopardy.

In addition, when reasonable, officer should evaluate the totality of circumstances presented at the time in each situation and, when feasible, consider and utilize reasonably available alternative tactics and techniques that may persuade an individual to voluntarily comply or may mitigate the need to use a higher level of force to resolve the situation before applying force (Government Code § 7286(b)). Such alternatives may include but are not limited to:

- (a) Attempts to de-escalate a situation.
- (b) If reasonably available, the use of crisis intervention techniques by properly trained personnel.
- (c) If reasonably available, the use of medical staff to provide an assessment and evaluation of an individual.

Officers should document in their reports any de-escalation techniques employed prior to the application of force. In instances where the use of de-escalation techniques are not practicable or reasonable based on the totality of the circumstances, officers should articulate the specific factors that rendered such techniques untenable.

509.3.4 DUTY TO REPORT EXCESSIVE FORCE

Any corrections officer who observes a law enforcement officer or a member use force that potentially exceeds what the corrections officer reasonably believes to be necessary shall immediately report these observations to a supervisor (Government Code § 7286(b)).

As used in this section, "immediately" means as soon as it is safe and feasible to do so.

509.3.5 PAIN COMPLIANCE TECHNIQUES

Pain compliance techniques may be effective in controlling a physically or actively resisting individual. Members may only apply those pain compliance techniques for which they have successfully completed office-approved training. Members utilizing any pain compliance technique should consider:

- (a) The degree to which the application of the technique may be controlled given the level of resistance.
- (b) Whether the individual can comply with the direction or orders of the member.
- (c) Whether the individual has been given sufficient opportunity to comply.

The application of any pain compliance technique shall be discontinued once the member determines that compliance has been achieved.

509.3.6 RESTRICTIONS ON THE USE OF A CAROTID CONTROL HOLD

Corrections officers of this office are not authorized to use a carotid restraint hold. A carotid restraint means a vascular neck restraint or any similar restraint, hold, or other defensive tactic in which pressure is applied to the sides of a person's neck that involves a substantial risk of restricting blood flow and may render the person unconscious in order to subdue or control the person (Government Code § 7286.5; 15 CCR 1029).

509.3.7 RESTRICTIONS ON THE USE OF A CHOKE HOLD

Corrections officers of this office are not authorized to use a choke hold. A choke hold means any defensive tactic or force option in which direct pressure is applied to a person's trachea or windpipe (Government Code § 7286.5; 15 CCR 1029).

509.3.8 MEDICAL CONSIDERATION

Once it is reasonably safe to do so, properly trained members should promptly provide or procure medical assistance for any individual injured or claiming to have been injured in a use of force incident (Government Code § 7286(b)).

509.3.9 FAILURE TO INTERCEDE

A corrections officer who has received the required training on the duty to intercede and then fails to act to intercede when required by law may be disciplined in the same manner as the corrections officer who used force beyond that which is necessary (Government Code § 7286(b)).

509.3.10 NOTIFICATION TO SUPERVISORS REGARDING USE OF FORCE

Any use of force by a corrections officer shall be reported immediately to a supervisor (Penal Code § 832.13).

As used in this section, "immediately" means as soon as it is safe and feasible to do so.

509.3.11 ADDITIONAL RESTRICTIONS

Terms such as "positional asphyxia," "restraint asphyxia," and "excited delirium" continue to remain the subject of debate among experts and medical professionals, are not universally

Santa Cruz County Sheriff's Office

Use of Force

recognized medical conditions, and frequently involve other collateral or controlling factors such as narcotics or alcohol influence, or preexisting medical conditions. While it is impractical to restrict a corrections officer's use of reasonable control methods when attempting to restrain a combative individual, corrections officers are not authorized to use any restraint or transportation method which might unreasonably impair an individual's breathing or respiratory capacity for a period beyond the point when the individual has been adequately and safely controlled. Once the individual is safely secured, corrections officers should promptly check and continuously monitor the individual's condition for signs of medical distress (Government Code § 7286.5).

509.4 USE OF OTHER WEAPONS, TOOLS, AND CHEMICAL AGENTS ON INCARCERATED PERSONS

509.4.1 NOISE/FLASH DISTRACTION DEVICES

Noise/flash distraction devices, sting grenades, chemical grenades, and similar devices shall be used only at the direction of a supervisor and only by members who have been trained in and are qualified for the use of the devices.

509.4.2 ELECTRONIC CONTROL DEVICES

The use of Taser device shall be in accordance with the Office Conducted Energy Device Policy.

Other electronic control devices shall only be used in accordance the Office Conducted Energy Device policy and with the law allowing such use.

509.4.3 CHEMICAL AGENTS

Chemical agents shall only be used in the facility as authorized by the Facility Manager or the authorized designee and in accordance with the office's Chemical Agents Training Policy. Oleoresin capsicum (OC) spray should not be used in the medical unit or other designated areas where incarcerated persons are assigned to respiratory isolation or on any incarcerated person who is under control with or without restraints.

Incarcerated persons who have been affected by the use of chemical agents shall be promptly provided with the proper solution to decontaminate the affected areas.

If the incarcerated person refuses to decontaminate, such a refusal shall be documented. If an incarcerated person has been exposed in a cell and not removed from the cell where the exposure occurred, in-cell decontamination shall be afforded to the incarcerated person, including:

- (a) Health-trained custody member advising the incarcerated person how to decontaminate in the cell.
- (b) Clean clothing if the incarcerated person's clothing was contaminated.
- (c) Monitoring of the in-cell incarcerated person at least every 15 minutes on an irregular schedule, for a period of not less than 45 minutes, by a health-trained custody member.

509.4.4 PEPPER PROJECTILE SYSTEMS

Pepper projectile systems are plastic spheres filled with a derivative of OC powder. A compressed gas launcher delivers the projectiles with enough force to burst the projectiles on impact, releasing the OC powder. Although classified as a non-lethal weapon, the potential exists for the projectiles to inflict injury if they strike the head, neck, spine or groin. Therefore, personnel deploying the pepper projectile system should not intentionally target those areas except when the member reasonably believes the incarcerated person may cause serious bodily injury or death to the member or others.

The Pepperball systems (to include the air fill tank) will be inspected by the department's Pepperball Armorer at least quarterly to ensure proper working order and that it is in a state of readiness. Instructor/armorer must have certifications up to date in accordance with Pepperball standards. The use of the pepper projectile system is subject to the following requirements:

- (a) Corrections officers encountering a situation that requires the use of the pepper projectile system shall notify a supervisor as soon as practicable. The supervisor shall respond to all such deployments. The supervisor shall ensure that all notifications and reports are completed as required by the Use of Force Policy.
- (b) Each deployment of a pepper projectile system shall be documented and, if reasonably practicable, recorded on video. This includes situations where the launcher was directed toward the incarcerated person, regardless of whether the launcher was used. Only non-incident deployments are exempt from the reporting requirement (e.g., training, product demonstrations)
- (c) Pepper projectile systems also deliver a plastic sphere filled with inert powder. These spheres are known as, "Inert" and shall be used only as an impact projectile to gain incarcerated person's compliance.

The use of the Pepperball device on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the member, the subject or others, and the member reasonably believes that the need to control the individual outweighs the risk of using the device. This includes:

- (a) Individuals who are known to be pregnant.
- (b) Elderly individuals.
- (c) Individuals with obviously low body mass.
- (d) Individuals who are handcuffed or otherwise restrained.
- (e) Individuals whose position or activity may result in collateral injury (e.g., falls from height).

INJURIES AND DECONTAMINATION:

Any observable injuries to an individual caused by the Pepperball system shall be documented in the report and photographed.

Incarcerated persons who have been affected by the use of projectile chemical agents shall be promptly provided with the proper solution to decontaminate the affected areas. If the incarcerated

person refuses to decontaminate, such a refusal shall be documented. If an incarcerated person has been exposed in a cell and not removed from the cell where the exposure occurred, in-cell decontamination shall be afforded to the incarcerated person, including:

- (a) Corrections staff advise the incarcerated person how to decontaminate in the cell.
- (b) Clean clothing will be provided if the incarcerated person's clothing was contaminated.
- (c) Clean bedding will be provided, if the incarcerated persons bedding was contaminated
- (d) Monitoring of the in-cell incarcerated person at least every 15 minutes, for a period of not less than 45 minutes, by jail medical and correctional staff. These checks should be documented on a "safety check sheet."

Anytime a projectile chemical agent is deployed on an incarcerated person, the incarcerated person shall be evaluated by trained medical staff.

If it is found the incarcerated person has been struck in the head, neck, spine or groin, the incarcerated person shall be transported to a hospital for further evaluation.

509.4.5 IMPACT WEAPONS

The need to immediately incapacitate the inmate must be weighed against the risk of causing serious injury or death. The head and neck should not be intentionally targeted with an impact weapon, except when the corrections officer reasonably believes the inmate may cause serious bodily injury or death to the corrections officer or others.

509.4.6 KINETIC ENERGY PROJECTILES

Kinetic energy projectiles, when used properly, are less likely to result in death or serious physical injury and can be used by a trained and qualified member in an attempt to de-escalate a potentially deadly situation.

509.4.7 CHEMICAL AGENTS AND PREGNANT INCARCERATED PERSONS

Known pregnant incarcerated persons shall not be pepper sprayed or exposed to other chemical weapons (Penal Code § 4023.8).

509.5 IMMEDIATE AND CALCULATED USE OF FORCE

An immediate use of force occurs when force is used to respond without delay to a situation or circumstance that constitutes an imminent threat to security or safety. For example, the immediate or unplanned use of force by a member may be necessary to stop an incarcerated person from inflicting self-injury or to stop an assault on any other person, including other incarcerated persons. The destruction of government property may require the immediate use of force by a member in some circumstances. A verbal warning should be given before an immediate use of force unless the circumstances preclude it.

If there is no need for immediate action, members should attempt to resolve the situation through voluntary compliance or, if it reasonably appears necessary, the calculated use of force. A calculated use of force is called for when an incarcerated person's presence or conduct poses a

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

threat to safety or security and the incarcerated person is located in an area that can be controlled or isolated, or when time and circumstances permit advance planning, staffing, and organization.

The assistance of available non-custodial members (e.g., psychologists, counselors) should be considered when attempting to resolve a situation without confrontation.

A supervisor shall be present in any situation involving the calculated use of force. The supervisor shall notify the Facility Manager or the authorized designee for approval and consultation prior to any calculated use of force action.

509.5.1 CONFRONTATION AVOIDANCE PROCEDURES

Prior to any calculated use of force, the supervisor shall confer with the appropriate persons to gather pertinent information about the incarcerated person and the immediate situation. Based on the supervisor's assessment of the available information, the supervisor should direct the members to attempt to obtain the incarcerated person's voluntary cooperation and consider other available options before determining whether force is necessary.

The supervisor should consider including the following persons and resources in the process:

- (a) Mental health specialist
- (b) Qualified health care professional
- (c) Chaplain
- (d) Office Records Section
- (e) Any other relevant resources

Regardless of whether discussions with any of the above resources are accomplished by telephone or in person, the purpose is to gather information to assist in developing a plan of action, such as the incarcerated person's medical/mental history (e.g., asthma or other breathing-related illness, hypoglycemia, diabetes), any recent incident reports or situations that may be contributing to the incarcerated person's present condition (e.g., pending criminal prosecution or sentencing, recent death of a loved one, divorce). The assessment should include discussions with members who are familiar with the incarcerated person's background or present status. This may provide insight into the cause of the person's immediate agitation. It also may identify other members who have a rapport with the incarcerated person and could possibly resolve the incident peacefully, without the use of force.

If force is determined to be necessary and other means of gaining control of an incarcerated person are deemed inappropriate or ineffective, then the force team technique should be used to control the person and to apply restraints, if required.

Consideration should also be given to preventing exposure to communicable diseases in calculated use of force situations, and to ensuring that medical services personnel are available.

509.6 REPORTING THE USE OF FORCE

Every member use of force is an incident that shall be reported on the appropriate report form.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

The documentation will reflect the actions and responses of each member participating in the incident, as witnessed by the reporting member. All members who actively participated in the incident should write a report. For preplanned events that results in a use of force, the Watch Commander will also write a report documenting their involvement.

The report should include:

- (a) A clear, detailed description of the incident, including any application of weapons or restraints.
- (b) The identity of all individuals involved in the incident (e.g., incarcerated persons, members, others).
- (c) The member should articulate the factors perceived and why the member believed the use of force was reasonable under the circumstances.
- (d) Efforts made to temper the severity of a forceful response, and if there were none, the reasons why.
- (e) Description of any injuries to anyone involved in the incident, including the result of any medical checks that show the presence or absence of injury.

Any member directly observing the incident shall make a verbal report to a supervisor as soon as practicable and include as much of the aforementioned information as is known by the member.

Members shall submit the appropriate documentation prior to going off-duty, unless directed otherwise by a supervisor.

A video recording is required for all calculated use of force incidents and should include the introduction of all members participating in the process. The recording and documentation will be part of the investigation package. The supervisor should ensure the recording is properly processed for retention and a copy is forwarded with the report to the Facility Manager within three working days.

The supervisor responsible for gathering the reports may allow a reasonable delay in preparation of a report in consideration of the immediate psychological and/or physical condition of the involved member.

The Sergeant shall promptly notify the Facility Manager of any incident involving a member employing deadly force, or any incident where a death or serious bodily injury may have been caused by a member.

509.6.1 REPORTING TO CALIFORNIA DEPARTMENT OF JUSTICE

Statistical data regarding all officer-involved shootings and incidents involving use of force resulting in serious bodily injury is to be reported to the California Department of Justice as required by Government Code § 12525.2.

509.6.2 REPORT RESTRICTIONS

Corrections officers shall not use the term "excited delirium" to describe an individual in an incident report. Corrections officers may describe the characteristics of an individual's conduct, but shall

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

not generally describe the individual's demeanor, conduct, or physical and mental condition at issue as excited delirium (Health and Safety Code § 24402).

509.7 SUPERVISOR RESPONSIBILITIES

A supervisor should respond to a reported application of force resulting in visible injury, if reasonably available. When a supervisor is able to respond to an incident in which there has been a reported use of force, the supervisor is expected to (Government Code § 7286(b)):

- (a) Ensure a crime scene is established to preserve and protect evidence, if appropriate.
- (b) Ensure that the chain of command is notified and that all necessary health and safety and security measures are initiated.
- (c) Obtain the basic facts from the involved members. Absent an allegation of misconduct or excessive force, this will be considered a routine contact in the normal course of duties.
- (d) Ensure that the appropriate investigation authority is notified, if appropriate.
- (e) Ensure that any parties involved in a use of force situation are examined by medical staff, regardless of whether any injuries are reported or detectable, and afforded medical treatment as appropriate.
- (f) When possible, separately obtain a recorded interview with all individuals upon whom force was used. If this interview is conducted without the person having voluntarily waived the individual's *Miranda* rights, the following should apply:
 - 1. The content of the interview should not be summarized or included in any related criminal charges.
 - 2. The fact that a recorded interview was conducted should be documented in a property or other report.
 - 3. The recording of the interview should be distinctly marked for retention until all potential for civil litigation has expired.
- (g) Once any initial medical assessment has been completed or first aid has been rendered, ensure that photographs have been taken of any areas involving visible injury or complaint of pain, as well as overall photographs of uninjured areas.
 - 1. These photographs should be retained until all potential for civil litigation has expired.
- (h) Identify any witnesses not already included in related reports.
- (i) Review and approve all related reports.
- (j) Determine if there is any indication that the individual may pursue civil litigation.
 - 1. If there is an indication of potential civil litigation, the supervisor should complete and route a notification of a potential claim through the appropriate channels.
- (k) Evaluate the circumstances surrounding the incident and initiate an administrative investigation if there is a question of policy noncompliance or if for any reason further investigation may be appropriate.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

In the event that a supervisor is unable to respond to the scene of an incident involving a reported application of force, the supervisor is still expected to complete as many of the above items as circumstances permit.

509.8 USE OF DEADLY FORCE

Where feasible, corrections officers shall, prior to the use of deadly force, make reasonable efforts to identify themselves as a peace officer and to warn that deadly force may be used, unless a corrections officer has objectively reasonable grounds to believe the person is aware of those facts (Penal Code 835a).

If an objectively reasonable corrections officer would consider it safe and feasible to do so under the totality of the circumstances, corrections officers shall evaluate and use other reasonably available resources and techniques when determining whether to use deadly force. To the extent that it is reasonably practical, corrections officers should consider their surroundings and any potential risks to bystanders prior to discharging a firearm (Government Code § 7286(b)).

The use of deadly force is only justified when the corrections officer reasonably believes it is necessary in the following circumstances (Penal Code § 835a):

- (a) A corrections officer may use deadly force for self-protection or to protect others from what the corrections officer reasonably believes is an imminent threat of death or serious bodily injury to the corrections officer or another person.
- (b) A corrections officer may use deadly force to stop an escaping incarcerated person, or stop a fleeing individual, when the corrections officer has probable cause to believe that the individual has committed, or intends to commit, a felony involving the infliction or threatened infliction of serious bodily injury or death, and the corrections officer reasonably believes that there is an imminent or future potential risk of serious bodily injury or death to any other person if the individual is not immediately apprehended.

Corrections officers shall not use deadly force against an incarcerated person based on the danger that person poses to themselves, if an objectively reasonable corrections officer would believe the incarcerated person does not pose an imminent threat of death or serious bodily injury to the corrections officer or to another person (Penal Code § 835a).

An "imminent" threat of death or serious bodily injury exists when, based on the totality of the circumstances, a reasonable corrections officer in the same situation would believe that an incarcerated person has the present ability, opportunity, and apparent intent to immediately cause death or serious bodily injury to the corrections officer or another person. A corrections officer's subjective fear of future harm alone is insufficient as an imminent threat. An imminent threat is one that from appearances is reasonably believed to require instant attention (Penal Code § 835a).

509.8.1 USE OF DEADLY FORCE-REPORTING

An employee, who intentionally or accidentally uses deadly force, whether on- or off-duty, shall ensure that a supervisor is notified of the incident without delay.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Use of Force

The supervisor shall ensure that the chain of command is notified and all necessary health and safety, medical and security measures are initiated.

The Watch Commander shall promptly notify the Corrections Lieutenant of any incident involving a staff member employing deadly force, or any incident where a death or serious bodily injury may have been caused by a staff member.

509.9 USE OF FORCE REVIEW

The Sergeant shall review all related reports of use of force incidents occurring on the Sergeant's command. The review is to determine whether the use of force was in compliance with policy, procedure, and applicable law, and to determine if follow-up action or investigation is necessary. The Sergeant should also ensure that a review packet containing a copy of all pertinent reports and materials is prepared and forwarded to the Use of Force Review Committee.

509.10 TRAINING

The Facility Manager shall work with the Training Officer to ensure legal and facility training mandates are met. This training shall include the following:

- (a) Use of force
- (b) Weapons training
- (c) Self-defense
- (d) Confrontation avoidance procedures:
 - 1. Communication techniques
 - 2. De-escalation techniques
 - 3. Dealing with persons with a behavioral crisis identification
 - 4. Application of restraints
- (e) Forced cell extraction techniques
- (f) Force team techniques
- (g) General restraint training (soft and hard restraints)
- (h) Reporting procedures
- (i) Guidelines regarding vulnerable populations, including but not limited to incarcerated persons who are elderly or pregnant, and incarcerated persons with physical, mental, and developmental disabilities (Government Code § 7286(b))
- (j) Training courses required by and consistent with POST guidelines set forth in Penal Code § 13519.10

The Training Officer is responsible for establishing a process to identify corrections officers who are restricted from training other corrections officers for the time period specified by law because of a sustained use of force complaint (Government Code § 7286(b)).

509.10.1 TRAINING FOR CONTROL DEVICES

The training supervisor shall ensure that all personnel who are authorized to carry a control device have been properly trained and certified to carry the specific control device and are retrained or recertified, as necessary.

- (a) Proficiency training shall be monitored and documented by a certified control-device weapons or tactics instructor.
- (b) All training and proficiency for control devices will be documented in the member's training file.
- (c) Members who fail to demonstrate proficiency with the control device or knowledge of this policy will be restricted from carrying the control device until demonstrating proficiency. If a member cannot demonstrate proficiency with a control device or knowledge of this policy after remedial training, the member may be subject to discipline.

509.10.2 PERIODIC TRAINING

Members will receive periodic training on this policy and demonstrate their knowledge and understanding (Government Code § 7286(b)).

Supervisors should conduct and document regular periodic briefings concerning this policy and the storage and use of weapons and control devices. Any test sheets or documentation of performance should be forwarded to the training supervisor to be included in the member's training file.

509.11 PUBLIC RECORDS REQUESTS

Requests for public records involving an officer's personnel records shall be processed in accordance with Penal Code § 832.7 and the Personnel Records and Records and Data policies (Government Code § 7286(b)).

509.12 POLICY AVAILABILITY

The Sheriff or the authorized designee should ensure this policy is accessible to the public (Government Code § 7286(c)).

509.13 POLICY REVIEW

The Sheriff or the authorized designee should regularly review and update this policy to reflect developing practices and procedures (Government Code § 7286(b)).

509.14 USE OF FORCE COMPLAINTS

The receipt, processing, and investigation of public complaints involving use of force incidents should be handled in accordance with the Personnel Complaints Policy (Government Code § 7286(b)).

Civil Detainees

510.1 PURPOSE AND SCOPE

This policy provides safeguards to ensure that persons held under a civil detainee are afforded appropriate standards of custody.

Nothing in this policy prevents application of discipline under the Discipline Policy.

510.1.1 DEFINITIONS

Definitions related to this policy include:

Civil detainee - Any person in custody held for a reason other than for criminal matters.

Enhanced security concern - A status applicable to a civil detainee that indicates the person poses an enhanced threat to staff or others due to the person's past criminal behavior, criminal sophistication, or other actions.

510.2 POLICY

It is the policy of the Santa Cruz County Sheriff's Office that any confinement conditions placed on civil detainees are for legitimate, non-punitive purposes.

510.3 SCREENING

Civil detainees should undergo the same screening process as incarcerated persons, including attention to whether the person poses an enhanced security concern.

The Facility Manager or the authorized designee should review the screening documents to ensure any security concerns are appropriately addressed and are part of the detainee's record.

510.4 CONDITIONS OF CONFINEMENT IN HOUSING

All civil detainees should be housed separately from other incarcerated persons.

510.4.1 ACCESS TO MAIL AND TELEPHONE

Civil detainees shall have the same access to books, periodicals, and magazines as any other general population incarcerated person, except incoming books and magazines must only be censored with a substantial government interest, and only when it is necessary or essential to address the particular government interest. Incoming books, periodicals, or magazines may be justifiably confiscated from a detainee when there is a government interest to:

- (a) Maintain facility security and safety, such as a book covering improvised weapons or promoting aggression.
- (b) Prevent dangerous conduct.
- (c) Comply with a court order or court-ordered treatment plan.

Outgoing and incoming mail may be inspected but not read, unless there is specific and articulable information to believe a particular security or safety issue.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Civil Detainees

Civil detainees should be provided with a minimum of 50 percent additional telephone access than incarcerated persons in the general population. Civil detainees should be provided with telephone privacy. A reasonable amount of telephone messages should be taken for a civil detainee.

Use of Restraints

511.1 PURPOSE AND SCOPE

This policy establishes guidelines for the application, supervisory oversight, and restrictions on the use of restraints on persons incarcerated in this facility.

This policy shall apply to the use of specific types of restraints, such as four/five-point restraints, safety chairs, ambulatory restraints, and similar restraint systems, as well as all other restraints, including handcuffs, waist chains, and leg irons when such restraints are used to restrain any incarcerated person for prolonged periods

511.1.1 DEFINITIONS

Definitions related to this policy include:

Clinical restraints - Restraints applied when an incarcerated person's disruptive, assaultive, and/or self-injurious behavior is related to a medical or mental illness. Clinical restraints can include leather, rubber, or canvas hand and leg restraints with contact points on a specialized bed (four/five-point restraints) or a portable restraint chair.

511.2 POLICY

It is the policy of this office that restraints shall be used only to prevent self-injury, injury to others, or property damage. Restraints may also be applied according to an incarcerated person's classification, such as maximum security, to control the behavior of a high-risk incarcerated person while the person is being moved outside the cell or housing unit.

Restraints shall never be used for retaliation or as punishment. Restraints shall not be utilized any longer than is reasonably necessary to control the incarcerated person. Restraints are to be applied only when less restrictive methods, including verbal de-escalation techniques, have been attempted and are deemed ineffective in controlling the dangerous behavior of an incarcerated person (15 CCR 1029(a)(4); 15 CCR 1058). Each incident where restraints are used shall be documented by the handling staff member and placed in the appropriate file prior to the end of the staff member's shift.

This policy does not apply to the temporary use of restraints, such as handcuffing or the use of leg irons to control an incarcerated person during movement and transportation inside or outside the facility.

511.3 USE OF RESTRAINTS - CONTROL

Supervisors shall proactively oversee the use of restraints on any incarcerated person. Whenever feasible the use of restraints other than routine use during transfer, shall require the approval of a Supervisor prior to application. In instances where prior approval is not feasible, the supervisor shall be apprised of the use of restraints as soon as practicable.

Restraint devices, such as safety chairs, or Wrap restraint system, shall only be used on an incarcerated person when it reasonably appears necessary to overcome resistance, prevent

Santa Cruz County Sheriff's Office

Use of Restraints

escape or bring an incident under control, thereby preventing injury to the incarcerated person or others, or eliminating the possibility of property damage. The Wrap restraint system shall not be used on an incarcerated person who expresses or demonstrates self-harm. Restraints shall not be utilized any longer than is reasonably necessary to achieve the above goals. Approval to place an incarcerated person in the safety chair or Wrap restraint system must come from a supervisor. A supervisor shall oversee all safety chair and Wrap restraint system placements. Hydration (water or juices) shall be provided no less than once every two hours or upon request. Continued placement in the safety chair and Wrap restraint system shall be evaluated every hour by the supervisor and documented on the Observation Log as well as a JMS Chair Assessment. Incarcerated persons shall be removed from the safety chair and Wrap restraint system immediately after being declared no longer a threat to themselves or staff. Retaining an inmate in a safety chair or Wrap restraint system for longer than 6 hours requires Lieutenant approval. The Lieutenants approval shall be noted on the restraint log.

Medical staff shall be called to observe the application of the restraints, when feasible, prior to the application or as soon as practicable after the application, and to check the incarcerated person for adequate circulation.

The use of restraints for purposes other than for the controlled movement or transportation of an incarcerated person shall be documented on appropriate logs to include, at minimum, the type of restraint used, when it was applied, a detailed description of why the restraint was needed and when it was removed (15 CCR 1058).

The following provisions shall be followed when utilizing restraints to control an inmate:

- (a) Restraints shall not be used as punishment, placed around a person's neck or applied in a way that is likely to cause undue physical discomfort or restrict blood flow or breathing (e.g., hog-tying).
- (b) Restrained incarcerated persons shall not be placed face down or in a position that inhibits breathing.
- (c) Restraints shall not be applied by securing a person's wrists and ankles together behind their back or in any other manner that creates undue physical stress.
- (d) Restraints shall not be used to secure a person to a fixed object except as a temporary emergency measure. A person who is being transported shall not be locked in any manner to any part of the transporting vehicle except for items installed for passenger safety, such as seat belts.
- (e) Incarcerated persons in restraints shall be housed either alone or in an area designated for restrained persons.
- (f) Restraints shall be utilized for no longer than is reasonably necessary to protect the incarcerated person or others from harm.
- (g) Staff members shall conduct direct face-to-face observation at least twice every 30 minutes to check the incarcerated person's physical well-being and behavior. Restraints shall be checked to verify correct application and to ensure they do not compromise circulation. All checks shall be documented, with the actual time recorded

by the person doing the observation, along with a description of the incarcerated person's behavior. Any actions taken should also be noted in the log.

- (h) The specific reasons for the continued need for restraints shall be reviewed, documented and approved by the Facility Manager or Watch Commander at least every hour.
- (i) As soon as practical, but within one hour of placement in restraints, the incarcerated person shall be medically assessed to determine whether the person has a serious medical condition that is being masked by the aggressive behavior. The medical assessment shall be a face-to-face evaluation by a qualified health care professional and shall recur once every (2) four hours of continued restraint thereafter.
- (j) As soon as practical, but within six hours of placement in restraints, the incarcerated person must be evaluated by a mental health professional to assess whether the inmate needs immediate and/or long-term mental health treatment.
- (k) If the Facility Manager or the authorized designee, in consultation with responsible health care staff determines that the incarcerated person cannot be safely removed from restraints after eight hours, the person shall be taken to a medical facility for further evaluation.
- (l) Where applicable, the Facility Manager shall use the restraint device manufacture's recommended maximum time limits for placement.
- (m) The Wrap restraint system shall not be used on an inmate who demonstrates or expresses self-harm.

511.3.1 COURT APPROVAL

Prior judicial approval should be obtained for the use of restraints when the incarcerated person is in court if the restraints will be visible to a jury.

511.4 USE OF RESTRAINTS - CLINICAL

An Incarcerated person may be considered for clinically ordered restraints when exhibiting dangerous behavior that is believed to be a product of a medical or mental illness and that puts the person or others at risk of physical harm, or when medical care is urgently required and the person is not considered competent to give or withhold consent.

Clinical restraints shall only be used when an incarcerated person's safety or the safety of others cannot be protected by less restrictive means, and only upon the direct order of a qualified health care professional and notification of the Facility Manager or the authorized designee prior to taking action. Restraints shall be used no longer than is reasonably necessary to provide for the legitimate safety concerns of the incarcerated person, staff, or others.

The following provisions shall be used any time clinical restraints is authorized:

- (a) Excluding short-term use to gain immediate control of an incarcerated person exhibiting dangerous or destructive behavior, an incarcerated person may be placed in clinical restraints only on the orders of a qualified health care professional and only after making a determination that less restrictive interventions are ineffective to prevent the person from causing property damage or serious self-injury or injury to others.

Santa Cruz County Sheriff's Office

Use of Restraints

- (b) Clinical restraints shall never be ordered or otherwise applied as a means of coercion, discipline, punishment, convenience, or retaliation.
- (c) The qualified health care professional's order may only be in effect for up to 12 hours for adult incarcerated persons and up to two hours for incarcerated persons age 17 or younger.

- (g) Incarcerated persons placed in restraints shall only be placed in a face-up position.
- (h) Following the first face-to-face observation, a qualified health care professional shall conduct face-to-face checks every 15 minutes on an irregular schedule to assess the incarcerated person's condition and behavior. The restraints shall be checked for proper application and to ensure that circulation is not compromised. Checks shall be documented in the incarcerated person's medical file.
- (i) Except in the event of a medical emergency for the incarcerated person, only a qualified health care professional shall determine when an incarcerated person shall be released from clinical restraints.

511.5 RANGE OF MOTION

Incarcerated persons placed in restraints for longer than two hours should receive a range-of-motion procedure that will allow for the movement of the extremities. Range-of-motion exercise will consist of alternate movement of the extremities (i.e., right arm and left leg) for a minimum of 10 minutes every two hours.

511.6 FOOD, HYDRATION, AND SANITATION

Incarcerated persons who are confined in restraints shall be given food and fluids. Provisions shall be made to accommodate any toileting needs at least once every two hours. Food shall be provided during normal meal periods. Hydration (water or juices) will be provided no less than once every two hours or when requested by the incarcerated person.

Offering food and hydration to incarcerated persons will be documented to include the time, the name of the person offering the food or water/juices, and the incarcerated person's response (receptive, rejected). Incarcerated persons shall be provided the opportunity to clean themselves or their clothing while they are in restraints.

511.7 AVAILABILITY OF CARDIOPULMONARY RESUSCITATION EQUIPMENT

Cardiopulmonary resuscitation (CPR) equipment shall be provided by the facility and located in close proximity to the location where incarcerated persons in restraints are held.

511.8 RESTRAINED INCARCERATED PERSON HOLDING

Restrained incarcerated persons should be protected from abuse by other incarcerated persons. Under no circumstances will restrained incarcerated persons be housed with incarcerated persons who are not in restraints. In most instances, restrained incarcerated persons are housed alone or in an area designated for restrained persons (15 CCR 1058).

511.9 PREGNANT INCARCERATED PERSONS

Restraints will not be used on inmates who are known to be pregnant unless based on an individualized determination that restraints are reasonably necessary for the legitimate safety and security needs of the inmate, the staff or the public. Should restraints be necessary, the restraints shall be the least restrictive available and the most reasonable under the circumstances.

Incarcerated persons who are known to be pregnant will not be handcuffed behind their backs or placed in waist restraints or leg irons or placed in the safety chair or Wrap restraint system.

Once pregnancy has been confirmed, the person shall be advised, orally or in writing, of the standards and policies governing pregnant incarcerated persons, including, but not limited to, the provisions of this chapter, the relevant regulations, and the correctional facility policies (Penal Code § 3407 (e)).

511.9.1 INCARCERATED PERSONS IN LABOR

No incarcerated person who is in labor, delivery, or recovery from a birth shall be handcuffed behind their backs or placed in waist restraints or leg irons or placed in the safety chair or the Wrap restraint system (Penal Code § 3407; 15 CCR 1058.5).

No incarcerated person who is in labor, delivering, or recovering from a birth shall be otherwise restrained except when all of the following exist (Penal Code § 3407; 15 CCR 1058.5):

- (a) There is a substantial flight risk or some other extraordinary medical or security circumstance that dictates restraints be used to ensure the safety and security of the incarcerated person, the staff of this or the medical facility, other incarcerated persons, or the public.
- (b) A supervisor has made an individualized determination that such restraints are necessary to prevent escape or injury.
- (c) There is no objection from the treating medical care provider.
- (d) The restraints used are the least restrictive type and are used in the least restrictive manner.

Restraints shall be removed when medical staff responsible for the medical care of the pregnant incarcerated person determines that the removal of restraints is medically necessary (Penal Code § 3407).

Use of Restraints

The supervisor should, within 10 days, make written findings specifically describing the type of restraints used, the justification, and the underlying extraordinary circumstances.

511.9.2 INCARCERATED PERSONS IN RECOVERY AFTER TERMINATED PREGNANCY

Incarcerated persons recovering from a termination of pregnancy shall not be handcuffed behind their backs or placed in waist restraints or leg irons unless an exception identified in the Incarcerated Persons in Labor subsection of this policy applies (15 CCR 1058.5).

Restraints shall be removed when medical staff responsible for the medical care of the incarcerated person determines that the removal of restraints is medically necessary (15 CCR 1058.5).

511.10 MEDICAL CLEARANCE FOR USE OF THE WRAP PRIOR TO INTAKE

All persons who have been arrested in the field and restrained in the Wrap upper and lower body restraints, shall be medically assessed at an approved medical facility prior to acceptance into booking. Discharge documents shall accompany the arrestee. If deemed necessary, the subject can remain in the Wrap during intake. Once in intake, medical staff shall make a full vitals/medical assessment during the booking process. The subject will then be escorted into an appropriate holding room where the Wrap shall be removed by the arresting agency.

512.1 PURPOSE AND SCOPE

The purpose of this policy is to provide clear direction on maintaining the safety and security of the correctional facility by conducting searches in balance with protecting the constitutional rights of incarcerated persons (15 CCR 1029(A)(6)).

The introduction of contraband into the correctional facility poses a serious risk to the safety and security of members, incarcerated persons, and the public. Any item that is not available to all incarcerated persons may be used as currency by those who possess the item and will allow those in possession of the item to have control over other persons. Any item that may be used to disengage a lock or other electronic security device or that could compromise the physical plant jeopardizes the safety and security of this correctional facility. Carefully restricting the flow of contraband into the correctional facility can only be achieved by thoroughly searching incarcerated persons and their environment.

Nothing in this policy is intended to prohibit the otherwise lawful collection of trace evidence from an individual.

512.1.1 DEFINITIONS

Definitions related to this policy include:

Contraband - Anything unauthorized for incarcerated persons to possess, including drugs and weapons of any kind.

Excess property - Anything authorized for incarcerated persons to possess but in an unauthorized manner or quantity.

Modified strip search - A search that requires the removal or rearranging of some of a person's clothing and does not include a visual inspection of the exposed breasts, buttocks, or genitalia of the person. This search may include a thorough tactile search of an incarcerated person's partially unclothed body. This also includes searching the person's clothing after it has been removed.

Pat-down search - A search used to check an individual for contraband. It involves thoroughly patting down an incarcerated person's clothed body to locate any items that could pose a danger to the corrections officer, the incarcerated person, or others.

Physical body cavity search - A search that includes a visual inspection of and may include physical intrusion into a body cavity. Body cavity means the stomach, colon, rectum, or vagina.

Strip search - A search that requires the removal or rearranging of some or all of a person's clothing to permit a visual inspection of the underclothing, breasts, buttocks, anus, or outer genitalia of the person.

512.2 POLICY

It is the policy of this office to promote the safety of members, incarcerated persons, and visitors by conducting effective and appropriate searches of incarcerated persons and areas within the

Searches

correctional facility in accordance with applicable laws. Members shall always be alert to the possible presence of contraband and shall take immediate action to seize and appropriately handle contraband when found.

Searches shall not be used for intimidation, harassment, punishment, or retaliation.

512.3 PAT-DOWN SEARCHES

Pat-down searches will be performed on all incarcerated persons/arrestees upon entering the secure booking area of the facility. Additionally, pat-down searches shall occur frequently within the facility. At a minimum, the staff shall conduct pat-down searches in circumstances that include:

- (a) When incarcerated persons leave their housing units to participate in activities elsewhere in the facility (e.g., exercise yard, medical unit, program, classroom, visiting) and when they return.
- (b) During searches of housing units.
- (c) When incarcerated persons come into contact with other incarcerated persons housed outside of their housing units, such as on work details.
- (d) Any time the staff believes the incarcerated persons may have contraband on their persons.

Except in emergencies, all pat-down searches will be conducted by a member of the same gender as the incarcerated person. Absent the availability of a member of the same gender, it is recommended that a witnessing staff member be present during a pat-down search of an individual of the opposite gender. All cross-gender pat-down searches shall be documented (28 CFR 115.15).

512.4 MODIFIED STRIP SEARCHES, STRIP SEARCHES, AND PHYSICAL BODY CAVITY SEARCHES

Corrections officers will generally consider the reason for the search, the scope, intrusion, manner, and location of the search, and will utilize the least invasive search method to meet the need for the search.

512.4.1 STRIP SEARCHES PRIOR TO PLACEMENT IN A HOUSING UNIT

Strip searches prior to placement in a housing unit shall be conducted as follows:

- (a) No person held prior to placement in a housing unit shall be subjected to a modified strip search or strip search unless there is reasonable suspicion based upon specific and articulable facts to believe the person has a health condition requiring immediate medical attention or is concealing a weapon or contraband. Factors to be considered in determining reasonable suspicion include but are not limited to:
 - 1. The detection of an object during a pat-down search that may be a weapon or contraband and cannot be safely retrieved without a modified strip search or strip search.
 - 2. Circumstances of a current arrest that specifically indicate the person may be concealing a weapon or contraband. A felony arrest charge or being under the

- influence of a controlled substance should not suffice as reasonable suspicion absent other facts.
3. Custody history (e.g., past possession of contraband while in custody, assaults on staff, escape attempts).
 4. The person's actions or demeanor, such as refusal to submit to a pat-down search.
 5. Criminal history (e.g., level of experience in a custody setting, including convictions for escape, possession of drugs or weapons, crimes of violence, or being a fugitive or detainee for any of those offenses).
 6. An alert by a metal detector or drug detection device.
 7. Other reliable information that the person possesses drugs, weapons, or contraband.
- (b) Except in the case of a medical emergency, no modified strip search or strip search of an incarcerated person shall be conducted prior to admittance to a housing unit without prior written authorization from the Sergeant.
- (c) The staff member conducting the modified strip search or strip search shall:
1. Document the name and gender of the person subjected to the strip search.
 2. Document the facts that led to the decision to perform a strip search.
 3. Document the reasons less intrusive methods of searching were not used or were insufficient.
 4. Document the supervisor's approval.
 5. Document the time, date, and location of the search.
 6. Document the names, gender, and roles of any staff present.
 7. Itemize in writing all contraband and weapons discovered by the search.
 8. Process all contraband and weapons in accordance with the office's current evidence procedures.
 9. If appropriate, complete a crime report and/or disciplinary report.
 10. Ensure the documentation is placed in the incarcerated person's file. A copy of the written authorization shall be retained and made available to the incarcerated person or other authorized representative upon request.

512.4.2 STRIP SEARCHES FOR PERSONS TO BE PLACED IN A HOUSING UNIT

Strip searches will be conducted on all incarcerated persons once it is reasonably believed they will be housed. Arrestees who are arranging bail shall be permitted a reasonable period of time, not less than 3 hours, before being placed into a housing unit (Penal Code § 4030). In these instances, no supervisor approval is needed prior to a strip search.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Searches

Arrestees who are eligible for release or who will be released when they are no longer intoxicated will not be placed into a housing unit or have unmonitored or unsupervised contact with previously housed incarcerated persons.

512.4.3 MODIFIED STRIP SEARCHES AND STRIP SEARCHES OF INCARCERATED PERSONS IN A HOUSING UNIT

A strip search of an incarcerated person in a housing unit should be conducted when the person has entered an environment where contraband or weapons may be accessed. This includes but is not limited to the following:

- (a) Upon return from contact visits
- (b) Upon leaving the kitchen, shop, or farm
- (c) Upon leaving the facility to court and returning from court
- (d) Upon return to the housing unit from outside the confines of the facility (e.g., court, work-release, work detail, medical visits)
- (e) Upon re-housing from one unit to another unit

Incarcerated persons returning from court with release orders shall not be subject to modified strip searches or strip searches unless the reasonable suspicion exists based on specific and articulable facts that the person is concealing a weapon or contraband. The incarcerated person should not be returned to the housing unit, except to retrieve their personal property under the direct visual supervision of staff.

Staff members may conduct modified strip searches and strip searches of incarcerated persons outside the above listed circumstances only with supervisor approval. Staff members and supervisors must make a determination to conduct a strip search by balancing the scope of the particular search, intrusion, the manner in which it is conducted, the justification for initiating it, and the place in which it is conducted. Less invasive searches should be used if they would meet the need for the search. For example, a pat-down or modified strip search may be sufficient as an initial effort to locate a larger item, such as a cell phone.

The staff member conducting a modified strip or strip search outside the above listed circumstances shall:

- Document in writing the facts that led to the decision to perform a strip search of the incarcerated person.
- Document the reasons less intrusive methods of searching were not used or were insufficient.
- Document the supervisor's approval.
- Document the time, date, and location of the search.
- Document the names of staff present, their gender, and their roles.
- Itemize in writing all contraband and weapons discovered by the search.

Searches

- Process all contraband and weapons in accordance with the office's current evidence procedures.
- If appropriate, complete a crime report and/or disciplinary report.
- Ensure the completed documentation is placed in the incarcerated person's file. A copy of the written authorization shall be retained and made available to the incarcerated person or other authorized representative upon request.

512.4.4 MODIFIED STRIP SEARCH AND STRIP SEARCH PROCEDURES

All modified strip searches and strip searches shall be conducted in a professional manner under sanitary conditions and in an area of privacy so that the search cannot be observed by persons not participating in the search.

Unless conducted by a qualified health care professional or in case of an emergency, a modified strip search or strip search shall be conducted by staff members of the same gender as the person being searched (Penal Code § 4030). Any cross-gender modified strip searches and cross-gender strip searches shall be documented (28 CFR 115.15).

Whenever possible, a second staff member of the same gender should be present during the search for security purposes and to witness the discovery of evidence.

The staff member conducting a strip search shall not touch the breasts, buttocks, or genitalia of the person being searched. These areas may be touched through the clothing during a modified strip search.

- (a) The searching staff member will instruct the incarcerated person to:
 1. Remove or rearrange their clothing.
 2. Raise their arms above the head and turn 360 degrees.
 3. Bend forward and run their hands through their hair.
 4. Turn their head first to the left and then to the right so the searching corrections officer can inspect the person's ear orifices.
 5. Open their mouth and run a finger over the upper and lower gum areas, then raise the tongue so the corrections officer can inspect the interior of the person's mouth. Remove dentures if applicable.
 6. Turn around and raise one foot first, then the other so the corrections officer can check the bottom of each foot.
 7. For a visual cavity search, turn around, bend forward, and spread the buttocks if necessary to view the anus.
- (b) At the completion of the search, the incarcerated person should be instructed to dress in either their street clothes, or correctional facility-supplied clothing, as appropriate.

512.4.5 PHYSICAL BODY CAVITY SEARCH

Physical body cavity searches shall be completed as follows:

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Searches

- (a) No person shall be subjected to a physical body cavity search without the approval of the Facility Manager or the authorized designee and only with the issuance of a search warrant. A copy of any search warrant and the results of the physical body cavity search shall be included with the related reports and made available, upon request, to the incarcerated person or authorized representative (except for those portions of the warrant ordered sealed by a court).
- (b) Only a physician may conduct a physical body cavity search. Except in exigent circumstances, only a physician who is not responsible for providing ongoing care to the incarcerated person may conduct the search (15 CCR 1206(o)).
- (c) Except for the physician conducting the search, persons present must be of the same gender as the person being searched. Only the necessary staff needed to maintain the safety and security of the medical personnel shall be present (Penal Code § 4030).
- (d) Privacy requirements, including restricted touching of body parts and sanitary condition requirements, are the same as required for a strip search.
- (e) All such searches shall be documented including:
 - 1. The facts that led to the decision to perform a physical body cavity search of the incarcerated person.
 - 2. The reasons less intrusive methods of searching were not used or were insufficient.
 - 3. The Facility Manager's approval.
 - 4. A copy of the search warrant.
 - 5. The time, date, and location of the search.
 - 6. The medical personnel present.
 - 7. The names, gender, and roles of any staff present.

- (g) All contraband and weapons should be processed in accordance with the office's current evidence procedures.
- (h) If appropriate, the staff member shall complete a crime report and/or disciplinary report.

512.4.6 BODY SCANNER SEARCH

When a scanner is reasonably available, a body scanner should be performed on all incarcerated persons/arrestees upon entering the secure booking area of the facility.

If a body scanner is used, members (Penal Code § 4030):

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Searches

- (a) Within sight of the visual display of a body scanner depicting the body during a scan shall be of the same sex as the person being scanned, except for physicians or licensed medical personnel.
- (b) Should ask female incarcerated persons if they are pregnant prior to a body scan and should not knowingly use a body scanner on a woman who is pregnant.
- (c) Training officers should not directly observe the body scanned image if the person being scanned is a different sex.

The body scanner should generally be used whenever reasonably practicable in place of a modified strip search, strip search or body cavity search of an incarcerated person in housing unless one of those searches is reasonably necessary after the scan.

512.5 PROHIBITED SEARCHES OF TRANSGENDER AND INTERSEX INCARCERATED PERSONS

Members shall not search or physically examine a transgender or intersex incarcerated person for the sole purpose of determining genital status (see the Prison Rape Elimination Act Policy for transgender and intersex definitions). If genital status is unknown, it may be determined during conversations with the person, by reviewing medical records, or if necessary, by obtaining that information as part of a broader medical examination conducted in private by a qualified health care professional (28 CFR 115.15).

512.6 HOUSING UNIT SEARCHES

Housing unit searches shall occur as directed by a supervisor. These searches should include all of the living spaces occupied by incarcerated persons. Housing unit searches should be scheduled in a manner that does not create a pattern where the persons can predict such searches. During a housing unit search:

- (a) All incarcerated persons shall vacate their living areas and be searched by staff.
- (b) Incarcerated persons should be escorted to a separate holding area, such as the recreation yard.
- (c) Staff shall search the living areas of the incarcerated persons, including bedding, personal storage areas, bunks, and other areas with incarcerated person access.
- (d) Any weapons or contraband located shall be processed in accordance with the current evidence procedures.
- (e) The staff shall attempt to identify the incarcerated person who possessed the contraband and file appropriate person discipline and/or crime reports.
- (f) Any alcoholic beverage possessed by incarcerated persons shall be seized and the appropriate person disciplined and/or criminal charges filed.
- (g) Any authorized item found in excess of the limited quantity (e.g., food items, newspapers) shall be seized and discarded.

Searches

At the conclusion of the housing unit search, closely supervised incarcerated workers should clean the unit. All authorized incarcerated person personal property shall be respected and living areas should be returned to an orderly condition.

512.7 PHYSICAL PLANT SEARCHES

The following areas of this correctional facility shall be periodically searched for contraband:

- (a) Exercise yards shall be searched for contraband prior to and after each incarcerated person group occupies the yard.
- (b) Holding cells shall be searched prior to and after each incarcerated person occupies the cell.
- (c) Program areas, such as classrooms and multipurpose rooms, shall be searched after each use by an incarcerated person or incarcerated person group.

- (f) Incarcerated person visiting and public areas shall be frequently inspected for contraband.
- (g) The facility perimeter shall be searched at least once each shift for contraband.

512.7.1 CANINE-ASSISTED SEARCHES

It is the policy of this facility to use canines to assist the staff in searching for contraband. Such searches shall occur only with the approval of a supervisor. Only canines trained in the detection of contraband, such as drugs, alcohol, and weapons, will be allowed within the secure perimeter of the facility. Canines trained solely in crowd control or to assist in physically subduing individuals will not be used in the facility.

Canines will generally be used to assist the staff in general physical plant or living area searches. Contact between incarcerated persons and canines should be kept to a minimum (see the Canines Policy).

512.8 CRIMINAL EVIDENCE SEARCHES

The Facility Manager or the authorized designee shall be notified, as soon as practicable, any time it is suspected that a crime has been committed in the facility or other area controlled by the facility staff, and there is a need to search for evidence related to the crime.

Any evidence collected in connection with an alleged crime shall be reported, documented and stored to protect it from contamination, loss or tampering, and to establish the appropriate chain of custody. A search for evidence may be conducted by staff whenever there is a need for such action.

512.9 TRAINING

The Training Officer shall provide training for staff in how to conduct pat-down searches, modified strip searches, and strip searches in a professional and respectful manner and in the least intrusive manner possible, consistent with facility security needs. This training shall include cross-gender pat downs and searches, as well as searches of transgender and intersex incarcerated persons (28 CFR 115.15).

Upon request, a detained arrestee released from custody shall be provided with the appropriate Judicial Council forms to petition the court to have the arrest and related records sealed (Penal Code § 851.91).

The correctional facility shall display the required signage that complies with Penal Code § 851.91 advising an arrestee of the right to obtain the Judicial Council forms.

518.3.4 DISCHARGE OF SEX OFFENDER REGISTRANTS

The Records Section shall inform the California Department of Justice when incarcerated persons required to register changes in address under Penal Code § 290.013 have been released from the correctional facility within 15 days of release (Penal Code § 290.013).

Over-Detention and Inadvertent Releases

519.1 PURPOSE AND SCOPE

This policy is intended to provide guidance to staff and management to prevent and address over-detention or inadvertent release.

519.1.1 DEFINITIONS

Definitions related to this policy include:

Inadvertent release - Any instance of an incarcerated person being mistakenly released.

Over-detention - Any instance of an incarcerated person being mistakenly detained beyond their scheduled release date.

519.2 POLICY

It is the policy of this office to reasonably ensure that over-detention and inadvertent releases do not occur.

519.3 OVER-DETENTION

Any custody member who discovers or receives information of an over-detention, or a complaint from an incarcerated person regarding over-detention (which could be discovered through a grievance), should immediately notify the Sergeant (see the Grievances Policy).

The Sergeant should direct the jail records unit to immediately conduct an investigation to determine the correct release date of the incarcerated person and to report the findings to the Sergeant.

Incarcerated persons who are found to be over-detained shall be processed for immediate release in accordance with the End of Term Release Policy. The Sergeant shall ensure that the Facility Manager is notified, an entry is made to the daily activity log, and that a report is completed.

519.3.1 OVER-DETENTION GRIEVANCES

Any custody member who receives information or a complaint from an incarcerated person regarding over-detention should assist the person with completing a grievance form and forward the form directly to the Sergeant as soon as practicable.

The Sergeant receiving a grievance regarding an over-detention should direct the jail records unit to immediately conduct an investigation to determine the correct release date of the incarcerated person and to report the findings to the Sergeant.

If the Sergeant decides not to release the incarcerated person, the Sergeant should ensure the person receives a grievance hearing within 24 hours of the grievance submission. The hearing documentation should reflect efforts made to investigate the allegation (see the Grievances Policy).

Over-Detention and Inadvertent Releases

519.4 INADVERTENT RELEASE

Whenever an inadvertent release is discovered, the custody member making the discovery shall immediately notify the Sergeant. The notification shall be documented in the daily activity log.

519.4.1 INADVERTENT RELEASE INVESTIGATION

The Sergeant should direct the jail records unit to immediately conduct an investigation to determine the cause of the inadvertent release.

The Sergeant will coordinate a response based upon the seriousness of the threat the incarcerated person may pose to the community. The threat assessment should be based upon the person's criminal history and the reason the person is currently in custody, among other factors.

In the case of an inadvertent release, the Sergeant should immediately notify the Facility Manager and ensure a report is completed. The Facility Manager should notify the Sheriff.

An appropriate evaluation of the circumstances shall be made to determine whether the inadvertent release should be classified as an escape.

519.4.2 RETURNING THE INCARCERATED PERSON TO CUSTODY

When the incarcerated person is located and returned to the facility, the appropriate notifications should be made as soon as possible.

Body Scanner

520.1 PURPOSE AND SCOPE

The Tek 84 Intercept body scanner will be used to deter and prevent illegal contraband such as drugs and weapons, from entering or remaining within Santa Cruz County Jail facilities. The body scanner may be used to scan recent arrestees, housed inmates, and/or their property.

520.1.1 DEFINITIONS

Definitions related to this policy include:

- **Body Scan:** X-ray technology used to produce an image revealing the presence of contraband concealed on or inside of a person.
- **Body Scan Device:** A stationary system for obtaining full height, radiographic images of a person to detect weapons, explosives, drugs, and contraband concealed under the clothes, swallowed, or hidden in anatomical cavities of the human body without causing harm to the scanned person.
- **X-ray:** Also referred to as X-radiation, is a form of electromagnetic radiation similar to light but of shorter wavelength and capable of penetrating solids.
- **Radiation:** Radiation is the process in which energetic particles or waves travel through a medium or space. There are two distinct types of radiation; ionizing and non-ionizing. X-radiation is an ionizing radiation.
- **Radiation Survey:** Measurement of the X-Radiation.
- **Exposure:** A term defining the amount of ionizing radiation that strikes living or inanimate material. The Federal Drug Administration definition is found at 21 CFR 1020.40(b)(5).
- **Dose:** The quantity of radiation absorbed.
- **RSO:** Radiation Safety Officer

520.2 POLICY

It is the policy of this office to utilize a Tek 84 Intercept body scanner in the Santa Cruz County Corrections Bureau to reduce the introduction of contraband, intoxicants, drugs, and weapons in to the Santa Cruz County Jail. These items pose a significant risk to the safety and security of staff, inmates, volunteers, contractors, and the public. The Tek 84 Intercept Body Scanner is a tool to help maintain the safety of our staff, inmates, the public, and the security of our facility. It may be used to scan inmates' persons and/or inmates' property for contraband.

520.3 REQUIREMENTS

The following requirements apply to use of the Tek 84 Intercept Body Scanner:

- (a) Only authorized personnel may view the body scan monitors or images produced by the body scanner. The monitors shall not be in an area viewable to inmates. Arresting officers may view the scan if the arrestee is suspected of concealing contraband and is medically refused.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Body Scanner

- (b) Whenever possible, all persons conducting or otherwise present in the monitor viewing area shall be of the same sex as the person being scanned. Exceptions may include preference accommodations or identifying an anomaly, training, or emergency.
- (c) Body scans shall never be used as a punitive measure against an inmate.
- (d) Body scans do not take the place of pat down searches or custodial searches when facts exist to warrant a custodial search.

520.3.1 PACEMAKERS AND MEDICAL DEVICES

There is no FDA published material indicating the use of the body scanner will adversely affect implanted medical devices, such as a pacemaker. A person who claims to have such a device should first be examined by medical staff prior to a scan. However, the presence of such a device should not preclude the use of the scanner, unless other circumstances known to medical staff or jail staff indicate otherwise.

520.3.2 PROHIBITED OR RESTRICTED USE

The following people should not be scanned without Lieutenant or Chief Deputy approval:

- **Cancer Patients:** Inmates who are being treated for cancer with Radiation Therapy will not be scanned.
- **Disabled Inmates:** Persons who have a disability that prevents the use of the Scanner shall be afforded reasonable accommodation. Searches shall be thorough and professional, with safety and security being the paramount concern.
- **Pregnant Inmates:** The Body Scan devices shall not be used to scan arrestees or inmates who are known or alleged to be pregnant under any circumstances. A statement by the arrested person or inmate that she is pregnant is sufficient for officers to assume the subject is exempt from the body scan. Prior to scanning a female arrestee or inmate, the officer performing the scan shall ask the arrestee/inmate if they are pregnant. If pregnancy is not obvious and there is a suspicion the inmate is alleging pregnancy to avoid being scanned, the pregnancy can be verified by Medical personnel. Pregnancy tests will be completed by Medical staff. If Medical staff advise the female is not pregnant, the arrestee may be scanned with the body scanner. This will only occur if the negative test result is revealed before the female is housed.

520.4 USE OF BODY SCANNER

Inmates that have been housed into the inmate population may be scanned any time there is a belief they may have concealed weapons, drugs, or contraband on or in their body, as long as they do not meet one of the above listed exceptions.

The scanner may be used to scan any item belonging to an arrestee or inmate who is booked into or housed within the Santa Cruz County Jail. Scanning an arrestee's property may be conducted when articulable facts exist to believe the contents of the property may pose a risk to the safety or security of the facility. Use of the scanner to inspect the contents of packages or articles not belonging to an arrestee or items that will not be stored inside the jail property room will not be conducted absent clear legal authority to do so. The purpose of the scanner is to prevent

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Body Scanner

contraband from entering the facility and to detect weapons, drugs, and contraband possessed by inmates within the facility or hidden within their property.

The body scanner does not take the place of a pat search or custodial search when facts exist to warrant a strip search.

520.4.1 INTOXICATED ARRESTEES

Care should be exercised when scanning persons who demonstrate an acute level of intoxication to such an extent that standing or remaining still for the duration of the scan might not be possible. If the person demonstrates objective symptoms of intoxication to an extent that their safety may be compromised by standing, the scan should be delayed to a later time or deferred completely if the person will be released when sober.

520.5 INTAKE SCAN PROCEDURES

All arrestee intakes will be scanned using the following procedures:

- (a) The arrestee will be subject to a pat search followed by removal of all property from their clothing.
- (b) The officer or arrestee will remove their property from clothing, including belts, items in pockets, and shoes.
- (c) Following removal of all property, the arrestee will be escorted through the metal detector.
- (d) Once the arrestee has successfully passed the metal detector he/she will be instructed to stand in the body scanner.
- (e) If the arrestee is suspected of concealing contraband in his/her shoes, the officer should scan the shoes separately to avoid potential use of a weapon or destruction of evidence.
- (f) The arrestee will be scanned by the body scanner.
- (g) The scan will be assigned to that arrestee on the Tek84 Intercept Scanner software..
- (h) The intake process will continue if no anomalies are detected.
- (i) If it appears the arrestee might be trying to conceal contraband, the scan will be marked "Suspect".

520.5.1 DETECTION OF CONTRABAND

If a scan reveals an object that is clearly identifiable or suspected to be a weapon, drugs, or contraband, the following procedures shall be followed:

- (a) The arrestee will be secured in restraints and placed under constant supervision.
- (b) The Watch Commander or Supervisor shall be notified.
- (c) The arrestee will be pat searched again with special attention placed on searching the clothing around the detected item.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Body Scanner

- (d) If the clothing search is unsuccessful, a custodial search may be authorized by the Watch Commander, based on the totality of the facts known (refer to Corrections Policy 512).
- (e) If the object appears to be in a body cavity, the arrestee will be asked to remove the object. If the arrestee agrees to remove the item, a private room or area will be utilized. Any evidence removed will be provided to the arresting agency.
- (f) If the arrestee refuses to remove the object, or the object appears to be in a location where an intrusive medical procedure would be required, Jail Medical staff will be notified to evaluate the body scan image.
- (g) If determined by Jail Medical staff that the object presents a medical threat to the health or welfare of the inmate or can't be removed without intrusive medical procedures, the arrestee will not be accepted for booking. The arrestee will be released back to the arresting agency.
- (h) If Jail Medical does not deem the item to be a medical threat, the Watch Commander may still reserve the right to refuse the arrestee.
- (i) Jail staff will provide a copy of the image to the arresting officer. The arresting officer will be required to obtain a medical clearance before accepting the arrestee.
- (j) Nothing in this policy prevents staff from conducting more than one scan of an inmate or arrestee to ensure all possible contraband has been detected.

If evidence is located as a result of the body scan, the officer that conducted the scan should:

- (a) For an outside agency (not the Sheriff's Office):
 - 1. Provide the evidence to the arresting officer
 - 2. Author a RMS report with at minimum the following information:
 - (a) The name of the arrestee.
 - (b) The agency that brought the suspect and their case number.
 - (c) A description of the scan and why it was suspicious.
 - (d) Include a copy of the scan either as a multimedia attachment to the RMS report or book a copy of the scan into Evidence.
 - 3. Provide the arresting agency with the name of the officer that conducted the scan and the RMS case number.
- (b) For the Sheriff's Office:
 - 1. Provide the evidence to the arresting officer
 - 2. Author a Supplemental RMS report with at minimum the following information:
 - (a) The name of the arrestee
 - (b) A description of the scan and why it was suspicious
 - (c) Include a copy of the scan either as a multimedia attachment to the RMS report or book a copy of the scan into Evidence.

Santa Cruz County Sheriff's Office

520.5.2 DOCUMENTATION

If an arrestee is refused admittance, the officer who performed the scan shall initiate an incident report in JMS. The report shall at minimum document:

- (a) The reason for the refusal.
- (b) A description of the suspected contraband.
- (c) An approximate area where the suspected item appeared to be located.
- (d) The scan number associated to the scan.

520.5.3 SELF-SURRENDERS

Inmates who have turned themselves in on a commitment may be scanned in the same manner as a fresh arrestee.

520.5.4 HOUSED INMATES

Unless prohibited or restricted as noted in section 520.3.2 of this policy, all inmates may be scanned any time there is a belief they may have concealed weapons, drugs, or contraband on or in their body.

Considerations that may warrant use of the scanner for housed inmates:

- (a) Inmates returning from court, outside medical appointments, third party contacts, inmates "rolling up" from housing units, inmates requesting transfer to other housing units, inmate transfers to other institutions where inmates may have had access to weapons, drugs, or contraband.
- (b) Inmates within housing units that demonstrate signs or symptoms of drug intoxication.
- (c) Housed inmates who are the subject of a jail or criminal investigation involving weapons, drugs, or contraband.
- (d) Confidential Informant information that indicates a specific inmate is concealing weapons, drugs, or contraband.
- (e) Other information known to any staff member that would indicate an inmate, or group of inmates, may be in possession of weapons, drugs, or contraband.

To maintain the integrity of the Santa Cruz County Jail facilities and to control the spread of contraband, we encourage jail staff to randomly scan inmates of different classifications.

If contraband is detected, please refer to section 520.5.1.

520.5.5 COMBATIVE ARRESTEES OR INMATES

Arrestees or inmates who refuse to cooperate with the scanning process will be at a minimum, placed into an observation cell where their activities can be monitored. If the arrestee's charges, history or behavior would otherwise qualify him/her for a custodial search, a custodial search may be performed.

If the arrestee would not otherwise qualify for a custodial search, their refusal to submit to a scan may be considered with other factors such as charges, behavior, symptoms of drug use, or

Santa Cruz County Sheriff's Office

observations that would seem to indicate an attempt to conceal contraband. The shift supervisors will make this determination based on the totality of the circumstances.

At the Watch Commander's discretion, the arrestee may be accepted into custody and booked but will remain in the observation cell until they have been scanned or a custodial search conducted for weapons, drugs, or contraband.

If an inmate is housed in an observation cell due to a refusal to submit to a scan, medical staff will be notified and an Observation Log started consistent with existing policy.

520.6 PRESERVATION OF IMAGES

In the event weapons, drugs or contraband items are detected, the image will be flagged as "suspect" and noted in the log book maintained at the operator station. The shift supervisor will be notified of the detection and appropriate steps will be taken to preserve the image if needed as evidence for a criminal prosecution. Sheriff's Office protocols for booking evidence will be utilized for criminal cases handled by the Sheriff's Office. If the evidence is being provided to another agency, that agency will be responsible for documenting chain of custody and preservation of the image (digital or print).

When contraband is recovered as a result of the scanner, an RMS report will be generated and the scan number shall be notated in the incident report.

520.7 INMATE PROPERTY

Notwithstanding language regarding the property of fresh arrestees or persons not housed in the jail facility, any property located in inmate housing may be scanned at any time, and for any reason.

Inmate property located in a jail property bag may be scanned when staff has information to believe articles within the property bag may contain contraband that would pose a risk to this facility if not recovered, a risk to another institution if the inmate is transferred, or a risk to the general safety of the public if the inmate is released.

520.8 TEK 84 INTERCEPT BODY SCANNER SYSTEM SAFETY AND OPERATING PARAMETERS

The following provisions shall be adhered to by all staff:

- (a) Only trained operators shall use the scanner.
- (b) No staff member should remove any access panel or cover during operation or when the system is powered.
 - 1. The radiation levels produced by the Tek 84 Intercept are extremely small. However, higher levels of radiation and other hazards are present inside of the equipment. Under no circumstances should untrained persons remove access panels on the system.
- (c) All panels and covers must be in place before the system is connected to power.
- (d) No covers or panels shall be removed or opened except by Tek84 approved personnel.

The safety features referenced in section 520.8 are required to operate the system. Should any of these features become inoperable, the operator of the body scan device shall:

- (a) Shut down the body scan device and unplug the machine.
- (b) Immediately notify his/her supervisor.
- (c) The supervisor will notify the Radiation Safety Officer (RSO) and Jail Administration. The Radiation Safety Officer or Watch Commander will contact a contracted vendor to make any repairs as necessary.

520.8.2 ANNUAL SERVICING AND SURVEY OF BODY SCAN DEVICES

The calibration and annual maintenance of the body scanner and radiation survey will be performed only by persons and contractors authorized to perform such services. Refer to the Tek 84 Interceptor Operations Manual for detailed service tasks.

The device shall be serviced at least once every year which shall include a radiation survey. Records of these inspections shall be maintained by the Radiation Safety Officer.

520.8.3 RADIATION SURVEY

An annual radiation survey shall be performed on the Tek 84 Intercept:

- (a) Upon installation of a new body scanner;
- (b) At intervals not exceeding one year;
- (c) Upon relocation of an existing unit;
- (d) Immediately following any service that could potentially increase the system output.

This survey shall only be performed by persons or contractors authorized to perform this service.

520.8.4 SAFETY OF THE PERSONS SCANNED

The inspected person dose rate per inspection should not exceed the contracted value of 0.1 - 3.0 μ Sv.

Staff who may be pregnant or have confirmation of pregnancy shall not operate or be in the proximity of the Tek 84 Intercept body scanner during use.

520.8.5 SAFETY OF BYSTANDERS

Bystanders who may be pregnant or have confirmation of pregnancy shall not be in the proximity of the Tek 84 Intercept Body Scanner during its use.

- (d) Dealing with Subjects: Information to be provided to each subject; locally determined protocols for examining subjects.
- (e) Supervised Practical Operation: Proficiency shall be demonstrated at the conclusion of the training. Refresher training shall be provided at least once every twelve months.

Note: No employee shall operate a body scan device without first successfully completing proper training.

520.10 DUTIES OF THE RADIATION SAFETY OFFICER

The Administrative Supervising Correctional Officers shall serve as the Corrections Bureau Radiation Safety Officer (RSO).

The Radiation Safety Officer (RSO) will:

- (a) Maintain and coordinate the safe operation of x-ray based body scan devices in compliance with applicable state and federal regulations.

If it is believed a radiation leak has occurred, the RSO will ensure that a service engineer from Tek84 or other qualified service contractor will calculate the approximate exposure (radiation intensity) of the person(s) possibly exposed.

Canines

521.1 PURPOSE AND SCOPE

The canine program aids staff in locating contraband and maintaining the security of this facility. This policy outlines requirements of the program, its staff, and the expectations of the Office.

521.2 POLICY

The Santa Cruz County Sheriff's Office is committed to ensuring its facilities are free from contraband and drugs and to maintaining facility security. This is done by employing trained canine teams to assist in the detection of drugs and other contraband, in accordance with all applicable laws, regulations, and office policies and procedures.

521.3 GUIDELINES FOR THE USE OF CANINES

Canines may be used to assist staff in conducting searches for contraband, perimeter patrol, building searches, and area searches. At no time may a canine be used to demean, punish, or psychologically torment an incarcerated person. Contact between canines and incarcerated persons should be minimal. Canines should not be used to search individuals. Canines may be used for:

- Searching incarcerated person housing units, including cells, during a housing unit search, as described in the Searches Policy.
- Physical plant searches, as described in the Searches Policy.
- Searching unoccupied intake/booking areas.
- Searching unoccupied transportation vehicles before and after incarcerated person use.
- Searching for or tracking escaped offenders.
- Passive air sniff of incarcerated persons and visitors for contact visits.
- Any other search-related use authorized by a supervisor.

A canine team shall only be used to perform tasks for which it has been trained or certified.

521.3.1 REPORTING CANINE USE, BITES, AND INJURIES

Whenever the canine is deployed, a canine use report shall be completed by the handler and turned in to the Facility Manager before going off-duty.

Whenever the use of the canine results in a bite or any injury a canine use report shall be completed and included with any related incident report. The injured party should receive required medical attention as soon as possible.

Photographs should be taken of the bite or injury as soon as practicable after tending to the immediate needs of the injured party. Photographs shall be retained with the canine use report until the potential need for use in any related civil proceeding has expired.

If a subject alleges an injury that is not visible, a supervisor shall be notified, and the location of the alleged injury should be photographed as described above.

521.3.2 WARNINGS AND ANNOUNCEMENTS

When a canine is used to search a building or area for an individual, unless it would otherwise increase the risk of injury or escape, two clearly audible warnings to announce that a canine will be released if the person does not come forth shall be made and a reasonable response period will be provided prior to releasing a canine. The canine handler, when practicable, shall first advise the supervisor of their decision if a verbal warning is not given prior to releasing the canine. In the event of an apprehension, the handler shall document in any related report whether a verbal warning was given and, if none was given, the reasons why.

521.4 SELECTING AND TRAINING CANINES

The committee shall consider the prospective canine's ability to detect contraband and its ability to work effectively in a custody environment.

521.4.1 TRAINING

Before assignment in this facility, each canine team shall be trained and certified to meet the certification standards established by an approved and recognized canine association.

The Training Officer or the authorized designee shall be responsible for scheduling periodic training as recommended by the certification standards adopted by the recognized canine association for all custody personnel. This shall be done to familiarize custody personnel with how to conduct themselves in the presence of office canines.

- (d) All canine training shall be conducted while on-duty unless otherwise approved by the canine program supervisor.

521.4.3 FAILURE TO SUCCESSFULLY COMPLETE TRAINING

Any canine team failing certification shall not be deployed in this facility until certification is achieved. Any canine team failing annual recertification shall be immediately removed from

The canine handler shall receive all necessary training with his/her canine before being utilized in this facility. All training records for canine handlers will be maintained by the Training Officer.

521.6 MEDICAL CARE OF THE CANINE

All medical attention shall be rendered by the designated canine veterinarian, except during an emergency as provided in this policy.

521.6.1 NON-EMERGENCY MEDICAL CARE

Non-emergency medical care will be coordinated through the canine program supervisor.

Any indication that a canine is not in good physical condition shall be reported to the canine program supervisor as soon as practicable.

All records of medical treatment shall be maintained in the canine handler's personnel file.

Chapter 6 - Due Process of Incarcerated Persons

Discipline

600.1 PURPOSE AND SCOPE

This policy addresses the fair and equitable application of incarcerated person rules and disciplinary actions for those who fail to comply (15 CCR 1081).

600.2 POLICY

It is the policy of this office to maintain written general categories of prohibited incarcerated person behavior that are clear, consistent, and uniformly applied. Written rules and guidelines will be made available to all incarcerated persons. They will include a process for resolving minor infractions and a hearing process for a more serious breach of incarcerated person rules. Criminal acts may be referred to the appropriate criminal agency.

600.3 DUE PROCESS

Incarcerated persons who are subject to discipline as a result of rule violations shall be afforded the procedural due process by the Sheriff that is established in the policies, procedures, and practices relating to incarcerated person discipline. All incarcerated persons will be made aware of the rules of conduct related to maintaining facility safety, security, and order, as well as clearly defined actions for rule violations. Staff will not engage in arbitrary actions against incarcerated persons. All disciplinary actions will follow clearly established procedures. All disciplinary actions will be fairly and consistently applied (15 CCR 1081 et seq.).

The process for an incarcerated person accused of a major rule violation includes:

- (a) A fair hearing in which the Facility Manager or the authorized designee presents factual evidence supporting the rule violation and the disciplinary action.
- (b) Advance notice to the incarcerated person of the disciplinary hearing, to allow the incarcerated person time to prepare a defense.
- (c) An impartial hearing officer.
- (d) The limited right to call witnesses and/or present evidence on the person's behalf.

a detention facility. Therefore, a current list of recognized infractions that are generally prohibited should be available in each housing unit. All incarcerated persons, regardless of their housing unit, shall have access to these rules. For those individuals with limited literacy, unable to read English, and for persons with disabilities, provisions shall be made for staff to instruct them verbally or provide them with material in an understandable form (15 CCR 1080) (see the Handbook and Orientation Policy).

Incarcerated persons shall be informed of facility rules and potential disciplinary actions during the orientation process in accordance with Title 15 CCR 1069 and 1080. Rules and disciplinary actions will be explained in a manner appropriate to the person's language, literacy level, and any disability, ensuring comprehension before they may be held accountable (15 CCR 1069; 15 CCR 1080).

Disciplinary procedures governing incarcerated person rule violations should address rules, minor and major violations, criminal offenses, disciplinary reports, prehearing detention, and prehearing actions or investigations.

600.3.2 RULE VIOLATION REPORTS

This requirement may be satisfied by retaining copies of rule violation reports, including the disposition of each violation (15 CCR 1084). A supervisor shall review all rule violation reports to ensure the investigating officer's report is complete and contains necessary information to establish a violation.

600.4 RULE VIOLATION PROCEDURES

Minor acts of non-conformance to the rules may be handled informally by any corrections officer (15 CCR 1081).

A violation of rules observed by general service employees, volunteers, or contractors will be reported to a corrections officer for further action. Corrections officers are authorized to recommend informal actions on minor violations.

Any staff member imposing informal discipline shall complete the reporting portion of the disciplinary report and provide the form to the supervisor for review prior to the imposition of the action. A supervisor shall be notified prior to any loss of privileges to an incarcerated person. All sanctions shall be proportionate to the severity of the violation and consistent with facility safety, security, and order.

Disciplinary actions that may be imposed for minor rule violations include (15 CCR 1081):

600.4.1 MULTIPLE MINOR RULE VIOLATIONS

Staff may initiate a major rule violation report if an incarcerated person is charged with three or more minor rule violations in a consecutive 30-day period. Staff may initiate a major rule violation even if the person has been disciplined on the two minor rule violations that preceded the third minor violation. Copies of all minor rule violations will be attached to the major rule violation report. A staff member shall conduct a hearing according to the procedures of a major rule violation.

600.4.2 MAJOR RULE VIOLATIONS

600.4.3 ADMINISTRATIVE SEPARATION HOUSING

Incarcerated persons who are accused of a major rule violation may be moved to administrative separation housing for reasons of personal, mental, or physical health, or under any circumstance in which the safety of the person, staff, program, community, or facility is endangered, pending disciplinary action or a review as required by Section 1053 of these regulations. (15 CCR 1081).

The Facility Manager or the authorized designee shall, within 72 hours including weekends and holidays, review the status of any incarcerated person in prehearing detention to determine whether continued prehearing separation housing is appropriate.

600.5 INVESTIGATIONS

Investigations involving major rule violations should be completed in sufficient time for the incarcerated person to have a disciplinary hearing, which is required within 72 hours of the time the incarcerated person was informed, in writing, of the charges.

If upon completion of the investigation, the investigating officer finds insufficient evidence to support a major rule violation, the investigating officer may discuss alternative actions with the Watch Commander, including handling the incident as a minor violation or recommending that charges be removed. Such alternatives shall be documented in the incarcerated person's file.

If the investigating officer determines that sufficient evidence exists to support a major rule violation, the investigating officer will act as the hearing coordinator and will be responsible for:

- Reviewing all reports for accuracy and completeness.
- Overseeing or conducting any required additional investigation.
- Making a determination as to the final charges.
- Identifying any witnesses that may be called to the hearing.

600.6 NOTIFICATIONS

An incarcerated person charged with a major rule violation shall be given a written description of the incident and the rules violated at least 24 hours prior to a disciplinary hearing. Unless waived in writing by the incarcerated person, hearings may not be held in less than 24 hours from the time of notification (15 CCR 1081).

600.7 HEARING OFFICER

The Facility Manager shall appoint at least one hearing officer to preside and conduct disciplinary hearings of major rule violations. The hearing officer should be a qualified supervisor or suitably trained designee who will have the responsibility and authority to rule on charges of incarcerated person rule violations. The hearing officer shall also have the power to impose actions. The hearing officer shall not investigate nor preside over any incarcerated person disciplinary hearing on cases where the hearing officer was a witness or was directly involved in the incident that generated the complaint (15 CCR 1081).

600.8 HEARING PROCEDURE

Incarcerated persons charged with major rule violations are entitled to be present at a hearing unless waived in writing or excluded because their behavior poses a threat to facility safety, security, and order (15 CCR 1081). Staff shall inform the hearing officer when any incarcerated person is excluded or removed from a scheduled hearing and shall document the reasons for the exclusion or removal. A copy of the report shall be forwarded to the Facility Manager.

Hearings may be postponed or continued for a reasonable period of time for good cause. Reasons for postponement or continuance shall be documented on the disciplinary action hearing form and forwarded to the Classification Lieutenant. (15 CCR 1081).

The hearing officer shall disclose to the accused incarcerated person all witnesses who will be participating in the hearing. Incarcerated persons have no right to cross-examine witnesses. However, the accused incarcerated person may be permitted to suggest questions that the hearing officer, in the hearing officer's discretion, may ask.

600.8.1 EVIDENCE

Accused incarcerated persons have the right to make a statement, present evidence, and call witnesses at the hearing (15 CCR 1081). Requests for witnesses shall be submitted in writing by the incarcerated person no later than 12 hours before the scheduled start of the hearing. The written request must include a brief summary of what the witness is expected to say.

The hearing officer may deny the request when it is determined that allowing the witness to testify would be unduly hazardous to institutional safety or correctional goals, when the witness's information would not be relevant or would be unnecessarily duplicative, or is otherwise unnecessary. The reason for denying a witness to testify shall be documented in the hearing report. The reason for denial of any documents requested by the incarcerated person shall also be documented in the hearing record.

A witness's signed written statement may be submitted by the incarcerated person as an alternative to a live appearance. The hearing officer shall review and determine whether the statement is relevant to the charges and shall document the reason for exclusion when any written statement is not given consideration.

Discipline

Absent a safety or security concern, all staff reports and evidence, including exculpatory evidence, obtained during the disciplinary investigation shall be made available to the accused incarcerated person prior to the hearing.

600.8.2 CONFIDENTIAL INFORMANTS

If information from any confidential informant is to be presented at the hearing, information establishing the reliability and credibility of the informant shall be provided to the hearing officer prior to the hearing. The hearing officer shall review such information to determine whether the informant is reliable and credible.

600.8.3 STAFF ASSISTANCE

A staff member shall be assigned to assist an incarcerated person who is incapable of self-representation at a disciplinary hearing due to limited literacy, developmental disabilities, language barriers, or mental status (15 CCR 1081). The scope of the duties of the assistant shall be commensurate with the reasons for the appointment. The assistant should be allowed sufficient time to confer with the incarcerated person to fulfill the individual's obligations. In these cases, the incarcerated person does not have a right to appoint a person to assist in the individual's disciplinary hearing. The final decision regarding the appointment rests with the hearing officer.

Incarcerated person discipline is an administrative and not a judicial process. Incarcerated persons do not have a right to an attorney in any disciplinary hearing. Additionally, disciplinary matters may be referred for criminal prosecution and jail disciplinary action concurrently as there is no double jeopardy defense for an administrative process.

600.8.4 DISCIPLINARY DECISIONS

Disciplinary decisions shall be based on the preponderance of evidence presented during the disciplinary hearing.

The disciplinary process shall consider whether an incarcerated person's mental disabilities or mental illness contributed to the incarcerated person's behavior when determining what type of discipline, if any, should be imposed (28 CFR 115.78(c)). The disciplinary process should take into account the results of this assessment before imposing sanctions.

600.8.5 REPORT OF FINDINGS

The hearing officer shall write a report regarding the decision and detailing the evidence and the reasons for the disciplinary action. A copy of the report shall be provided to the incarcerated person. The original shall be filed with the record of the proceedings. 600.9 DISCIPLINARY APPEALS

Incarcerated persons wishing to appeal the decision of the hearing officer must do so in writing within five days of the decision. All appeals will be forwarded to the Facility Manager or the authorized designee for review (15 CCR 1081).

Only appeals based on the following will be considered:

- (b) There was insufficient evidence to support the hearing officer's decision.
- (c) The discipline imposed was not proportionate to the violation committed.

A final disposition shall be rendered as soon as possible if the incarcerated person's appeal is granted or discipline is reduced. The decision of the review authority shall be final and the result of the appeal shall be provided to the incarcerated person in writing.

600.10 LIMITATIONS ON DISCIPLINARY ACTIONS

The U.S. and state constitutions expressly prohibit all cruel or unusual punishment, disciplinary actions shall not include corporate punishment, group punishment when feasible, or physical or psychological degradation (15 CCR 1083). Additionally, there shall be the following limitations:

- Disciplinary separation shall be considered an option of last resort and as a response to the most serious and threatening behavior, for the shortest time possible, and with the least restrictive conditions possible (15 CCR 1083).
- In no case shall any incarcerated person or group of incarcerated persons be delegated the authority to punish any other incarcerated person or group of incarcerated persons (Penal Code § 4019.5; 15 CCR 1083).
- In no case shall a safety cell, as specified in the Safety and Sobering Cells Policy, be used for disciplinary purposes (15 CCR 1083).

correspondence other than legal mail may be suspended for no longer than 72 hours without the review and approval of the Facility Manager (15 CCR 1083).

- In no case shall access to the courts and/or legal counsel be suspended as a disciplinary measure (15 CCR 1083).
- No incarcerated person may be deprived of the implements necessary to maintain an acceptable level of personal hygiene (15 CCR 1083; 15 CCR 1265).

- No discipline may be imposed for sexual contact with staff unless there is a finding that the staff member did not consent to such contact (28 CFR 115.78(e)).
- No incarcerated person may be disciplined for falsely reporting sexual abuse or lying, even if an investigation does not establish evidence sufficient to substantiate the allegation, if the report was made in good faith based upon a reasonable belief that the alleged conduct occurred (28 CFR 115.78(f)).
- In no case shall incarcerated persons be deprived of clothing, bedding, or access to toilet facilities as a disciplinary measure (15 CCR 1083).

600.11 GUIDELINES FOR DISCIPLINARY ACTIONS

Discipline shall be commensurate with the nature and circumstances of the offense committed, the incarcerated person's disciplinary history, and the actions imposed for comparable offenses by other incarcerated persons with similar histories (28 CFR 115.78(b); 15 CCR 1082).

In all cases, actions should be imposed for the purpose of controlling or changing an incarcerated person's behavior, promotion of desired behavior through a progressive disciplinary process, and not for the purpose of punishment (15 CCR 1082).

Acceptable forms of discipline shall consist of but not be limited to the following (15 CCR 1082):

- Loss of privileges
- Extra work detail
- Short-term lockdown for less than 24 hours
- Removal from work details
- Forfeiture of work time credits earned under Penal Code § 4019
- Forfeiture of good time credits earned under Penal Code § 4019

Incarcerated persons shall be subject to disciplinary actions pursuant to a formal disciplinary process following an administrative finding that the incarcerated person engaged in incarcerated person-on-incarcerated person sexual abuse or following a criminal finding of guilt for incarcerated person-on-incarcerated person sexual abuse (28 CFR 115.78(a)).

To the extent that there is available therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for sexual abuse, the facility shall consider

whether to require an incarcerated person being disciplined for sexual abuse to participate in such interventions as a condition of access to programming or other benefits (28 CFR 115.78(d)).

600.12 TRAINING

The Facility Manager or the authorized designee is responsible for ensuring that a wide range of training and disciplinary tools are available to aid staff and that preprinted forms are available for documenting rule violations in a consistent and thorough manner.

The Training Officer is responsible for developing and delivering, or procuring, training for staff members who participate in the disciplinary hearing process. Training topics should include the legal significance of due process protections and the hearing officer's role in assuring that those protections are provided.

Disciplinary Separation

601.1 PURPOSE AND SCOPE

This policy specifically addresses disciplinary separation and guiding principles relating to the conditions attached to that separation. It will provide guidance to the staff on acceptable practices with regard to management of incarcerated persons in disciplinary separation or classified as requiring special management needs.

601.1.1 DEFINITIONS

Definitions related to this policy include:

Disciplinary separation - The physical separation of different types of incarcerated persons from each other as specified in Penal Code Sections 4001 and 4002, and Section 1053 of these regulations. Administrative separation is accomplished to provide that level of control and security necessary for good management and the protection of staff and incarcerated persons (15 CCR 1006).

601.2 DISCIPLINARY SEPARATION

Incarcerated persons may be placed into disciplinary separation only after an impartial hearing to determine the facts of the rule violation, in accordance with the office Discipline Policy. The hearing officer shall impose discipline in accordance with the discipline schedule established by the Facility Manager. Maximum disciplinary actions for any one incident, regardless of the number of rules violated, shall not exceed 60 days.

Disciplinary separation in excess of 30 days shall be reviewed by the Facility Manager before the discipline is imposed. The review shall include a consultation with health care staff. Such reviews shall continue at least every 15 days thereafter until the disciplinary status has ended. These reviews shall be documented (15 CCR 1082(g); 15 CCR 1083(a)).

601.3 ACCESS TO SERVICES

The ability to discipline incarcerated persons for conduct violations is not absolute. Absent legitimate government reasons, incarcerated persons continue to have a right to receive certain services. However, incarcerated persons in disciplinary separation, in accordance with the Discipline Policy, or special management incarcerated persons who are disciplined for one or more rule violations, may be subject to loss of privileges or credit for good time and work time.

Services to provide for basic human needs must continue to be made available. There are minimum service requirements that must be maintained to ensure the facility continues to operate in a constitutional manner. All custody staff will adhere to the following policy sections to guide them in the supervision of incarcerated persons held in disciplinary separation or classified as requiring special management needs.

Disciplinary Separation

601.3.1 MEDICATION, CLOTHING, AND PERSONAL ITEMS

Incarcerated persons placed in disciplinary separation are considered special management incarcerated persons and shall not be denied prescribed medication.

Special management incarcerated persons will be provided with clothing that identifies their status, but in no case will this clothing be used to intentionally disgrace the incarcerated person.

Absent unusual circumstances, special management incarcerated persons will continue to have the same access to personal items in their cell as general population incarcerated persons have, including the following:

- Clean laundry
- Barbering and hair care services
- Clothing exchanges
- Bedding and linen exchanges

Incarcerated persons in disciplinary separation shall not be deprived of bedding or clothing except in cases where the incarcerated person destroys such articles or uses them to attempt suicide (15 CCR 1083(a)(2)). The decision to continue to deprive the incarcerated person of these articles must be made by the Facility Manager or the authorized designee and reviewed every 24 hours.

601.3.2 SHOWERING AND PERSONAL HYGIENE

Incarcerated persons in disciplinary separation should be allowed to shower with the same frequency as the general population, if reasonably practicable, but at a minimum shall be afforded the opportunity to shower at least every other day and shave daily (15 CCR 1083(d)). The opportunities for each incarcerated person to shave and shower will be documented on the disciplinary separation unit log.

Exceptions to this policy can only be made when the restriction is determined to be reasonably necessary for legitimate government purposes. Any exceptions to this basic requirement must be reviewed and approved by the Watch Commander. The circumstances necessitating a restriction must be clearly documented on the unit log.

601.3.3 DENIAL OF AUTHORIZED ITEMS OR ACTIVITIES

Personal items may be withheld when it reasonably appears that the items will be destroyed by the incarcerated person or it is reasonably believed that the personal item will be used for a self-inflicted injury or to harm others.

Whenever an incarcerated person in disciplinary separation is denied personal care items or activities that are usually authorized to the general population incarcerated persons, except for restrictions imposed as a result of a disciplinary hearing, the corrections officer taking such action shall prepare a report describing the circumstances that necessitated the need to restrict personal items or activities. The report shall be submitted to a supervisor for review, who will then forward it to the Facility Manager. A copy of the report shall be placed in the incarcerated person's file.

Disciplinary Separation

601.3.4 MAIL AND CORRESPONDENCE

Incarcerated persons in disciplinary separation shall have the same privileges to write and receive correspondence as incarcerated persons in general population, except in cases where incarcerated persons violated correspondence regulations. In such cases, mail privilege may be suspended. The Facility Manager or the authorized designee shall approve all mail privilege suspensions that exceed 72 hours. Legal mail shall not be suspended from delivery to the incarcerated person (15 CCR 1083(f)).

601.3.5 VISITATION

Incarcerated persons in disciplinary separation shall have the same opportunities for visitation as general population incarcerated persons, except when the visitation privileges are suspended pursuant to an action imposed by the disciplinary hearing officer. Disciplinary actions that limit or curtail visitation must be clearly documented and approved by a supervisor if not a condition of the original approved discipline.

601.3.6 READING AND LEGAL MATERIALS

Incarcerated persons in disciplinary separation shall have the same access to reading materials and legal materials as the general population incarcerated persons, unless the restriction is directed by a court of law or there is a reasonable basis to believe the materials will be used for illegal purposes or pose a direct threat to the security and safety of the facility. In such cases the basis for the action shall be documented in the incarcerated person's file and unit log. Access to courts and legal counsel shall not be suspended as a disciplinary measure (15 CCR 1083(g)).

601.3.7 EXERCISE

Incarcerated persons in disciplinary separation shall be given a minimum of three hours of exercise per week outside of their cell. Exceptions to this may occur if there are legitimate security or safety considerations. The circumstances relating to the limitation of exercise shall be documented in an incident report. The report shall be reviewed and the restriction shall be approved by a supervisor.

601.3.8 LIMITED TELEPHONE PRIVILEGES

Incarcerated persons in disciplinary separation may have their telephone privilege restricted or denied. Exceptions include the following:

- (a) Making legal calls
- (b) Responding to verified family emergencies, when approved by the Watch Commander or Facility Manager

All telephone access based on the above exceptions shall be documented on the unit log.

601.3.9 BEDDING AND CLOTHING

Incarcerated persons in disciplinary separation shall not be deprived of bedding or clothing except in cases where the person destroys such articles or uses them for self-harm or to harm others or for something other than the intended purpose. Clothing and bedding shall be returned to the incarcerated person as soon as it is reasonable to believe the behavior that caused the action will

not continue. The decision to continue to deprive the incarcerated person of these articles must be made by the Facility Manager or the authorized designee and reviewed at least every eight hours. This review shall be documented and placed into the incarcerated person's file.

601.4 DIET

Under no circumstances will an incarcerated person be denied food as a means of punishment (15 CCR 1083(e)).

601.5 MENTAL HEALTH CONSIDERATIONS

Due to the possibility of self-inflicted injury and depression during periods of separation, health evaluations should include notations of any bruises and other trauma markings, and the qualified health care professional's comments regarding the incarcerated person's attitude and outlook.

- (a) A qualified health care professional should visit each incarcerated person a minimum of once a day and more often if needed. A medical assessment should be documented in the incarcerated person's medical file.
- (b) Mental health staff or a qualified mental health professional should also conduct weekly rounds.

If after placement in separation, mental health or medical staff determine an incarcerated person to have a serious mental illness or an intellectual disability, the person shall be removed from disciplinary separation immediately upon this determination (15 CCR 1083(a)).

Where reasonably practicable, a qualified health care professional should provide screening for suicide risk following admission to the separation unit.

601.6 LOG PROCEDURES

All management, program staff, and qualified health care professional visits shall be documented on the appropriate records and logs and retained in accordance with established records retention schedules.

Handwritten logs should be completed in ink. Once an entry is made it should not be modified. If corrections or changes are needed they should be done by way of a supplemental entry.

Electronically captured logs will be maintained in a way that prevents entries from being deleted or modified once they are entered. Corrections or changes must be done by way of supplemental entries. At a minimum the log will contain the following:

- (a) Incarcerated person's name
- (b) Incarcerated person's booking number
- (c) Housing location
- (d) Classification status
- (e) Date and time placed in separation
- (f) Date and time of entry and exit from the cell
- (g) Violation and length of discipline

Disciplinary Separation

- (h) Scheduled date of removal from separation
- (i) Medical, psychological, or behavioral considerations
- (j) Counseling for behavior
- (k) Date and time of removal from separation

Log entries should be legible, be entered promptly, and provide sufficient detail to adequately reflect the events of the day for future reference.

The date and time of the observation or incident and the name and identification number of the staff member making the log entry shall be included on each entry.

Supervisors should review the logs frequently during the shift and enter comments as appropriate. At a minimum, supervisors should enter the date and time of each review.

All safety checks will be documented in detail and should include the exact time of the safety check and the identification information of the employee conducting the check. All documentation will be gathered and provided to the Sergeant or the Facility Manager at midnight each day.

601.6.1 LOG INSPECTION AND ARCHIVE OF LOGS

The Watch Commander shall review and evaluate the logs and pass any significant incidents via the chain of command to the Facility Manager for review.

The logs will be retained by the Office in accordance with established records retention schedules but in no case less than one year.

Incarcerated Persons with Disabilities

602.1 PURPOSE AND SCOPE

This policy provides guidelines for addressing the needs and rights of incarcerated persons detained by this office in accordance with the Americans with Disabilities Act (ADA).

602.1.1 DEFINITIONS

Definitions related to this policy include:

Disability - The ADA defines a disability as a physical or mental impairment that limits one or more major life activities. These include, but are not limited to, any disability that would substantially limit the mobility of an individual or an impairment of vision and/or hearing, speaking or performing manual tasks that require some level of dexterity.

602.2 POLICY

This office will take all reasonable steps to accommodate incarcerated persons with disabilities while they are in custody and will comply with the ADA and any related state laws. Discrimination on the basis of disability is prohibited.

602.3 FACILITY MANAGER RESPONSIBILITIES

The Facility Manager, in coordination with the Responsible Physician and the ADA Coordinator (see the Accessibility - Facility and Equipment Policy), will establish written procedures to assess and reasonably accommodate disabilities of incarcerated persons. The procedures will include but are not limited to:

- (a) Establishing housing areas that are equipped to meet the physical needs of disabled incarcerated persons, including areas that allow for personal care and hygiene in a reasonably private setting and for reasonable interaction with incarcerated persons.
- (b) Establishing classification criteria to make housing assignments to incarcerated persons with disabilities.
- (c) Assigning individuals with adequate training to assist disabled incarcerated persons with basic life functions, as needed.
- (d) Establishing transportation procedures for moving incarcerated persons with limited mobility.
- (e) Establishing guidelines for services, programs, and activities for the disabled and ensuring that incarcerated persons with disabilities have an equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment (28 CFR 115.16).
- (f) Enlisting or contracting for trained service personnel who have experience working with people with disabilities.
- (g) Establishing procedures for the request and review of accommodations.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Incarcerated Persons with Disabilities

- (h) Establishing guidelines for the accommodation of individuals who are deaf or hard of hearing, have common disabilities such as sight and mobility impairments and developmental disabilities, or have common medical issues, such as epilepsy.
- (i) Identifying and evaluating all incarcerated persons with developmental disabilities, including contacting the regional center to assist with diagnosis and/or treatment within 24 hours of identification, excluding holidays and weekends (15 CCR 1057).

The Facility Manager is responsible for ensuring the Santa Cruz County Sheriff's Office correctional facility is designed or adapted to reasonably accommodate incarcerated persons with disabilities. At a minimum this includes:

- Access to telephones equipped with a telecommunications device for the deaf (TDD) for incarcerated persons who are deaf, are hard of hearing, or have a speech impairment.
- If orientation videos are used to explain facility rules to newly admitted incarcerated persons, subtitles may be displayed on the video presentation to assist incarcerated persons who have impaired hearing.
- Some cells and dormitories should be equipped with wheelchair-accessible toilet and shower facilities. Incarcerated persons with physical disabilities should be allowed to perform personal care in a reasonably private environment.
- Tables designed for eating should be accessible to those in wheelchairs.

602.4 CORRECTIONS OFFICERS' RESPONSIBILITIES

Corrections officers should work with qualified health care professionals to aid in making accommodations for those with physical disabilities.

Corrections officers who work in the classification process should be aware of incarcerated persons with disabilities before making housing decisions. For example, persons with mobility issues may require a lower bunk and accessible toilet and shower facilities. When necessary or required, a supervisor of the classification corrections officer should consult with the qualified health care professional or the Responsible Physician regarding housing location.

Corrections officers should assist an incarcerated person with a disability by accommodating the incarcerated person consistent with any guidelines related to the incarcerated person's disability. If there are no current guidelines in place, corrections officers receiving an incarcerated person request for accommodation of a disability should direct the incarcerated person to provide the request in writing or assist the incarcerated person in doing so, as needed. The written request should be brought to the on-duty supervisor as soon as practicable but during the corrections officer's current shift. Generally, requests should be accommodated if the accommodation would not raise a safety concern or affect the orderly function of the correctional facility. The formal written request should still be submitted to the on-duty supervisor.

Requests that are minor and do not reasonably appear related to a significant or ongoing need may be addressed informally, such as providing extra tissue to an incarcerated person with a cold. Such requests need not be made in writing.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Incarcerated Persons with Disabilities

602.5 ACCOMMODATION REQUESTS

Incarcerated persons shall be asked to reveal any accommodation requests during the intake classification process. Any such request will be addressed according to the classification process.

Requests for accommodation after initial entry into the facility should be made through the standard facility request process and should be reviewed by a supervisor within 24 hours of the request being made. The reviewing supervisor should evaluate the request and, if approved, notify the Facility Manager, ADA Coordinator (see the Accessibility - Facility and Equipment Policy) and any other staff as necessary to meet the accommodation. The supervisor should make a record of the accommodation in the incarcerated person's file.

A supervisor who does not grant the accommodation, either in part or in full, should forward the request to the Facility Manager and the ADA Coordinator within 48 hours of the request being made. The Facility Manager, with the assistance of the ADA Coordinator and/or legal counsel, should make a determination regarding the request within five days of the request being made.

602.6 TRAINING

The ADA Coordinator should work with the Training Officer to provide periodic training on such topics as:

- (a) Policies, procedures, forms, and available resources for incarcerated persons with developmental disabilities.
- (b) Working effectively with interpreters, telephone interpretive services and related equipment.
- (c) Training for management staff, even if they may not interact regularly with disabled individuals, so that they remain fully aware of and understand this policy and can reinforce its importance and ensure its implementation.

Access to Courts and Counsel

603.1 PURPOSE AND SCOPE

The purpose of this policy is to protect the constitutional rights of incarcerated persons to access the courts and legal counsel, while holding incarcerated persons accountable to the rules and regulations that govern conduct in this facility.

603.2 POLICY

It is the policy of this office that all incarcerated persons will have access to the courts and the ability to consult with legal counsel (15 CCR 1068).

603.3 INCARCERATED PERSON ACCESS

Staff should not unreasonably interfere with incarcerated persons' attempts to seek counsel and where appropriate should assist persons with making confidential contact with attorneys and authorized representatives.

Access to courts and legal counsel may occur through court-appointed counsel, attorney, or legal assistant visits, telephone conversations, or written communication. To facilitate access, this facility will minimally provide:

- Confidential attorney visiting areas that include the means by which the attorney and the incarcerated person can share legal documents.
- Telephones that enable confidential attorney-client calls.
- Reasonable access to legal materials.
- A means of providing assistance through the court process by individuals trained in the law. This assistance will be available to illiterate incarcerated persons and those who cannot speak or read English or who have disabilities that would impair their ability to access.
- Writing materials, envelopes, and postage for indigent incarcerated persons for legal communications and correspondence.

The Facility Manager shall be responsible for ensuring that information regarding access to courts and legal counsel and requesting legal materials or legal assistance is included in the incarcerated persons handbook, which is provided during orientation.

603.4 CONFIDENTIALITY

All communication between incarcerated persons and their attorneys is confidential, including telephone conversations, written communication, and video conferencing. The content of written attorney-client communication will not be reviewed or censored, but the documents may be inspected for contraband.

Outgoing and incoming legal correspondence shall be routed through the staff, who have received special training in inspecting confidential documents and who are accountable for maintaining

Access to Courts and Counsel

confidentiality. Incoming legal correspondence shall be opened and inspected for contraband in the presence of the recipient incarcerated person.

Incarcerated persons may seek the assistance of other incarcerated persons in writing writs and other legal correspondence to the courts, when needed subject to the security and safety needs of the incarcerated persons, staff, and the facility.

603.5 REQUEST FOR ASSISTANCE

Written materials addressing how an incarcerated person can access local attorneys and key legal documents shall be available in each housing unit. Staff shall provide these materials to any incarcerated person upon request. However, staff shall not provide legal advice or assist any person in the completion of any legal document.

Habeas corpus forms shall be made available to any incarcerated person by the staff upon request.

Legal forms filled out by the incarcerated person shall be forwarded to court administration directly or via an appointed legal assistant.

603.6 VISITATION RELATED TO LEGAL DEFENSE

Visits with incarcerated persons that are related to legal defense, including attorneys, paralegals, and investigators, will be permitted only in the areas designated for legal visitation or by way of video visitation to ensure confidentiality (15 CCR 1068(b)). Contact visits may be approved by the Facility Manager for special circumstances.

- (a) Visits shall be of a reasonable length of time to discourage any allegation that the defense of the incarcerated person was hindered due to the length of time allowed for the legally authorized visit. These visits shall be of such a length of time that they do not interfere with the security, order, and discipline of this facility. The permissible time for visitation should be flexible but shall not substantially interfere with other facility schedules, such as medical examinations, meal service, or other required activities.
- (b) Only materials brought to this facility by an approved legal assistant shall be allowed.
- (c) All materials shall be subject to security inspections by the staff and shall be routed through the Sergeant for logging and distribution.
- (d) When an incarcerated person is placed in a room with an attorney that has an intercom, correctional officers are prohibited from listening to their conversations through the intercom to protect the confidentiality of attorney-client communications. This prohibition safeguards the incarcerated person's right to effective legal representation and prevents any interference with their ability to receive fair legal counsel.

603.7 MAIL

Legal mail shall be handled in accordance with the Mail Policy.

603.8 IN PROPRIA PERSONA (PRO PER) INCARCERATED PERSONS

Incarcerated persons may be granted pro per status by court order only. Any time a court order is received designating an incarcerated person as having been granted pro per status, all relevant

records systems at the facility shall be updated to reflect this information. A copy of the court order shall be maintained in the person's file in accordance with established records retention schedules.

The court may, but is not required to, appoint to an incarcerated person who is designated pro per a back-up attorney, paralegal, or other person to assist the person with legal research. All information related to appointed assistants should be recorded in the relevant facility records.

Any provision of legal materials shall be in accordance with court directives and in consultation with the County Counsel.

603.8.1 PRO PER STATUS MISUSE

Any incarcerated person who is granted pro per status and is found to be misusing or abusing that status to the extent that it poses a demonstrable threat to the safety and security of the facility shall be immediately reported to the Facility Manager. The Facility Manager may recommend the suspension or a limitation of the person's pro per privileges if they adversely affect the safety and security of the correctional facility.

Upon the concurrence with the findings and recommendation of the Facility Manager, the Sheriff or the authorized designee shall consult with the Office's legal counsel prior to notifying the court of any intent to limit the described pro per privileges.

The incarcerated person may petition the court if they are dissatisfied with the action taken.

603.8.2 PRO PER STATUS - MATERIALS AND SUPPLIES

The facility may provide the following materials and supplies to a pro per incarcerated persons. These items may be retained by the person but must be kept in the container supplied for such purpose. The items may include:

- Up to one-half of a ream of 8½-inch x 11-inch plain bond typing paper
- Up to three ruled legal notepads
- Standard legal-size envelopes
- One dozen (maximum) black lead golf pencils
- Two erasers
- One legal size accordion file
- 9-inch x 12-inch manila envelopes and 10-inch x 14-inch manila envelopes
- Up to a maximum of four law books at one time (paperback or hardback)

Unless otherwise ordered by the court, the Office shall have no obligation to supply materials beyond those listed above. Replacement of any of the listed items shall be accomplished through a written request to the Sergeant or the authorized designee. Supplies provided by a court legal liaison will be received and distributed by the Sergeant or the authorized designee. All supplies distributed to the incarcerated person will be recorded in the person's pro per activities record.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Access to Courts and Counsel

Supplies not listed in this policy are subject to approval by the Facility Manager or the authorized designee.

Access to ballpoint pens, for signature purposes only, will be provided through a supervisor. The use of the pen will be supervised by the staff and taken from the incarcerated person immediately after its use.

Copies of an incarcerated person's final legal (criminal case) work product, upon the person's request, may be provided subject to arrangements with the court.

Incarcerated persons may purchase their own legal books and materials. However, such materials will be subject to safety inspection and rules pertaining to items permitted to be in the person's possession. Personal books must be marked with the person's name and booking number.

Any books or materials found in the incarcerated person's possession beyond what is authorized will be returned or placed in the person's property.

603.8.3 PRO PER INCARCERATED PERSONS INTERVIEWING WITNESSES

A pro per incarcerated person may be permitted to interview prospective witnesses in the regular visitation area. Requests for visits outside of normal visiting hours will be directed to a supervisor for approval and should be accommodated when practicable.

Interviews conducted by pro per incarcerated persons are subject to the following rules and restrictions:

- (a) No interview will be permitted without notification from a judge confirming or validating the prospective witness. The pro per incarcerated person is responsible for providing the judge with the list of prospective witnesses for validation.
- (b) No visit shall be permitted by a prospective witness who is in the custody of this office or otherwise detained by a government agency, except upon a specific court order.

603.8.4 PRO PER INCARCERATED PERSONS TELEPHONE USAGE

Pro per incarcerated person may use the telephones in their housing areas to place calls concerning their cases. Court-authorized pro per telephone calls shall not be monitored and shall be provided without charge to the person in accordance with the orders of the court (see the Telephone Access Policy).

Foreign Nationals and Diplomats

604.1 PURPOSE AND SCOPE

This policy addresses the privileges and immunities afforded to members of foreign diplomatic missions and consular posts.

This policy also addresses the legal requirements related to consular notifications that should occur when a foreign national is in custody.

Inmate access to a consular officer is addressed in the Telephone Access and Visitation policies.

604.2 POLICY

The Santa Cruz County Sheriff's Office Correctional Facility will treat foreign diplomatic and consular personnel with due regard for the privileges and immunities to which they are entitled under international law. The Office will investigate all claims of immunity and accept custody of the person when appropriate.

The Santa Cruz County Sheriff's Office Correctional Facility will also honor the laws related to foreign nationals in custody by making proper consular notifications and by assisting those who wish to contact their consular representative.

604.3 DIPLOMATIC AND CONSULAR IMMUNITY

604.3.1 AVAILABILITY OF RESOURCES

The Sergeant will ensure that current contact information for the U.S. Department of State and the U.S. Mission to the United Nations is readily available for office members who need to verify a claim of diplomatic or consular immunity. Relevant material for law enforcement published by the U.S. Department of State Bureau of Diplomatic Security should be readily available as well.

604.3.2 ADDRESSING CLAIMS OF DIPLOMATIC OR CONSULAR IMMUNITY

When an arrestee who claims diplomatic or consular immunity is brought to the Santa Cruz County Sheriff's Office Correctional Facility the receiving corrections officer shall first inform the Sergeant and then generally proceed as follows:

- (a) Do not accept custody of the person from the transporting officer. The person should not be brought inside the Santa Cruz County Sheriff's Office Correctional Facility unless doing so would facilitate the investigation of their claim of immunity.
- (b) Do not handcuff the person or, if handcuffs have been applied, remove them unless there is an articulable threat that would justify their use.
- (c) If the person has already been accepted into custody, inform the person that they will be detained until their identity and immunity can be confirmed. Attempt to obtain a U.S. Department of State-issued identification card or other identification or documents that may relate to the claimed immunity.
- (d) In all cases, verify the status and level of immunity by contacting the U.S. Department of State or the U.S. Mission to the United Nations, as appropriate.

Santa Cruz County Sheriff's Office

Santa Cruz County Sheriff's Office Correction's Policy Manual

Foreign Nationals and Diplomats

It will be the responsibility of the Sergeant to communicate the claim of immunity to the on-duty supervisor of the arresting agency (if not the Santa Cruz County Sheriff's Office). The Sergeant may assist another agency in determining the person's immunity status.

The Sergeant is responsible for ensuring appropriate action is taken based upon information received regarding the person's immunity status.

604.3.3 REPORTING

If the person's immunity status has been verified, the Sergeant should ensure a report is prepared describing the details and circumstances of any detention or custody. A copy of the report should be faxed or mailed as soon as possible to the U.S. Department of State in Washington, D.C., or to the U.S. Mission to the United Nations in New York in cases involving a member of the United Nations community.

604.4 CONSULAR NOTIFICATIONS

604.4.1 CONSULAR NOTIFICATION LIST AND CONTACTS

The Facility Manager will ensure that the U.S. Department of State's list of countries and jurisdictions that require mandatory notification is readily available to office members. There should also be a published list of foreign embassy and consulate telephone and fax numbers, as well as standardized notification forms that can be faxed and then retained for the record. Prominently displayed placards informing incarcerated persons of rights related to consular notification should also be posted.

604.4.2 CONSULAR NOTIFICATION ON BOOKING

Office members assigned to book incarcerated persons shall:

- (a) Inform the foreign national, without delay, that the foreign national may have their consular officers notified of the arrest or detention and may communicate with them. Members shall ensure this notification is acknowledged and documented.
- (b) Determine whether the foreign national's country is on the U.S. Department of State's mandatory notification list.
- (c) If the foreign national's country is not on the list for mandatory notification but the foreign national requests that their consular officers be notified, then:

606.4 REPORTING SEXUAL ABUSE, HARASSMENT, AND RETALIATION

Any employee, agency representative, volunteer, or contractor who becomes aware of an incident of sexual abuse, sexual harassment, or retaliation against incarcerated persons or staff shall immediately notify a supervisor, who will forward the matter to a sexual abuse investigator (28 CFR 115.61). Staff may also privately report sexual abuse and sexual harassment of incarcerated persons (e.g., report to the Facility Manager) (28 CFR 115.51; 15 CCR 1029).

The facility shall provide information to all visitors or third parties on how they may report any incident, or suspected incident of sexual abuse, or sexual harassment to a staff member (28 CFR 115.54; 15 CCR 1029).

Incarcerated persons may report sexual abuse or sexual harassment incidents anonymously or to any staff member they choose. Staff shall accommodate all incarcerated person requests to report allegations of sexual abuse or harassment. Staff shall accept reports made verbally, in writing, anonymously, or from third parties and shall promptly document all verbal reports (28 CFR 115.51; 15 CCR 1029).

Threats or allegations of sexual abuse and sexual harassment, or retaliation, regardless of the source, shall be documented and referred for investigation. Sexual abuse and sexual harassment reports shall only be made available to those who have a legitimate need to know, and in accordance with this policy and applicable law (28 CFR 115.61).

606.4.1 REPORTING TO OTHER FACILITIES

If there is an allegation that an incarcerated person was sexually abused while the person was confined at another facility, the Facility Manager or the authorized designee shall notify the head of that facility as soon as possible but not later than 72 hours after receiving the allegation. The Facility Manager or the authorized designee shall ensure that the notification has been documented (28 CFR 115.63).

606.5 RETALIATION

All incarcerated persons and staff who report sexual abuse or sexual harassment, or who cooperate with sexual abuse or sexual harassment investigations, shall be protected from retaliation.

Protective measures, including housing changes, transfers, removal of alleged abusers from contact with victims, administrative reassignment, or reassignment of the victim or alleged perpetrator to another housing area, and support services for incarcerated persons or staff who fear retaliation, shall be utilized (28 CFR 115.67; 15 CCR 1029).

The Facility Manager or the authorized designee shall assign a supervisor to monitor, for at least 90 days, the conduct and treatment of incarcerated persons or staff who report sexual abuse or sexual harassment, as well as persons who were reported to have suffered sexual abuse, to determine if there is any possible retaliation. The supervisor shall act promptly to remedy any such retaliation. The assigned supervisor should consider incarcerated person disciplinary reports, housing or program changes, negative staff performance reviews, or reassignment of staff

members. Monitoring may continue beyond 90 days if needed. Incarcerated person monitoring shall also include periodic status checks. The Facility Manager or the authorized designee should take reasonable steps to limit the number of people with access to the names of individuals being monitored and should make reasonable efforts to ensure that staff members who pose a threat of retaliation are not entrusted with monitoring responsibilities.

If any other individual who cooperates with an investigation expresses a fear of retaliation, the facility shall take reasonable measures to protect that individual against retaliation (28 CFR 115.67).

The Office's obligation to monitor shall terminate if the Office determines that the allegation is unfounded (28 CFR 115.67(f)).

606.5.1 REPORTS BY INCARCERATED PERSONS

Incarcerated persons may report sexual assault or abuse incidents anonymously or to any staff member they choose and shall not be required to use their normal point of contact. Staff shall accommodate all incarcerated person requests to report allegations of sexual abuse and assaults.

Retaliation against an incarcerated person by any staff member for filing a sexual abuse, assault or harassment incident will not be tolerated.

606.6 FIRST RESPONDERS

Staff learning of a PREA sexual abuse or sexual harassment incident will be considered the first responder (28 CFR 115.64). The first corrections officer to respond shall be responsible for ensuring the immediate safety and security of the victim, preserving any potential evidence, and securing medical and mental health services as appropriate. The first responder shall take all necessary actions in accordance with the facility's PREA Response Plan to protect the victim and support the investigative process.

The supervisor shall ensure that the PREA Response Plan is followed in its entirety and that all required notifications—internal and external—are made promptly and accurately, in accordance with applicable policy and PREA response plan.

Staff should consider the following steps as priority

- (a) Separate the parties.
- (b) Request medical assistance as appropriate. If no qualified health care or mental health professionals are on-duty when a report of recent abuse is made, staff first responders shall take preliminary steps to protect the victim and shall immediately notify the appropriate qualified health care and mental health professionals (28 CFR 115.82).
- (c) Establish a crime scene to preserve and protect any evidence. Identify and secure witnesses until steps can be taken to collect any evidence.
- (d) If the time period allows for collection of physical evidence, request that the alleged victim, and ensure that the alleged abuser, do not take any actions that could destroy physical evidence (e.g., washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, eating).

Santa Cruz County Sheriff's Office

Prison Rape Elimination Act

- (e) Consider whether a change in classification or housing assignment for the victim is needed or whether witnesses to the incident need protection, both of which may include reassignment of housing.
- (f) Determine whether the alleged perpetrator should be administratively separated or administratively transferred during the investigation.

If the first responder is not a corrections officer, the responder shall request the alleged victim to refrain from any actions that could destroy physical evidence and then immediately notify a corrections officer.

Should an investigation involve incarcerated persons who have disabilities or who have limited English proficiency, the first responder shall not rely on incarcerated person interpreters, incarcerated person readers, or other types of incarcerated person assistants, except in limited circumstances where an extended delay in obtaining an interpreter could compromise incarcerated person safety, the performance of first responder duties, or the investigation of sexual abuse or sexual harassment allegations (28 CFR 115.16).

606.7 SEXUAL ABUSE AND SEXUAL HARASSMENT INVESTIGATIONS

An administrative investigation, criminal investigation or both shall be completed for all allegations of sexual abuse and sexual harassment (28 CFR 115.22). Administrative investigations shall include an effort to determine whether the staff's actions or inaction contributed to the abuse. All administrative and/or criminal investigations shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. Only qualified and trained investigators shall be assigned to investigate these cases (28 CFR 115.71).

When practicable, an investigator of the same gender as the victim should be assigned to the case. Sexual abuse and sexual harassment investigations should be conducted promptly and continuously until completed. Investigators should evaluate reports or threats of sexual abuse and sexual harassment without regard to an incarcerated person's sexual orientation, physical gender, or gender identity. Investigators should not assume that any sexual activity among incarcerated persons is consensual.

The departure of the alleged abuser or victim from the employment or control of the correctional facility or Office shall not provide a basis for terminating an investigation (28 CFR 115.71).

If the investigation is referred to another agency for investigation, the Office shall request that the investigating agency follow the requirements as provided in 28 CFR 115.21 (a) through (e). The referral shall be documented. The Office shall cooperate with the outside agency investigation and shall request to be informed about the progress of the investigation (28 CFR 115.71) If criminal acts are identified as a result of the investigation, the case shall be presented to the appropriate prosecutor's office for filing of new charges (28 CFR 115.71).

Evidence collection shall be based on a uniform evidence protocol that is adapted from or otherwise based on the most recent edition of the DOJ's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/

Santa Cruz County Sheriff's Office

Adolescents," or similarly comprehensive and authoritative protocols developed after 2011 (28 CFR 115.21).

Incarcerated persons alleging sexual abuse shall not be required to submit to a polygraph examination or other truth-telling device as a condition for proceeding with an investigation (28 CFR 115.71).

If a victim considered a vulnerable adult under state law, the assigned investigator shall report the allegation to the designated social services agency as required (28 CFR 115.61).

606.7.1 INVESTIGATIVE FINDINGS

All completed written investigations shall be forwarded to the Facility Manager or the authorized designee. If the allegations may reasonably involve the Facility Manager, the written investigation shall be forwarded to the Undersheriff or Sheriff. The Facility Manager or the authorized designee shall review the investigation and determine whether any allegations of sexual abuse or sexual harassment have been substantiated by a preponderance of the evidence (28 CFR 115.71; 28 CFR 115.72).

The staff shall be subject to disciplinary actions, up to and including termination, for violating this policy. Termination shall be the presumptive disciplinary action for staff members who have engaged in sexual abuse. All discipline shall be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the actions imposed for comparable offenses by other staff with similar histories.

All terminations for violations of sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, shall be reported to the law enforcement agency that would handle any related investigation and to any relevant licensing bodies (28 CFR 115.76).

606.7.2 REPORTING TO INCARCERATED PERSONS

The PREA Investigator shall inform a victim incarcerated person in writing whether an allegation has been substantiated, unsubstantiated, or unfounded. If the Office did not conduct the investigation, the Office shall request relevant information from the investigative agency in order to inform the incarcerated person.

If a staff member is the accused (unless the Office has determined that the allegation is unfounded), the incarcerated person shall also be informed whenever:

- (a) The staff member is no longer assigned to the incarcerated person's unit or employed at the facility.
- (b) The Office learns that the staff member has been indicted or convicted on a charge related to sexual abuse within the facility.

If another incarcerated person is the accused, the alleged victim shall be notified whenever the Office learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility.

All notifications or attempted notifications shall be documented.

606.7.3 INVESTIGATION APPEAL PROCESS

If an incarcerated person does not agree with the investigative findings supplied by the PREA Investigator, they may file an appeal either in writing or through the electronic grievance system.

If an appeal is filed, the appeal shall be forwarded to the Operations Investigations Lieutenant or their authorized designee for review.

The review will determine if the investigation was thorough and complete and the finding was appropriate based on the information available at that time. The person handling the appeal may determine additional follow up is recommended. If additional follow up is recommended, the PREA investigator will be asked to conduct the additional follow up. The person handling the appeal shall notify the incarcerated person of the outcome of the appeal in writing within 30 days.

606.8 SEXUAL ABUSE AND SEXUAL HARASSMENT BETWEEN STAFF AND INCARCERATED PERSONS

Sexual abuse and sexual harassment between staff, volunteers or contract personnel and incarcerated persons is strictly prohibited. The fact that an incarcerated person may have initiated a relationship or sexual contact is not recognized as a defense to violating this policy.

Any incident involving allegations of staff-on-incarcerated person sexual abuse or sexual harassment that cannot be unfounded during the initial report shall be referred to the Professional Standards Unit or Detective Bureau for investigation.

606.8.1 SEXUAL ABUSE BY CONTRACTOR OR VOLUNTEER

Any contractor or volunteer who engages in sexual abuse within the facility shall be immediately prohibited from having any contact with incarcerated persons. The contractor or volunteer shall be promptly reported to the law enforcement agency that would investigate such allegations and brought to the attention of any relevant licensing bodies (28 CFR 115.77).

606.9 SEXUAL ABUSE VICTIMS

Incarcerated persons who are victims of sexual abuse shall be transported to the nearest appropriate location for treatment of injuries and collection of evidence, and for crisis intervention services (28 CFR 115.82). Depending on the severity of the injuries, transportation may occur by a staff member or by ambulance, in either case with appropriate security to protect the staff, the incarcerated person, and the public, and to prevent escape.

A victim advocate from a rape crisis center should be made available to the victim. If a rape crisis center is not available, the Office shall make available a qualified member of a community-based organization, or a qualified health care or mental health professional from the Office, to provide victim advocate services. Efforts to secure services from a rape crisis center shall be documented. A rape crisis center refers to an entity that provides intervention and related assistance, such as the services specified in (34 USC § 12511), to sexual assault victims of all ages. A rape crisis center that is part of a government unit may be used if it is not part of the criminal justice system

(such as a law enforcement agency) and it offers a level of confidentiality comparable to the level at a nongovernmental entity that provides similar victim services (28 CFR 115.21).

606.10 EXAMINATION, TESTING, AND TREATMENT

Examination, testing, and treatment shall include the following (15 CCR 1206):

- (a) Forensic medical examinations shall be performed as evidentiary or medically appropriate, without financial cost to the victim. Where possible, these examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANE)s. If neither SAFEs nor SANEs are available, other qualified medical practitioners can perform the examination. The Office shall document its efforts to provide SAFEs or SANEs (28 CFR 115.21).
- (b) If requested by the victim, a victim advocate, a qualified office staff member, or a qualified community organization staff member shall accompany the victim through the forensic medical examination process and investigatory interviews. That person will provide emotional support, crisis intervention, information, and referrals (28 CFR 115.21).
- (c) Provisions shall be made for testing the victim for sexually transmitted diseases (28 CFR 115.82).
- (d) Counseling for the treatment of sexually transmitted diseases, if appropriate, shall be provided.
- (e) Victims shall be offered information about, and given access to, emergency contraception, prophylaxis for sexually transmitted infections, and follow-up treatment for sexually transmitted diseases (28 CFR 115.82; 28 CFR 115.83). This shall be done in a timely manner.
- (f) Victims of sexually abusive vaginal penetration while incarcerated shall be offered pregnancy tests. If pregnancy results from the abuse, such victims shall receive comprehensive information about, and access to, all lawful pregnancy-related medical services (28 CFR 115.83). This shall be done in a timely manner.
- (g) Victims shall be provided with follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody (28 CFR 115.83).
- (h) Treatment services shall be provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident (28 CFR 115.82; 28 CFR 115.83).
- (i) The health authority or mental health staff shall obtain informed consent from incarcerated persons before reporting information to correctional facility staff about prior sexual victimization that occurred somewhere other than an institutional setting unless the incarcerated person is under the age of 18 (28 CFR 115.81).
- (j) Medical and mental health practitioners shall ensure that information related to sexual victimization that occurred in an institutional setting is limited to medical and mental health practitioners and other staff unless it is necessary to inform correctional facility staff about security or management decisions (28 CFR 115.81).

606.11 ADMINISTRATIVE SEPARATION

Incarcerated persons at high risk for sexual victimization shall not be placed in involuntary administrative separation unless an assessment of available alternatives has been made and it has been determined that there is no reasonably available alternative means of separation. Incarcerated persons may be held in involuntary administrative separation for less than 24 hours while an assessment is completed.

If an involuntary administrative separation assignment is made because of a high risk for victimization, the Facility Manager or authorized designee shall clearly document the basis for the concern for the incarcerated person's safety and the reasons no alternative means of separation can be arranged (28 CFR 115.43).

The facility shall assign these persons to involuntary administrative separation only until an alternative means of separation from likely abusers can be arranged, not ordinarily in excess of 30 days.

Incarcerated persons at high risk for sexual victimization placed in temporary administrative separation shall continue to have reasonable access to programs, privileges, education, and work opportunities. If restrictions are put in place, the Facility Manager shall document the following:

- (a) The opportunities that have been limited
- (b) The duration of the limitation
- (c) The reasons for such limitations

At minimum every 30 days, the Facility Manager shall afford each such incarcerated person a review to determine whether there is a continuing need for administrative separation (28 CFR 115.43).

606.12 SEXUAL ABUSE INCIDENT REVIEW

An incident review shall be conducted at the conclusion of every sexual abuse investigation unless the allegation has been determined to be unfounded (28 CFR 115.86). The review should occur within 30 days of the conclusion of the investigation.

The review team shall include upper-level management officials and seek input from line supervisors, investigators, and qualified health care and/or mental health professionals, as appropriate. The review will:

- (a) Consider whether the investigation indicates a need to change policy or practice in order to better prevent, detect, or respond to sexual abuse.
- (b) Consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification status or perceived status; gang affiliation; or other group dynamics at the facility.
- (c) Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers may enable abuse.
- (d) Assess the adequacy of staffing levels in the area during different shifts.

- (e) Assess whether monitoring technology should be deployed or augmented to supplement supervision by staff.
- (f) Prepare a written report of the team's findings, including but not limited to determinations made pursuant to paragraphs (a)-(e) of this section, and any recommendations for improvement. The report should be submitted to the Facility Manager and the PREA coordinator.

The Facility Manager or the authorized designee shall implement the recommendations for improvement or document the reasons for not doing so.

606.13 DATA REVIEWS

This office shall conduct an annual review of collected and aggregated incident-based sexual abuse data. The purpose of these reviews is to assess and improve the effectiveness of sexual abuse prevention, detection, and response policies, practices, and training by:

Cleaning shall not be done in the kitchen, bathrooms, or other locations not designated as a cleaning or decontamination area.

706.3.5 DECONTAMINATION OF VEHICLES

Contaminated vehicles and components such as the seats, radios and doors, shall be washed with soap and warm water and disinfected with an approved germicide as soon as reasonably feasible.

706.3.6 DECONTAMINATION OF THE CLEANING AREA

The ECO shall designate a location in the facility that will serve as the area for cleaning/decontamination. This area is to be used to keep equipment clean and sanitary and for employees to wash any potential contamination from their bodies. This area is to be thoroughly cleaned after each use and to be maintained in a clean and sanitary order at all times between each use. The application of cosmetics, smoking of cigarettes and consumption of food and drink are prohibited in this area at all times.

706.4 SHARPS AND ITEMS THAT CUT OR PUNCTURE

All personnel shall avoid using or holding sharps (needles) unless they are assisting medical personnel or collecting them for evidence. Unless required for reasons related to evidence preservation, employees are not to recap sharps. If recapping is necessary, a one-handed method shall be employed to avoid a finger prick. Disposal, when possible, shall be into a puncture-proof biohazard container.

All sharps and items that cut or puncture (e.g., broken glass, razors and knives) shall be treated cautiously to avoid cutting, stabbing or puncturing one's self or any other person. In addition, if a sharp object contains known or suspected blood or other body fluids, that item is to be treated

Communicable Diseases

as a contaminated item. If the item is not evidence, touching it with the hands shall be avoided. Rather, use a device such as tongs or a broom and a dustpan to clean up debris. If the material must be touched, protective gloves shall be worn.

706.5 POST-EXPOSURE REPORTING AND FOLLOW-UP REQUIREMENTS

In actual or suspected employee exposure incidents, proper documentation and follow-up action must occur to limit potential liabilities and to ensure the best protection and care for the employees.

706.5.1 EMPLOYEE RESPONSIBILITY TO REPORT EXPOSURE

To provide appropriate and timely treatment should exposure occur, all employees shall verbally report the exposure to their immediate supervisor and complete a written exposure report as soon as possible following the exposure or suspected exposure. That report shall be submitted to the employee's immediate supervisor. Employees should document in the exposure report whether they would like the person who was the source of the exposure to be tested for communicable diseases (15 CCR 1206.5(b)(8)).

706.5.2 SUPERVISOR REPORTING REQUIREMENTS

The supervisor on-duty shall investigate every exposure that occurs as soon as possible following the incident, while gathering the following information:

- (a) Name and employee identification number of the employee exposed
- (b) Date and time of incident
- (c) Location of incident
- (d) What potentially infectious materials were involved
- (e) Source of material or person
- (f) Current location of material or person
- (g) Work being done during exposure
- (h) How the incident occurred or was caused
- (i) PPE in use at the time of the incident
- (j) Actions taken post-event (e.g., clean-up, notifications)

The supervisor shall advise the employee of the laws and regulations concerning disclosure of the identity and infectious status of a source, and of information contained in this policy regarding source testing.

If the ECO is unavailable to seek testing of the person who was the source of the exposure, it is the responsibility of the exposed employee's supervisor to ensure testing is sought according to the guidelines in this policy.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Communicable Diseases

706.5.3 MEDICAL CONSULTATION, EVALUATION, AND TREATMENT

Any employee who was exposed or who suspects the employee was exposed to HIV or to hepatitis B or C should be seen by a physician or qualified health care professional as soon as reasonably possible.

The doctor or qualified health care professional should be given the supervisor's report and the employee's medical records relevant to the visit and examination. The blood of the exposed employee shall be tested.

The qualified health care professional will provide the ECO and/or the Office's risk manager with a written opinion/evaluation of the exposed employee's medical condition. This opinion should only contain the following information:

- If a post-exposure treatment is indicated for the employee.
- If the employee received a post-exposure treatment.
- Confirmation that the employee received the evaluation results.
- Confirmation that the employee was informed of any medical condition that could result from the exposure incident and whether further treatment or evaluation will be required.
- Whether communicable disease testing from the source is warranted, and if so, which diseases the testing should include.

All other findings or diagnosis shall remain confidential and are not to be included in the written report.

706.5.4 COUNSELING

The Office shall provide the exposed employee (and the employee's family if necessary) the opportunity for counseling and consultation.

706.5.5 CONFIDENTIALITY OF REPORTS

Most of the information involved in this process must remain confidential. The ECO shall ensure that all records and reports are kept in the strictest confidence. The ECO shall be responsible for maintaining records containing the employee's treatment status and the results of examinations, medical testing and follow-up procedures.

The Office's risk manager shall be responsible for keeping the name and Social Security number of the employee and copies of any information provided to the consulting health care professional on file.

This information is confidential and shall not be disclosed to anyone without the employee's written consent (except as required by law). Test results from persons who may have been the source of an exposure are to be kept confidential as well (15 CCR 1206.5(b)(5)).

Santa Cruz County Sheriff's Office

Communicable Diseases

706.5.6 SOURCE TESTING

Testing of a person who was the source of an exposure to a communicable disease should be sought when it is desired by the exposed employee or when it is otherwise appropriate.

There are five methods to obtain such testing. It is the responsibility of the ECO to ensure the proper testing and reporting occurs. These methods are:

- (a) Obtaining voluntary consent from any person who may be the source of an exposure to test for any communicable disease.
- (b) Filing a report with the county health officer when an employee is exposed to the bodily fluids of an arrestee. The county health officer may pursue testing for HIV or hepatitis B or C.
- (c) Seeking consent for testing or applying for a court order for HIV, hepatitis B, and hepatitis C testing.
- (d) Seeking a court order when the person who may be the source of an exposure will not consent to testing and the exposure does not fall under a statutory scheme for testing. This covers testing for any communicable disease as deemed appropriate by a qualified health care professional and documented in the request for the court order.
- (e) Under certain circumstances, a court may issue a search warrant for testing an adult when an employee of the Santa Cruz County Sheriff's Office qualifies as a crime victim.

706.5.7 EXPOSURE FROM A NON-INCARCERATED PERSON

Upon notification of an employee's exposure to a non-incarcerated person (e.g., visitor, attorney, volunteer, vendor) the ECO should attempt to determine if the person who was the source of the exposure will voluntarily consent to testing. If consent is provided, the following steps should be taken:

- (a) A qualified health care professional should notify the person to be tested of the exposure and make a good faith effort to obtain voluntary informed consent from the person or the person's authorized legal representative to perform a test for HIV, hepatitis B, hepatitis C, and other communicable diseases the qualified health care professional deems appropriate.
- (b) The voluntary informed consent obtained by the qualified health care professional must be in writing and include consent for three specimens of blood. The ECO should document the consent as a supplement to the Exposure Control Report.
- (c) The results of the tests should be made available to the source and the exposed employee.

If consent is not obtained, the ECO should promptly consult with the County Counsel and consider requesting that a court order be sought for appropriate testing.

706.5.8 EXPOSURE FROM AN INCARCERATED PERSON

If the ECO receives notification from an employee of a potential exposure from an incarcerated person, the ECO should take the following steps:

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Communicable Diseases

- (a) Seek consent from the person who was the source of the exposure and seek a court order, if consent is refused.
- (b) Take reasonable steps to immediately contact the county health officer and provide preliminary information regarding the circumstances of the exposure and the status of the involved individuals to determine whether the county health officer will order testing.
- (c) Remain in contact with the county health officer to determine whether testing of the incarcerated person will occur and whether the testing satisfies the medical needs of the employee.
- (d) The results of the tests should be made available to the incarcerated person and the exposed employee.

Since there is potential for overlap between the two statutory schemes, the ECO is responsible for coordinating the testing with the county health officer to prevent unnecessary or duplicate testing.

If the exposed employee is not covered by either statutory scheme, the ECO should seek consent or a court order in the same manner as for a non-incarcerated person.

Aids to Impairment

707.1 PURPOSE AND SCOPE

This policy acknowledges the high priority of incarcerated person health and recognizes that some incarcerated persons will require adaptive devices to assist them with daily living activities on a temporary or permanent basis.

The Santa Cruz County Sheriff's Office has established this policy for physicians and dentists to review and evaluate the need for adaptive devices, while considering facility security concerns regarding the use of such items.

When a physician or dentist determines that the medical condition of an incarcerated person indicates that an adaptive device is clinically appropriate, the parameters of this policy will determine if authorization for the use of such items during incarceration should be granted, and if any equipment modifications are indicated for safety or security purposes.

707.1.1 DEFINITIONS

Definitions related to this policy include:

Adaptive device - Any orthotic, prosthetic, or aid to impairment that is designed to assist an incarcerated person with the activities of daily living or that is clinically appropriate for health, as determined by the Responsible Physician or dentist.

Aids to impairment - Includes but is not limited to eyeglasses, hearing aids, pacemakers, canes, crutches, walkers, and wheelchairs.

Orthoses - Specialized mechanical devices such as braces, shoe inserts, or hand splints that are used to support or supplement weakened or abnormal joints, limbs, and/or soft tissue.

Prostheses - Artificial devices designed and used to replace missing body parts, such as limbs, teeth, or eyes.

707.2 POLICY

It is the policy of the Office that, in accordance with security and safety concerns, medical and dental orthoses or prostheses and other adaptive devices should be permitted or supplied in a timely manner when the health of the incarcerated person would otherwise be adversely affected or when such devices are necessary to reasonably accommodate a disability recognized under the American with Disabilities Act (ADA) (42 USC § 12101 et seq.), as determined by the Responsible Physician or dentist (15 CCR 1206(d); 15 CCR 1207).

707.3 MEDICAL OR DENTAL ORTHOSES, PROSTHESES, OR ADAPTIVE DEVICES

The following applies to incarcerated persons with any orthopedic or prosthetic devices (Penal Code § 2656):

- (a) An incarcerated person shall not be deprived of the possession or use of any orthopedic, orthodontic, or prosthetic device that has been prescribed or recommended and fitted by a physician or dentist (see the following exception).

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Aids to Impairment

- (b) Any such device that may constitute an immediate risk of bodily harm to any person in the facility or that threatens the security of the facility should be brought to the attention of the Facility Manager. If the Facility Manager has probable cause to believe such a device constitutes an immediate risk of bodily harm to any person in the facility or threatens the security of the facility, the Facility Manager may remove the device and place it in the person's property.
- (c) The Facility Manager shall return the device to the incarcerated person if circumstances change and the cause for removal no longer exists.
- (d) The Facility Manager shall have the incarcerated person examined by a physician within 24 hours after a device is removed.
- (e) The Facility Manager should review the facts with the ADA Coordinator and shall address the issue in conjunction with the Incarcerated Persons with Disabilities Policy.
- (f) The physician shall inform the incarcerated person and the Facility Manager if the removal is or will be injurious to the health or safety of the person. When the Facility Manager is so informed but still does not return the device, the Facility Manager shall inform the physician and the person of the reasons and promptly provide the person with a form, as specified in Penal Code § 2656, by which the person may petition the Superior Court for return of the appliance. The Facility Manager shall promptly file the form with the Superior Court after it is signed by the incarcerated person. The Facility Manager should consider the following alternatives to removal of the device:
 - 1. Reclassifying the incarcerated person to another housing unit or administratively separating the person from the general population.
 - 2. With physician or dentist approval, modify the adaptive device to meet the medical needs of the incarcerated person and the safety and security needs of the facility.

Once an adaptive device has been approved for use, the qualified health care professional shall enter the authorization into the incarcerated person's health file. If the person requires special housing, the qualified health care professional shall document this in writing and notify custody or classification personnel appropriately. The qualified health care professional shall document the general condition of the prosthesis and have the person sign in the medical record that they received the prosthesis.

Any prostheses that are brought to the facility by family members or others after the person has been incarcerated shall be subject to a security check. The facility shall accept no responsibility for loss or damage to any adaptive device.

707.4 REQUESTS FOR MEDICAL AND DENTAL PROSTHESES

All requests for new or replacement medical or dental prostheses shall be individually evaluated by the Responsible Physician or dentist and reviewed for approval by the Facility Manager. Considerations for approval shall be based upon:

- Medical needs of the incarcerated person.
- The anticipated length of incarceration.

Suicide Prevention and Intervention

708.1 PURPOSE AND SCOPE

This policy establishes the suicide prevention and intervention program to identify, monitor and, when necessary, provide for emergency response and treatment of incarcerated persons who present a suicide risk while incarcerated at Santa Cruz County Sheriff's Office Correctional Facilities.

This policy is intended to reduce the risk of self-inflicted injury or death by providing tools to the staff that will allow a timely and organized emergency response to suicide, suicide attempts, or an inmate's unspoken indications that suicide is being considered. The three key components of this plan are evaluation, training, and screening with intervention.

708.2 POLICY

It is the policy of this office to minimize the incidence of suicide by establishing and maintaining a comprehensive suicide prevention and intervention program designed to identify incarcerated persons who are at risk of suicide and to intervene appropriately whenever possible. The program shall be developed by the Facility Manager or the authorized designee, the Medical Health Services Administrator, and Mental Health Coordinator. This policy shall be reviewed annually by the Facility Manager. A copy of this policy shall be maintained in each unit of the facility where it can be easily accessed by all staff members (15 CCR 1029(a)(8); 15 CCR 1030).

708.3 SUICIDE PREVENTION TEAM

The Facility Manager in cooperation with the Medical Health Services Administrator shall establish a suicide prevention team. The team will evaluate and approve the suicide prevention and intervention program annually. The suicide prevention team will consist of qualified health care professionals and the Main Jail Lieutenant or their authorized designee. The yearly evaluation will include a review of all current policies to ensure they are relevant, realistic, and consistent with the mission of the program. The program and policies will be updated as needed (15 CCR 1030).

The suicide prevention team shall also ensure that the facility is evaluated annually to identify any physical plant characteristics or operational procedures that might be modified to reduce the risk of suicide. This should be accomplished by conducting a review of suicides and suicide attempts, physical inspection, review of various facility inspection reports, and by participating in team meetings. If physical modifications are recommended, the team shall ensure the Facility Manager is promptly notified.

It shall also be the responsibility of the suicide prevention team to coordinate with the Training Officer to ensure that suicide prevention training is provided in compliance with applicable statutes and standards.

Santa Cruz County Sheriff's Office Correction's Policy Manual

Suicide Prevention and Intervention

708.4 STAFF TRAINING

All facility staff members who are responsible for supervising incarcerated persons shall receive initial and annual training on suicide risk identification, prevention, and intervention, to include, at minimum (15 CCR 1030):

- The provisions of this policy.
- Identification of the warning signs and indicators of potential suicide, including training on suicide risk factors.
- Identification of the demographic and cultural parameters of suicidal behavior, including incidence and variations in precipitating factors.
- Responding to suicidal and depressed incarcerated persons.
- Communication between corrections staff, court staff, and health care personnel.
- Using referral procedures.
- Housing observation and suicide watch-level procedures.
- Follow-up monitoring of incarcerated persons who attempt suicide.
- Communication between members and arresting/transporting corrections officers.
- A plan for mental health consultation following return from court as needed.

Recommendations for modification to suicide training should be directed to the Facility Manager, who shall review the recommendations and approve, if appropriate.

708.5 SCREENING AND INTERVENTION

All incarcerated persons shall undergo medical and mental health screening during the intake process (15 CCR 1030). A portion of the intake medical screening is devoted to assessing incarcerated persons at risk for suicide. Upon an incarcerated person entering the facility, the person should be assessed by custody staff for the ability to answer medical and mental health screening questions.

Any incarcerated person who appears to be unable to answer the initial medical screening questions shall be examined by a qualified health care professional at a designated hospital and receive medical clearance before acceptance into the jail. Incarcerated persons who refuse to answer these questions shall be placed under observation until the screening can be completed, or until sufficient information is obtained to allow the staff to make appropriate decisions concerning housing and care.

Staff members shall promptly refer any incarcerated person who is at risk for suicide to classification, health services, and mental health services. The incarcerated person shall remain under direct and constant observation in a safe setting until designated staff makes appropriate health care and housing decisions (15 CCR 1030).

708.6 SUICIDE WATCH

708.6 SUICIDE WATCH

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Suicide Prevention and Intervention

This agency will utilize a step-down process for persons who are suicidal. Suicide Watch Level 1 and Level 2 distinguish between a safety cell placement (Level 1) versus an observation room for monitoring (Level 2).

Level 1:

Suicide Watch Level 1 is considered incarcerated persons who are acutely suicidal. Examples of these circumstances include, but are not limited to; suicide attempts, suicidal ideation with some overt act in furtherance of that ideation, and suicidal ideation with the articulation of a very specific and achievable plan.

Incarcerated persons should only be housed on suicide watch with the approval of a qualified healthcare professional and the Sergeant. If a qualified healthcare professional is not present in the correctional facility, the Sergeant may decide to place an incarcerated person on suicide watch but should notify a qualified healthcare professional as soon as practicable. Incarcerated persons placed on suicide watch shall be closely monitored and housed in a safety cell. A mental health assessment shall be conducted as soon as possible, but no more than 12 hours from an incarcerated person's placement. The mental health professional's recommendations shall be documented.

Qualified healthcare professionals are primarily responsible for the treatment of incarcerated persons on suicide watch. Corrections officers and medical staff are responsible for the physical safety of incarcerated persons. All staff members should coordinate their efforts to ensure that incarcerated persons do not have the means or the opportunity to injure themselves. The incarcerated person shall be assessed by a qualified medical professional within 12 hours of initial placement.

An observation log shall be maintained for each incarcerated person on suicide watch. A staff member shall be designated to make a direct visual observation of the incarcerated person twice every 30 minutes at random intervals. A qualified healthcare professional should assess the incarcerated person based upon their policy and minimum Title 15 standards (15 CCR 1055). The Sergeant should review the appropriateness for continued retention every 4 hours. The Supervising Correctional Officer shall inspect the logs for completeness every 2 hours and document this action on the safety cell log. Each staff member who is required to observe the incarcerated person shall make notations in the observation log documenting the time of observation and a brief description of the incarcerated person's behavior. Additionally, a mental health professional and the Watch Commander, or their designee, should see the incarcerated person twice in a 24-hour period.

The status of suicidal incarcerated persons should be readily identifiable in a manner discernible by staff. The incarcerated person shall be supplied with a security garment that is designed to promote incarcerated person's safety and not cause unnecessary humiliation and degradation. Use of the security garment shall be documented in the incarcerated person's health record. Suicidal incarcerated persons shall not be permitted to retain clothes, undergarments or any other item that can be fashioned into an implement for hanging (e.g., plastic bags, shoelaces, or sheets).

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Suicide Prevention and Intervention

Incarcerated persons shall not be permitted to keep personal property while housed on suicide watch and shall not be permitted to possess razors or other sharp objects, such as pencils, items with staples, or any other item that may be used to cause a self-inflicted injury. Physical restraints should only be used as a last-resort measure. The decision to use or discontinue the use of restraints should be made in consultation with qualified healthcare professionals.

The Facility Commander, or their designee, should be notified of any persons remaining in a safety cell for more than 24 hours.

Level 2:

Suicide Watch Level 2 should be used in circumstances when an incarcerated person articulates suicidal ideation but has not attempted suicide, has taken overt actions of self-harm, or articulated a clear and achievable plan. Level 2 can also be used in circumstances where mental health professionals believe the incarcerated person needs a transitional period before returning to standard housing.

Once a qualified healthcare professional has cleared the incarcerated person off suicide watch (Level 1), the healthcare professional may determine that the incarcerated person should be issued outer clothing (shirt and pants only). If the incarcerated person is only cleared for outer clothing, they shall be moved to an observation room. Once in the observation room, the incarcerated person will be observed twice every hour. Once evaluated by a qualified healthcare professional that the incarcerated person may be allowed their full issue of clothing, the incarcerated person may be moved back to the appropriate housing unit. A qualified healthcare professional may recommend that an incarcerated person, who is not actively suicidal, be placed on Level 2 for observation if they are showing signs of a mental health crisis that may lead to a Level 1 placement.

Once cleared from Level 1 to Level 2, the incarcerated person shall be moved to an Observation Cell or an area where they can be under direct observation, within 2 hours.

Incarcerated persons on Level 2 should be seen every 24 hours by a qualified mental health clinician.

Level 3:

Suicide Watch Level 3 will be considered when an incarcerated person is cleared for full issue and return to standard housing. Nothing shall prevent a mental professional from clearing the incarcerated person from Level 1 to Level 3.

708.6.1 INTERVENTION

Any suicide attempt is a medical emergency. Staff should take action to facilitate emergency medical care and preserve and collect evidence as necessary. A qualified health care professional should be summoned immediately any time the staff suspects a suicide attempt is imminent. Staff should take reasonable and appropriate precautions to mitigate the ability of the incarcerated persons to injure themselves, and should consider establishing and maintaining a non-threatening conversation with the person while awaiting assistance. If a qualified health care professional is

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Suicide Prevention and Intervention

not immediately available, the incarcerated person should be placed in an appropriate and safe location until such time as qualified health care professionals or the Responsible Physician is available.

Following a suicide attempt, staff should initiate a medical emergency response and initiate and continue appropriate life-saving measures until relieved by qualified health care professionals. The arriving medical staff should perform the appropriate medical evaluation and intervention. The Responsible Physician or the authorized designee should be notified in situations when referral and transportation to the emergency room of a local hospital is required (15 CCR 1030).

708.6.2 NOTIFICATION

In the event of an attempted or completed suicide, the Main Jail Lieutenant or on-call Lieutenant, should be promptly notified. The Lieutenant should notify the Bureau Chief and Sheriff.

The location where a suicide or attempted suicide has occurred should be treated as a crime scene after the incarcerated person has been removed from the cell or after emergency medical care is rendered. The area should be secured and access-controlled to preserve evidence until the appropriate investigation can be completed.

All suicides or attempted suicides shall be documented in an incident report. Any injury must be documented in an incarcerated person injury report (15 CCR 1030).

All in-custody deaths, including those resulting from suicide, should be investigated by a detective and documented in accordance with the Reporting In-Custody Deaths Policy (15 CCR 1030).

708.7 FOLLOW-UP

Qualified health care professionals should evaluate any incarcerated person placed in suicide watch within 24 hours of placement or at the next available physician's visit, whichever is earliest. After evaluation, qualified health care professionals should make a recommendation whether to keep the incarcerated person on suicide watch. Only a qualified health care professional may remove an incarcerated person from suicide watch.

All changes in incarcerated person status should be reported to the qualified health care professional to ensure the person receives appropriate care.

Incarcerated persons are allowed copies of their Collaborative Care Safety Plan as well as other documentation essential to their care as designated by a qualified healthcare professional. Correctional Officers should carefully inspect these documents before being given to the incarcerated person. If the incarcerated person uses the documents as a means of self-harm or explicitly threatens to use them for such purpose, Correctional Officers may restrict the incarcerated person's access to the documents. Correctional Officers should consult the Watch Commander when feasible in these circumstances. The restriction of paperwork should be noted on the Observation Log.

Although the goal of this program is to significantly reduce the risk of in-custody deaths, the ongoing care of suicidal incarcerated persons after release must also be considered. Incarcerated

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Suicide Prevention and Intervention

persons who are at risk for suicide should work with local or area mental health resources and their families after release. A trained staff member should complete the necessary application, documenting the reasons why the incarcerated person is believed to be suicidal. The completed application should accompany the released incarcerated person to the designated facility.

708.7.1 DEBRIEFING

Any suicide attempt or death of an incarcerated person or on-site staff member requires a staff debriefing. Information will be communicated to the oncoming Watch Commander and staff to apprise them of the incident and the actions taken with regard to the incident. Such debriefing will be appropriately documented and shall be reviewed by administration, security, and the Responsible Physician.

708.8 TRANSPORTATION

Incarcerated person's at risk for suicide pose additional challenges during transport and while being held in court holding facilities. The transportation staff should take reasonable steps to closely monitor at-risk incarcerated person's whenever they are transported or held in any cell that is not designated as a suicide-watch cell. All additional security and monitoring measures implemented by the staff should be documented in the incarcerated person's record. Correctional staff should ensure that the suicide threat or other danger is communicated to the transportation deputy, or the court security staff.

Forensic Evidence

709.1 PURPOSE AND SCOPE

The purpose of this policy is to maintain credibility between the incarcerated persons and the facility's qualified health care professionals by establishing clear guidelines restricting facility health care professionals from participating in the collection of forensic evidence for disciplinary or legal proceedings.

709.1.1 DEFINITION

Definitions related to this policy include:

Forensic evidence - Physical or psychological data collected from an incarcerated person that may be used against the incarcerated person in disciplinary or legal proceedings.

709.2 POLICY

Qualified health care professionals of this facility are generally prohibited from participating in the collection of forensic evidence or performing psychological evaluations for disciplinary or legal proceedings.

Qualified health care professionals of this facility should not be involved in the collection of forensic evidence except when complying with state laws requiring the collection of blood samples from incarcerated persons, provided the incarcerated person has consented to the procedure and staff are not involved in any punitive action against the incarcerated person.

Qualified health care professionals of this facility may collect blood or urine for testing for alcohol or drugs when it is done for medical purposes and under a physician's order. Qualified health care professionals of this facility may conduct incarcerated person-specific, court-ordered laboratory tests and examinations or radiology procedures with the consent of the incarcerated person.

Qualified health care professionals of this facility are prohibited from being involved in the following procedures:

- (a) Body cavity searches
- (b) Psychological evaluations for use in adversarial proceedings
- (c) Blood draws for lab studies ordered by the court, without incarcerated person consent
- (d) Any medical procedure, except emergency lifesaving measures, that does not have the incarcerated person's written consent

It shall be the responsibility of the Sheriff or the authorized designee to arrange for appropriately trained professionals to collect forensic evidence for disciplinary or legal proceedings.

Privacy of Care

710.1 PURPOSE AND SCOPE

This policy recognizes that incarcerated persons have a right to privacy and confidentiality regarding their health-related issues. It also recognizes incarcerated persons' right to health care services that are provided in such a manner as to ensure that privacy and confidentiality, and encourage incarcerated persons' use and trust of the facility's health care system.

710.1.1 DEFINITION

Definitions related to this policy include:

Clinical encounters - Interactions between incarcerated persons and health care professionals involving a treatment and/or an exchange of confidential health information.

710.2 POLICY

It is the policy of this office that, to instill confidence in the health care system by the incarcerated person population, all discussions of health-related issues and clinical encounters, absent an emergency situation, will be conducted in a setting that respects the incarcerated person's privacy and encourages the incarcerated person's continued use of health care services.

710.3 REPORTING INAPPROPRIATE ACCESS OF MEDICAL INFORMATION

The Facility Manager and Responsible Physician shall establish a process for staff, incarcerated persons, or any other persons to report the improper access or use of medical records.

710.4 TRAINING

All corrections personnel, interpreters, and qualified health care professionals who are assigned to a position that enables them to observe or hear qualified health care professional/incarcerated person encounters shall receive appropriate training on the importance of maintaining confidentiality when dealing with incarcerated person health care. The Training Officer shall be responsible for scheduling such training and for maintaining training records that show the employee attended, in accordance with established records retention schedules.

Involuntary Psychiatric Medication Orders

711.1 PURPOSE AND SCOPE

The purpose of this policy is to delineate the conditions under which psychotropic medications may be administered involuntarily to incarcerated persons.

711.1.1 DEFINITION

Definitions related to this policy include:

Incompetent to Stand Trial (IST)- A person is not competent to stand trial if, as a result of a mental health disorder or developmental disability, they are unable to understand the nature of the criminal proceedings or to rationally assist counsel in the conduct of their defense (CALCRIM No. 3451).

Psychiatric Emergency - A situation in which action to impose treatment over the patient's objection is immediately necessary, due to a sudden and marked change in the incarcerated person's mental condition, for the preservation of life or the prevention of serious bodily harm to the patient or others, and it is impracticable to first obtain informed consent (15 CCR 1217).

Psychiatric Medication - Any medication prescribed for the treatment of symptoms of psychosis and other mental and emotional disorders (15 CCR 1217).

711.2 POLICY

The Santa Cruz County Sheriff's Office in collaboration with their mental health provider shall assure timely and humane access to psychiatric medication for incarcerated persons who have been deemed in need of emergency psychiatric medication when it is impracticable to obtain informed consent. (15 CCR 1217).

The provisions of Penal Code Sections 1370, 1370.01, and 1370.02 shall apply to antipsychotic medications provided in a county jail, provided, however, that the maximum time an incarcerated person may be treated in a treatment facility under this section shall not exceed six months. This is done to avoid poor outcomes for those incarcerated persons who refuse their medication and risk decompensation. This purpose is completed through a Court Order.

Prior to the administration of any involuntary medication pursuant to this policy, the Santa Cruz County Sheriff's Office shall receive a certified court order authorizing the administration of the medication. This does not apply to emergency medication orders (15 CCR 1217).

Psychotropic medication may only be administered involuntarily to an incarcerated person in emergency circumstances or as otherwise allowed by law and only with a physician's order. The medication administered shall only be what is required to treat the emergency condition and administered for only as long as the emergency continues to exist.

A court order shall be sought, or legal consent shall be obtained if the Responsible Physician anticipates further dosage will be necessary or beneficial (Penal Code § 2603; 15 CCR 1217). In cases of non-emergencies, certain conditions must be met as described in Penal Code § 2603(c)

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Involuntary Psychiatric Medication Orders

prior to the involuntary administration of the psychotropic medication, including a documented attempt to locate an available bed in a community-based treatment facility in lieu of seeking to administer involuntary medication (Penal Code § 2603).

Psychotropic medications will not be used for any disciplinary reasons.

711.3 PROCEDURE

Upon receipt of the Involuntary Court Medication Order, it will be noted in the incarcerated person's file.

Prior to administering the medication, Correctional Staff will verify the incarcerated person's name. Medical staff will then administer the medication in the presence of Correctional Staff. If the incarcerated person is willing to voluntarily take their medication, standard medication pass procedures apply.

Involuntary Psychiatric Medication Orders

711.4 ALTERNATIVE MEANS

In adherence to ethical standards, the Santa Cruz County Sheriff's Office prioritizes exploring alternatives before resorting to involuntary psychotropic medication, particularly in non-emergency situations as per Penal Code § 2603. This commitment involves assessing available crisis intervention resources, utilizing non-pharmacological techniques, and fostering collaborative decision-making. The use of incentives, such as a snack, can be utilized to modify behavior. The use of incentives for medication compliance should be approved by the Watch Commander. The Sheriff's Office remains dedicated to ethical and legal standards through ongoing adjustments to treatment plans and collaboration with external mental health resources.

711.5 AUDITS

The Watch Commander and medical staff will conduct weekly audits of those persons who have Involuntary Medication Orders.

711.6 TRAINING

All corrections officers, and qualified health care professionals who are assigned to a position that enables them to observe or hear qualified health care professional/incarcerated person encounters shall receive appropriate training on the importance of maintaining confidentiality when dealing with incarcerated person health care. The Training Officer shall be responsible for scheduling such training and for maintaining training records that show the employee attended, in accordance with established records retention schedules.

Chapter 8 - Environmental Health

Sanitation Inspections

800.1 PURPOSE AND SCOPE

The Santa Cruz County Sheriff's Office has established a plan to promote and inspect the environmental safety and sanitation requirements established by applicable laws, ordinances and regulations. This policy establishes a plan of housekeeping tasks and inspections required to identify and correct unsanitary or unsafe conditions or work practices in this facility.

800.2 RESPONSIBILITIES

The Facility Manager will ensure that the safety and sanitation plan addresses, at a minimum, the following (15 CCR 1280):

- (a) Schedules of functions (e.g., daily, weekly, monthly or seasonal cleaning, maintenance, pest control, safety surveys)
- (b) Self-inspection checklists to identify problems and to ensure cleanliness of the facility.
- (c) Procedures, schedules, and responsibilities for coordinating annual inspections by the county health department, including how deficiencies on the inspection report are to be corrected in a timely manner.
- (d) A list of approved equipment, cleaning compounds, chemicals, and related materials used in the facility, and instructions on how to operate, dilute, or apply the material in a safe manner.
- (e) Record-keeping of self-inspection procedures, forms, and actions taken to correct deficiencies.
- (f) Training requirements for custody staff and incarcerated workers on accident prevention and avoidance of hazards with regard to facility maintenance.

Consideration should be given to general job descriptions and/or limitations relating to personnel or incarcerated persons assigned to carrying out the plan. Specialized tasks, such as changing air filters and cleaning ducts or facility pest control, are more appropriately handled by the Office or by contract with private firms.

Incarcerated persons engaged in sanitation duties shall do so only under the direct supervision of qualified custody staff. When incarcerated work crews are used, additional controls should be implemented to account for all equipment and cleaning materials.

All staff shall report any unsanitary or unsafe conditions to a supervisor. Staff shall report repairs needed to the physical plant and to equipment by submitting a work order to a supervisor. Sergeants will conduct cleaning inspections on a daily basis. The Facility Manager or the authorized designee will conduct weekly safety and sanitation inspections of the facility.

800.3 WORK ORDERS

All reports of unsafe or unsanitary conditions, as well as repairs needed to the physical plant and equipment, shall be documented in a work order. The Facility Manager will designate a staff person to receive these work orders and take appropriate action to ensure the repairs are made or

action is taken. All work and action taken will also be documented. Requests for budget resources above and beyond already budgeted maintenance items shall be reported to the Facility Manager.

800.4 SAFETY DATA SHEETS

Materials and substances used in the operation and maintenance of the facility may qualify as hazardous material. Hazardous material is required to have a companion Safety Data Sheet (SDS) that is provided by the manufacturer or distributor of the material. The SDS provides vital information on individual hazardous materials and substances, including instructions on safe handling, storage, disposal, prohibited interactions and other details relative to the specific material.

The Facility Manager shall be responsible for ensuring that a written hazard communication plan is developed, implemented and maintained at each workplace. Each area of the facility in which any hazardous material is stored or used shall maintain an SDS file in an identified location that includes (29 CFR 1910.1200(e)(1)):

- (a) A list of all areas where hazardous materials are stored.
- (b) A physical plant diagram and legend identifying the storage areas of the hazardous materials.
- (c) A log for identification of new or revised SDS materials.
- (d) A log for documentation of training by users of the hazardous materials.

800.4.1 SDS USE, SAFETY, AND TRAINING

All supervisors and users of SDS information must review the latest issuance from the manufacturers of the relevant substances. Staff and incarcerated persons shall have ready and continuous access to the SDS for the substance they are using while working. In addition, the following shall be completed (29 CFR 1910.1200(e)):

- (a) Supervisors shall conduct training for all staff and incarcerated persons on using the SDS for the safe use, handling, and disposal of hazardous material in areas they supervise.
- (b) Upon completion of the training, staff and incarcerated persons shall sign the acknowledgement form kept with each SDS in their work area.
- (c) Staff and incarcerated persons using the SDS shall review the information as necessary to be aware of any updates and to remain familiar with the safe use, handling, and disposal of any hazardous material.

800.4.2 MSDS DOCUMENTATION MAINTENANCE

Changes in MSDS information occur often and without general notice. Any person accepting a delivery, addition or replacement hazardous material shall review the accompanying MSDS. If additions or changes have occurred, the revised MSDS shall be incorporated into the file and a notation shall be made in the MSDS revision log.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Sanitation Inspections

Supervisors shall review MSDS information in their work areas semi-annually to determine if the information is up-to-date and that appropriate training has been completed. Upon review, a copy of the MSDS file and all logs shall be forwarded to the Maintenance Supervisor or the authorized designee.

800.4.3 SDS RECORDS MASTER INDEX

The Maintenance Supervisor or the authorized designee will compile a master index of all hazardous materials in the facility, including locations, along with a master file of SDS information. They will maintain this information in the safety office (or equivalent), with a copy to the local fire department. Documentation of the semiannual reviews will be maintained in the SDS master file. The master index should also include a comprehensive, current list of emergency phone numbers (e.g., fire department, poison control center) (29 CFR 1910.1200(g)(8)).

Hazardous Waste and Sewage Disposal

801.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a system for disposing of hazardous waste. The Office recognizes that the effectiveness of a disposal system depends not only on the written policies, procedures, and precautions, but on adequate supervision and the responsible behavior of the staff and incarcerated persons. It is the responsibility of everyone in the facility to follow hazardous waste disposal instructions, utilizing prescribed precautions and using safety equipment properly.

801.1.1 DEFINITION

Definitions related to this policy include:

Hazardous waste - Material that poses a threat or risk to public health or safety or is harmful to the environment (e.g., batteries, paints, solvents, engine oils and fluids, cleaning products).

All supervisors shall be knowledgeable in how to access the safety equipment at all times. The county may coordinate with local fire departments or contracted vendors to obtain the necessary safety equipment.

801.4 TRAINING

The Training Officer shall be responsible for ensuring that all facility personnel receive appropriate training in the use of appropriate safety equipment and the identification, handling and disposal of hazardous waste. Training records shall be maintained, including the course roster, curriculum, instructor name and credentials, and testing instruments.

Hazardous Waste and Sewage Disposal

801.5 SUPERVISOR RESPONSIBILITY

Supervisors are responsible for monitoring any hazardous waste containment issue, ensuring that employees have the appropriate safety equipment, that any exposed persons receive immediate medical treatment, and that the appropriate measures are taken to lessen the exposure of others. Supervisors shall ensure that incident reports are completed and forwarded to the Facility Manager in the event of an exposure to staff, incarcerated persons, or visitors.

801.6 POLICY

It is the policy of this office that any sewage and hazardous waste generated at the facility shall be handled, stored, and disposed of safely and in accordance with all applicable federal and state regulations and in consultation with the local public health entity.

801.7 SEWAGE DISPOSAL

All sewage and liquid waste matter must be disposed of into a public system of sewerage or, if public sewerage is not available, into a private system of sewage disposal in accordance with the requirements of the local public health entity.

The institution's use of the private system must be discontinued, and the private system must be properly abandoned when public sewerage becomes available.

801.8 HAZARDOUS WASTE

Hazardous waste generated in the facility shall be properly disposed of in designated containers and stored until removed by the contractor. At a minimum, staff shall use universal standard precautions when in contact with hazardous materials.

Housekeeping and Maintenance

802.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines to ensure that the facility is kept clean and in good repair in accordance with accepted federal, state and county standards.

802.2 RESPONSIBILITIES

The Facility Manager shall establish a plan for housekeeping and maintenance of the facility. The plan should include but is not limited to (15 CCR 1280):

- (a) Schedules that determine the frequency of cleaning activities on a daily, weekly, or monthly timetable, by area of the facility.
- (b) Supervision of the staff and incarcerated persons to ensure proper implementation of the procedures and to ensure that no incarcerated person supervises or assigns work to another incarcerated person.
- (c) Development and implementation of an overall sanitation plan (e.g., cleaning, maintenance, inspection, staff training, incarcerated person supervision).
- (d) Development of inspection forms.
- (e) All incarcerated person responsibilities, which should be included in the incarcerated person handbook.

A daily, weekly, and monthly cleaning schedule will be established by the housing unit supervisor. The facility staff should implement a site-specific plan for cleaning and maintenance of each area of the correctional facility (e.g., housing, food preparation, laundry, loading dock/trash storage, barber shop, warehouse, common areas). The following recommendations include but are not limited to specific areas and items:

The Facility Manager or the authorized designee should develop an inspection checklist that includes the cleaning and maintenance items that will be checked by supervisors on a daily, weekly and monthly basis throughout the facility.

The inspection checklist will closely correspond to the established cleaning and maintenance schedule.

Inspection checklists shall be forwarded to the Facility Manager or the authorized designee for annual review, filing and retention as required by the established records retention schedule.

802.6 POLICY

It is the policy of this office to maintain a sanitation and preventive maintenance schedule to keep the facility clean and in good repair.

Physical Plant Compliance with Codes

803.1 PURPOSE AND SCOPE

The purpose of this policy is to establish the timeline, process and responsibilities for facility maintenance, inspections and equipment testing in compliance with all applicable federal, state and local building codes.

803.2 POLICY

It is the policy of this office that all construction of the physical plant (renovations, additions, new construction) will be reviewed and inspected in compliance with all applicable federal, state and local building codes. All equipment and mechanical systems will be routinely inspected, tested and maintained in accordance with applicable laws and regulations.

803.3 COMPLIANCE WITH CODES AND STATUTES

Plumbing, sewage disposal, solid waste disposal and plant maintenance conditions will comply with rules and regulations imposed by state regulatory entities governing such practices.

803.4 RESPONSIBILITIES

The Facility Manager shall be responsible for establishing and monitoring the facility maintenance schedule, the inspection schedules of the Sergeants and corrections officers, and ensuring that any deficiencies discovered are corrected in a timely manner.

Copies of the local jurisdiction's applicable health and sanitation codes shall be kept in the facility by the Facility Manager or the authorized designee. The Facility Manager or the authorized designee is responsible for developing internal health and sanitation inspection checklists, for maintaining valid licensing and sanitation certificates and inspection reports, and for proof of corrective actions.

803.5 PROCEDURE

All safety equipment (e.g., emergency lighting, generators, and an uninterruptible power source (UPS)) shall be tested at least quarterly. Power generators and UPS equipment should be inspected weekly and load-tested quarterly or according to the manufacturer's instructions. All completed inspection forms shall be kept on file for review by the appropriate office committees or external agencies.

Any remodeling or new construction shall have prior approval of the local fire, building, and health authorities. Any required plans and permits will be procured prior to the commencement of any changes to the facility.

- Incarcerated person housing
- Laundry
- Barbershop
- Loading dock/trash storage
- Warehouse

Floor drains must be flushed weekly and all traps must contain water to prevent the escape of sewer gas. Grids and grates must be present.

Vermin and Pest Control

804.1 PURPOSE AND SCOPE

The purpose of this policy is to establish inspection, identification and eradication processes designed to keep vermin and pests controlled in accordance with the requirements established by all applicable laws, ordinances and regulations of the local public health entity.

804.2 POLICY

It is the policy of this office that vermin and pests be controlled within the facility. The Facility Manager or the authorized designee shall be responsible for developing and implementing this policy, in cooperation with the Responsible Physician and the local public health entity, for the sanitation and control of vermin and pests, and to establish medical protocols for treating incarcerated person clothing, personal effects, and living areas, with specific guidelines for treating an infested incarcerated person (15 CCR 1212; 15 CCR 1264).

804.3 PEST CONTROL SERVICES

The Facility Manager or the authorized designee shall be responsible for procuring the services of a licensed pest control professional to perform inspections of the facility at least monthly and to treat areas as required to ensure that vermin and pests are controlled.

804.4 PREVENTION AND CONTROL

Many infestations and infections are the result of a recently admitted incarcerated person who is vermin-infested or whose property is vermin-infested. Most infestations are spread by direct contact with an infected person or with infested clothing and bedding. Incarcerated persons with lice or mites should be treated with approved pediculicides as soon as the infestation is identified to avoid spreading it. To reduce the chance of further transmission, separate quarters for incarcerated persons undergoing treatment for lice should be used as described in the Communicable Diseases Policy.

Because the use of the treatment chemicals can cause allergic reactions and other negative effects, treatment should be done only when an infestation is identified and not as a matter of routine.

Clothing, bedding, and other property that is suspected of being infested shall either be removed from the facility or cleaned and treated by the following methods, as appropriate or as directed by the pest control provider or the Responsible Physician (15 CCR 1264):

- Washing in water at 140 degrees for 20 minutes
- Tumbling in a clothes dryer at 140 degrees for 20 minutes
- Dry cleaning
- Storing in sealed plastic bags for 30 days
- Treating with an insecticide specifically labeled for this purpose

Santa Cruz County Sheriff's Office

Vermin and Pest Control

Head lice and their eggs are generally found on the head hairs. There may be some uncertainty about the effectiveness of some available pediculicides to kill the eggs of head lice. Therefore, some products recommend a second treatment seven to 10 days after the first. During the interim, before the second application, eggs of head lice could hatch and there is a possibility that lice could be transmitted to others.

Pubic lice and their eggs are generally found on the hairs of the pubic area and adjacent hairy parts of the body, although they can occur on almost any hairy part of the body, including the hair under the arm and on the eyelashes.

Pubic lice and their eggs are generally successfully treated by the available pediculicides. However, when the eyelashes are infested with pubic lice and their eggs, a physician should perform the treatment.

Successful treatment depends on careful inspection of the incarcerated person and proper application of the appropriate product. The area used to delouse incarcerated persons needs to be separate from the rest of the facility. All of the surfaces in the treatment area must be sanitized. There must be a shower as part of the delousing area.

The supervisor shall document the date of treatment, the area treated, the pest treated, and the treatment used.

804.5 LABELING AND SECURE STORAGE OF COMPOUNDS

Containers of pest exterminating compounds shall be conspicuously labeled for identification of contents. The containers shall be securely stored separately from food and kitchenware, and shall not be accessible by incarcerated persons.

Incarcerated Person Safety

805.1 PURPOSE AND SCOPE

The purpose of this policy is to establish a safety program to reduce incarcerated person injuries by analyzing causes of injuries and identifying and implementing corrective measures.

805.2 RESPONSIBILITIES

The Sheriff shall appoint a staff member who will be responsible for the development, implementation, and oversight of the safety program. This program will include but not be limited to (15 CCR 1280):

- A system to identify and evaluate hazards, including scheduled inspections to identify unsafe conditions.
- Analysis of incarcerated person injury reports to identify causes and recommend corrective actions.
- Establishment of methods and procedures to correct unsafe and/or unhealthful conditions and work practices in a timely manner.

805.3 INVESTIGATION OF REPORTED INCARCERATED PERSON INJURY

Whenever there is a report of an injury to an incarcerated person that is the result of accidental or intentional acts, other than an authorized use of force by custody staff, the Sheriff or the authorized designee will initiate an investigation to determine the cause of the injury and develop a plan of action whenever a deficiency is identified. Injuries resulting from use of force incidents will be investigated and reported in accordance with the Use of Force Policy.

805.4 INVESTIGATION REPORTS

The Sergeant shall ensure that reports relating to an incarcerated person's injury are completed and should include the following:

- Incident reports
- Investigative reports
- Health record entries
- Any other relevant documents

805.5 POLICY

It is the policy of the Santa Cruz County Sheriff's Office to provide a safe environment for individuals confined at this facility, in accordance with all applicable laws, by establishing an effective safety program, investigating incarcerated person injuries, and taking corrective actions as necessary to reduce accidents and injury.

Incarcerated Person Hygiene

806.1 PURPOSE AND SCOPE

This policy outlines the procedures that will be taken to ensure the personal hygiene of every incarcerated person in the Santa Cruz County Sheriff's Office correctional facility is maintained. The Santa Cruz County Sheriff's Office recognizes the importance of each incarcerated person maintaining acceptable personal hygiene practices by providing adequate bathing facilities and hair care services, and the issuance and exchange of clothing, bedding, linens, towels, and other necessary personal hygiene items.

806.2 POLICY

It is the policy of the Santa Cruz County Sheriff's Office facility to maintain a high standard of hygiene in compliance with the requirements established by all state laws, ordinances, and regulations (15 CCR 1069). Compliance with laws and regulations relating to good incarcerated person hygiene practice is closely linked with good sanitation practices. Therefore, the need to maintain a high level of hygiene is not only for the protection of all incarcerated persons, but for the safety of the correctional staff, volunteers, contractors, and visitors.

806.3 STORAGE SPACE

There should be adequate and appropriate storage space for incarcerated person bedding, linen, or clean clothing. The inventory of clothing, bedding, linen, and towels should exceed the maximum incarcerated person population so that a reserve is always available (15 CCR 1263).

The facility should have clothing, bedding, personal hygiene items, cleaning supplies, and any other items required for the daily operation of the facility, including the exchange or disposal of soiled or depleted items. The assigned staff shall ensure that the storage areas are properly maintained and stocked. The Facility Manager should be notified if additional storage space is needed.

806.3.1 BEDDING ISSUE

Upon entering a living area of the Santa Cruz County Sheriff's Office correctional facility, every incarcerated person who is expected to remain overnight shall be issued bedding and linens including but not limited to (15 CCR 1270):

- (a) Sufficient freshly laundered blankets to provide comfort under existing temperature conditions. Blankets shall be exchanged and laundered in accordance with facility operational laundry rules.
- (b) One clean, firm, nontoxic, fire-retardant mattress (16 CFR 1633.1 et seq.).
 - 1. Mattresses will be serviceable and enclosed in an easily cleanable, nonabsorbent material and conform to the size of the bunk. Mattresses will be cleaned and disinfected when an incarcerated person is released or upon reissue.

1. Two blankets or a sleep bag may be issued in place of one mattress cover or one sheet at the request of the incarcerated person.
- (d) One clean washcloth, hand towel, and bath towel.
- (e) One pillow and pillowcase.

Linen exchange, including towels, shall occur at least weekly and shall be documented in the daily activity log (15 CCR 1271). The Sergeant shall review the daily activity log at least once per shift.

The Facility Manager or the authorized designee shall conduct both scheduled and unannounced inspections of the facility to ensure that bedding issuance policies and procedures are carried out in accordance with the applicable laws and regulations.

806.3.2 CLOTHING ISSUE

An incarcerated person admitted to the facility for 72 hours or more and assigned to a living unit shall be issued a set of facility clothing. The issue of clothing appropriate to the climate for incarcerated persons shall include but is not limited to: (15 CCR 1260):

- Clean socks.
- Clean outer garments.
- Clean undergarments (e.g., shorts, undershirt, bra and two pairs of panties).
- Footwear.

Incarcerated persons who are issued a change of clothing upon admission to the facility may have their personal clothing returned after laundering, at the discretion of the Facility Manager.

All issued and exchanged clothing shall be clean and free of holes or tears, reasonably fitted, durable, and easily laundered and repaired. Undergarments shall be clean, free of holes or tears, and substantially free of stains. Individuals shall be able to select the garment type more compatible with their gender identity and gender expression (15 CCR 1260).

Clothing shall be exchanged twice each week, at a minimum (15 CCR 1262). All exchanges shall be documented on the daily activity log. The Sergeant or unit supervisor shall review the daily activity log at least once per shift.

Additional clothing may be issued as necessary for changing weather conditions or as seasonally appropriate. An incarcerated person's personal undergarments and footwear may be substituted

for the institutional undergarments and footwear, provided there is a legitimate medical necessity for the items and they are approved by the medical staff.

Each incarcerated person assigned to a special work area, such as food services, medical, farm, sanitation, mechanical, and other specified work, shall be clothed in accordance with the requirements of the job, including any appropriate protective clothing and equipment, which shall be exchanged as frequently as the work assignment requires. All issued clothing shall be clean, free of holes and tears (15 CCR 1261).

The Facility Manager or the authorized designee shall conduct both scheduled and unannounced inspections of the facility to ensure that clothing issuance policies and procedures are carried out in accordance with the applicable laws and regulations.

The Facility Manager or the authorized designee shall ensure that the facility maintains a sufficient inventory of extra clothing to ensure each incarcerated person shall have neat and clean clothing appropriate to the season.

An incarcerated person's excess personal clothing shall be mailed, picked up by, or transported to a designated family member or stored in containers designed for such purpose. All incarcerated person personal property shall be properly identified, inventoried, and secured. Incarcerated persons shall sign and receive a copy of the inventory record.

806.4 LAUNDRY SERVICES

Laundry services shall be managed so that daily clothing, linen and bedding needs are met.

806.5 INCARCERATED PERSON ACCOUNTABILITY

To ensure incarcerated person accountability, incarcerated persons are required to exchange item for item when clean clothing, bedding, and linen exchange occurs.

Prior to being placed in a housing unit, incarcerated persons shall be provided with an incarcerated person handbook listing this requirement.

806.6 PERSONAL HYGIENE OF INCARCERATED PERSONS

Personal hygiene items, hair care services, and facilities for showers will be provided in accordance with applicable laws and regulations. This is to maintain a standard of hygiene among incarcerated persons in compliance with the requirements established by state laws as part of a healthy living environment.

Each incarcerated person held more than 24 hours who does not have the following personal care items because of either indigency or the absence of an incarcerated person canteen shall be issued the following items (15 CCR 1265):

- Toothbrush
- Dentifrice
- Soap
- Comb

Incarcerated Person Hygiene

- Shaving implements
- Sanitary pads, panty liners, and tampons at no cost and no maximum allowance (Penal Code § 4023.5)

The Facility Manager or the authorized designee may modify this list to accommodate the use of liquid soap and shampoo dispensers. Personal hygiene items should be appropriate for the incarcerated person's gender. Additional hygiene items shall be provided to incarcerated persons upon request, as needed.

Personal care items shall be issued within the first 12 hours of a housing assignment. Incarcerated persons shall not be required to share personal care items or disposable razors (15 CCR 1265). Used razors are to be disposed into approved sharps containers. Other barbering equipment capable of breaking the skin must be disinfected between individual uses, as prescribed by the California Board of Barbering and Cosmetology to meet the requirements of 16 CCR 979 and 16 CCR 980 (15 CCR 1267(c)).

Incarcerated persons, except those who may not shave for reasons of identification in court, shall be allowed to shave daily (15 CCR 1267(b)). The Facility Manager or the authorized designee may suspend this requirement for any incarcerated person who is considered a danger to others.

806.7 BARBER AND COSMETOLOGY SERVICES

The Facility Manager or the authorized designee shall be responsible for developing and maintaining a schedule for hair care services provided to the incarcerated person population and will have written policies and procedures for accessing these services (see the Grooming Policy). Food Storage

905.1 PURPOSE AND SCOPE

All delivery vehicles shall be inspected by food services staff to make certain that the vehicles are clean, free from vermin infestations and are maintained at the appropriate temperature for the type of food being carried.

If food quality and freshness do not meet commonly accepted standards or if it is determined that proper storage temperatures have not been maintained, the employee checking the order in will refuse the item and credit the invoice.

Any food destined for return to the vendor should be stored separately from any food destined for consumption. The food services manager will contact the vendor and arrange for replacement of the unacceptable food items.

Telephone Access

1005.1 PURPOSE AND SCOPE

This policy establishes guidelines for permitting incarcerated persons to access and use telephones.

1005.2 POLICY

The Correctional Facility will provide access to telephones for use by incarcerated persons consistent with federal and state law. The Facility Manager or the authorized designee shall develop written procedures establishing the guidelines for access and usage (15 CCR 1067). All incarcerated persons will be provided a copy of the telephone usage rules as part of their incarcerated person orientation during the booking process.

1005.3 PROCEDURE

Incarcerated persons housed in general population will be permitted reasonable access to public telephones at scheduled times in the dayrooms for collect calls unless such access may cause an unsafe situation for the facility, staff, or other incarcerated persons. The Facility Manager shall ensure a notice is conspicuously posted near the phones, informing incarcerated persons that non-attorney calls may be monitored and recorded.

Incarcerated persons are not permitted to receive telephone calls. Messages will only be delivered in the event of a verified emergency.

In the event of a facility emergency, or as directed by the supervisor or the Facility Manager, all telephones will be turned off.

For security reasons, incarcerated persons who are awaiting transport to another facility or release to another agency are not permitted to use the telephones.

Teletypewriter or other communication devices (e.g., videophones, third-party communications assistant) will be made available to persons who are known to have, or are perceived by others as having, hearing or speech impairments to allow them equivalent telephone access as those without these disabilities (15 CCR 1067).

The minimum time allowed per call should be 10 minutes, except where there are substantial reasons to justify such limitations. The rules governing the use of the telephone will be provided to persons during orientation and posted near the telephones.

The staff should monitor the use of public telephones to ensure incarcerated persons have reasonable and equitable access and that the rules of use are observed. Any incarcerated persons refusing to cooperate with the telephone rules may have their call terminated, telephone privileges suspended, and/or incur disciplinary action.

Requirements relating to the use of telephones during booking and reception are contained in the Reception Policy.

Visitation

1006.1 PURPOSE AND SCOPE

The Facility Manager shall develop written procedures for incarcerated person visiting, which shall provide for as many visits and visitors as facility schedules, space, and number of personnel will reasonably allow, with no fewer visits allowed than specified by 15 CCR 1062 per week, by type of facility. The procedures are subject to safety and security requirements and should consider:

- The facility's schedule.
- The space available to accommodate visitors.
- Whether an emergency or other conditions justify a limitation in visiting privileges.
- Video visitation if applicable (Penal Code § 4032; 15 CCR 1062).

The visiting area shall accommodate incarcerated persons and visitors with disabilities. Visitors with disabilities who request special accommodations shall be referred to a supervisor. Reasonable accommodations will be granted to incarcerated persons and disabled visitors to facilitate a visitation period.

Failure or refusal to provide a valid identification is reason to deny a visit.

1006.4 AUTHORIZATION TO SEARCH VISITORS

Individuals who enter the secure perimeter of this facility are subject to search if there is reasonable cause to believe the visitor has violated the law, is wanted by a law enforcement agency, or is attempting to bring contraband onto the facility property or into the facility. All searches shall be made in accordance with current legal statutes and case law.

The area designated for a visitor to be searched prior to visiting with an incarcerated person shall have a notice posted indicating that any cellular telephone, wireless communication device, or any component thereof shall be confiscated for the period of the visitation and returned to the visitor upon departure from the facility (Penal Code § 4576(b)(3)).

1006.5 VISITING SCHEDULE

The Facility Manager shall designate a person to develop a schedule for incarcerated person visitation that includes daytime, evening, and weekend hours. Religious Programs

1007.1 PURPOSE AND SCOPE

This policy provides guidance regarding the right of incarcerated persons to exercise their religion and for evaluating accommodation requests for faith-based religious practices of incarcerated persons (15 CCR 1072).

1007.1.1 DEFINITIONS

Definitions related to this policy include:

Compelling government interest - A method for determining the constitutionality of a policy that restricts the practice of a fundamental right. In order for such a policy to be valid, there must be a compelling government interest, which is necessary or crucial to the mission of the Office, as opposed to something merely preferred, that can be furthered only by the policy under review.

Least restrictive means - A standard imposed by the courts when considering the validity of policies that touch upon constitutional interests. If the Office adopts a policy that restricts a fundamental religious liberty, it must employ the least restrictive measures possible to achieve its goal.

Religious exercise - Any exercise of religion, whether or not it is compelled by, or central to, a system of religious belief. The key is not what a faith requires but whether the practice is included in the incarcerated person's sincerely held religious beliefs.

Substantial burden - For the purposes of this policy, substantial burden means either of the following:

- A restriction or requirement imposed by the Office that places an incarcerated person in a position of having to choose between following the precepts of the person's religion and forfeiting benefits otherwise generally available to other incarcerated persons, or having to abandon one of the precepts of their religion in order to receive a benefit.
- The Office puts considerable pressure on an incarcerated person to substantially modify the person's behavior in violation of their beliefs.

1007.2 POLICY

It is the policy of this office to permit incarcerated persons to engage in the lawful practices and observances of their sincerely held religious beliefs consistent with the legitimate governmental objectives of the facility.

1007.3 PASTORAL CARE AND SPIRITUAL SUPPORT

The Chaplain, in conjunction with In-Custody Programs, oversees a team of volunteer Pastoral Care providers comprised of ordained individuals from a variety of faiths. The Chaplain schedules individual meetings with Pastoral Care providers upon request by an incarcerated person. The Chaplain, in conjunction with In-Custody Programs also assures that non-denominational Spiritual Support Service groups are available to

1007.4 DIETS AND MEAL SERVICE

The Facility Manager should provide incarcerated persons requesting a religious diet, including fasting and/or hour of dining, a reasonable and equitable opportunity to observe their religious dietary practice. This should be done within budgetary constraints and be consistent with the security and orderly management of the facility. The Chaplain will review and approve religious diet requests and provide a list of incarcerated persons authorized to receive religious diets to the Food Service Manager. The food services manager shall establish a process for managing religious meal accommodations.

1007.4.1 PROHIBITION ON USE OF ALCOHOL OR DRUGS FOR RELIGIOUS OBSERVANCE

Illegal substances are prohibited from use in religious services under RLUIPA. Otherwise legal substances, such as alcohol, may be permitted in religious rituals provided that:

- There is a recognized legitimate religious practice of which the consumption of a substance is an essential aspect of the religious practice.
- No reasonable alternative (such as non-alcoholic) means exists to exercise such an essential aspect of an inmate's faith and this imposes a substantial burden on an inmate's faith.
- The quantity of the substance consumed as part of the ritual will not intoxicate or impair the inmate.
- Adequate controls on the substance and limits upon the quantity are provided by the chaplain and approved by the Facility Manager.
- The activity will not otherwise disrupt facility safety or control interests.

Limited exceptions may be made in writing by the Facility Manager based upon the Program Manager's recommendation that there is significant compelling reason to permit ceremonial consumption.

1007.5 HAIRSTYLES AND GROOMING

To the extent reasonably practicable, alternative housing may be considered to accommodate the need for religious hair and grooming, while meeting the health and sanitation needs of the facility (Penal Code § 2607).

Any incarcerated person whose appearance is substantially altered due to changes in facial hair or hair length may be required to submit to additional identification photographs.

1007.10 RELIGIOUS GARMENTS AND CLOTHING

Incarcerated persons who practice a religion that requires particular modes of dress, garments, headgear, etc., other than standard-issue clothing, should generally be accommodated subject to the compelling government interest in maintaining facility security, including the need to identify incarcerated persons and detecting contraband. Common examples of religious garments include, but are not limited to, Muslim headscarf (hijab) or cap (kufi), Sikh turban, or Jewish cap (yarmulke/kippah). (Penal Code § 2607). Religious garments that substantially cover the person's head and face shall be temporarily removed during the taking of booking and identification photographs.

To the extent reasonably practicable, alternative housing may be considered to accommodate an incarcerated person's need for religious attire, while meeting the security needs of the facility.

1007.11 INTAKE AND BOOKING

When an incarcerated person wearing a religious garment is brought in for booking, the following steps must be followed:

1) Intake procedures:

- Staff shall inform the incarcerated person of the need to search the garment and underlying hair for contraband. Staff must offer the incarcerated person the opportunity to have this search conducted in a private space out of view of members of the opposite gender. When an incarcerated person has expressed a desire that this be done in private, this search will be conducted in a private area by staff of the same sex.
- During the search, staff shall instruct the incarcerated person to remove their religious garment. The garment will be searched for contraband, weapons, and drugs.
- Following the search, staff shall return the religious garment to the incarcerated person if the incarcerated person will be released and not housed.

Santa Cruz County Sheriff's Office
Santa Cruz County Sheriff's Office Correction's Policy Manual

Religious Programs

- If the incarcerated person will be housed, the facility should allow the individual to retain their religious clothing and headwear if it is not a risk to the security of the facility until the individual can purchase approved garments or an approved jail issued garment is issued (e.g., jail-issued hijab).
- The incarcerated person's personal religious garment will be stored with their personal property.
- If an incarcerated person's religion requires that their arms and legs be covered, they will be provided access to jail-issued garments that fully cover their arms and legs (e.g., thermals).
- A "Religious Accommodation" alert should be added in the JMS system for notification purposes.
- The Chaplain should be notified of any religious accommodation requests. If the Chaplain is not available during the initial booking assessment, the Chaplain will review the religious accommodation requests later for approval.

1007.13 FAITH- AND MORALS-BASED COUNSELING

The Facility Manager shall be responsible for establishing a plan for incarcerated persons to receive faith- and morals-based counseling from the chaplain or religious volunteers. Following a search, any religious clothing or headwear purchased, accessed, or retained shall be returned unless there is a reason to confiscate the item due to a security risk. If the item is not returned, the reason shall be documented (Penal Code § 2607).

Exercise and Out of Cell Time

1008.1 PURPOSE AND SCOPE

The purpose of this policy is to establish guidelines and procedures ensuring that the Santa Cruz County Sheriff's Office facility will have sufficiently scheduled exercise and out of cell time periods and sufficient space for these activities, as required by law.

1008.1.1 DEFINITIONS

Definitions related to this policy include (15 CCR 1006):

Exercise - The opportunity for physical exertion.

Out of Cell Time - Time spent outside of the sleeping area, where an individual has the opportunity to exercise or participate in recreation.

1008.2 RESPONSIBILITIES

The Facility Manager or the authorized designee shall be responsible for ensuring there is sufficient secure space allocated for physical exercise and out of cell time, and that a schedule is developed to ensure accessibility to both activities for all incarcerated persons. At least three hours per week of exercise opportunities shall be provided and at least seven hours of out of cell time distributed over a period of seven days for recreation (15 CCR 1065).

1008.3 ACCESS TO EXERCISE

Incarcerated persons shall have access to exercise opportunities and equipment, including access to physical exercise outside the cell and adjacent dayroom areas, and the opportunity to exercise outdoors when weather permits.

Daily log sheets should be collected monthly and forwarded to the Facility Manager. Log sheets shall be maintained in accordance with established records retention schedules.

1008.4 ACCESS TO OUT OF CELL TIME

Each incarcerated person shall have access to the minimum state-required out of cell time (leisure-time) activities outside the cell and adjacent dayroom areas (15 CCR 1065). The length of time will be determined by the incarcerated person's classification status, security concerns, and operational schedules that preclude out of cell time during a period of time (e.g., meal times, searches, lockdown, court). The staff should ensure that the maximum time possible is provided to the incarcerated persons for this purpose.

Televisions, newspapers, table games, and other items may also be made available to enhance out of cell time. Consideration will be given to the passive or active out of cell time needs of older incarcerated persons and incarcerated persons with disabilities.

Each Program Coordinator is responsible for maintaining an active and accurate Program Inventory that outlines the programming offered in that facility, whether the program is offered in Spanish, and if it is offered in the community.

Program Coordinators are responsible for assisting inmates to move to the least restrictive environment and engage in programming that addresses their needs and risks.

The Division of Reentry Case Managers work with individuals to assess their treatment needs, assist them in being successful in-custody, develop reentry plans, and refer them to community-based resources.

Program Coordinators shall develop programming plans which shall include voluntary academic and/or vocational education. An inmate maybe excluded or removed based on sound security practices or failure to abide by facility rules and regulations.

Chapter 11 - Facility Design

Space and Environmental Requirements

1100.1 PURPOSE AND SCOPE

This policy describes the desired space and environmental requirements for the physical plant.

1100.2 FACILITY SECURITY AND ACCESSIBILITY

Planned designs for renovations, modifications, additions, or new construction within the facility should facilitate personal communication with incarcerated persons and direct visual observation of all cells, dayrooms, and out of cell time areas. Electronic surveillance may be used to augment the observation of incarcerated persons but shall not be used as a substitute for personal communication.

All locks, detention hardware, fixtures, furnishings, and equipment should have the proper security value for the areas in which they are used. The use of padlocks in place of security locks on cell or incarcerated person housing unit doors is generally prohibited, as unauthorized locking mechanisms may pose a significant threat to the safety and security of the facility in the event of an emergency.

All parts of the facility that are accessible to the public should be accessible to and usable by disabled persons.

1100.3 ENVIRONMENTAL REQUIREMENTS

1100.3.1 LIGHTING LEVELS

Lighting levels shall be adequate for staff and incarcerated persons to perform daily activities. Night lighting levels should permit adequate illumination for supervision but should not unnecessarily interfere with the ability of incarcerated persons to sleep.

1100.3.2 NATURAL LIGHT

All incarcerated persons living areas should provide incarcerated person with exposure to natural light, unless prohibited by security concerns.

1100.3.3 NOISE LEVEL

Noise levels at night should be sufficiently low to allow incarcerated persons to sleep. Nothing in this policy is intended to limit or impair in any way staff's ability to monitor the correctional facility in a manner that is consistent with safety and security and good correctional practices. Noise measurements shall be documented in each housing unit at least annually by an independent expert or by a designated trained staff member who is able to correctly document the conditions.

1100.3.4 VENTILATION

Ventilation systems, including those in toilet rooms and cells with toilets, should be sized and calibrated to supply fresh or circulated air in accordance with federal and state laws, codes, and jail standards.

Space and Environmental Requirements

Other than an emergency situation, incarcerated persons or correctional facility staff shall not adjust or restrict the ventilation systems without the express permission of the supervisor. Any adjustments made to the ventilation system shall only be allowed for the duration of the emergency or until qualified maintenance personnel can adjust or repair the ventilation system.

Air quantities shall be documented at least annually by an independent expert or by a designated trained staff member who is able to correctly document the conditions, and a report provided to the Facility Manager.

1100.3.5 TEMPERATURE LEVELS

Temperature and humidity levels should be maintained at a level established by facility maintenance personnel and deemed comfortable and cost-efficient.

Temperature readings shall be documented for each area of the facility on a weekly basis on the appropriate log. Staff shall immediately contact facility maintenance in the event that temperatures or humidity levels become uncomfortable.

1100.4 JANITOR CLOSETS

Janitor closets shall be located near or inside each housing unit. Each janitor closet should contain a sink and the necessary cleaning implements. Access to the janitor closets shall be controlled and supervised by the staff. Only incarcerated persons with a minimum-security classification status shall be allowed access to the janitor closets, and then only under the supervision of staff.

1100.5 EMERGENCY POWER

The facility shall be equipped with a sufficient emergency power source to operate communications, security, and alarm systems in control centers; emergency lighting in corridors, stairwells, all incarcerated person housing areas and security control points; and audio-visual monitoring systems.

1100.6 POLICY

It is the policy of this office to comply with federal and state laws, codes, and correctional standards in matters relating to the jail space and environmental requirements. Any designs for renovations, modifications, additions, or new construction within the facility should be in compliance with federal and state laws, codes, and jail standards.

Smoking and Tobacco Use

1101.1 PURPOSE AND SCOPE

This policy establishes limitations on the use of tobacco products by members and others while on-duty or while in Santa Cruz County Sheriff's Office facilities or vehicles.

For the purposes of this policy, smoking and tobacco use includes but is not limited to any tobacco product, such as cigarettes, cigars, pipe tobacco, snuff, tobacco pouches, nicotine pouches, and chewing tobacco, as well as any device intended to simulate smoking such as an electronic cigarette or personal vaporizer.

1101.2 POLICY

The Santa Cruz County Sheriff's Office recognizes that tobacco use is a health risk and can be offensive to others. Smoking and tobacco use also presents an unprofessional image for the Office and its members. Therefore, smoking and tobacco use are prohibited by members, incarcerated persons, and visitors in all office facilities, buildings, and vehicles, and as is further outlined in this policy.

1101.3 SMOKING AND TOBACCO USE

Smoking and tobacco use by members is prohibited any time members are in public view representing the Office.

Smoking and the use of other tobacco products is not permitted inside office facilities or any office vehicle, or any other county building (Labor Code § 6404.5).

It shall be the responsibility of each employee to ensure that no person under their supervision smokes or uses any tobacco product inside county facilities and vehicles.

1101.4 ADDITIONAL PROHIBITIONS

No person shall smoke tobacco products within 20 feet of a main entrance, exit, or operable window of any public building, including any office facility or a building on the campuses of the University of California, California State University and the California community colleges, whether present for training or any other purpose (Government Code § 7596 et seq.).

Crowding

1102.1 PURPOSE AND SCOPE

One of the determining factors in maintaining a safe and secure jail is to limit the incarcerated person population to the number of beds constructed in each incarcerated person classification level. Occasionally, emergencies occur that will require the correctional facility to exceed its approved bed capacity. This policy establishes the approved bed capacity of the facility, addresses temporary population excess, and provides a plan for gathering statistics and projecting long-term space needs via a jail needs assessment.

1102.2 POLICY

It is the policy of the Santa Cruz County Sheriff's Office to manage the incarcerated person population to the extent as is reasonably possible to avoid exceeding the facility's approved bed capacity.

1102.3 FACILITY NEEDS ASSESSMENT

In the event that the correctional facility maintains an average 80 percent occupancy rate consistently for one year, the Office should initiate a jail needs assessment. The assessment initiates a systematic process that is designed to identify a variety of operational issues and program needs, and may indicate when expansion or replacement of the facility is warranted.

1102.4 DAILY INCARCERATED PERSON POPULATION REPORT

The Facility Manager or the authorized designee is responsible for ensuring that detailed daily logs of the facility's incarcerated person population and other demographic information are completed and maintained by the staff. These logs shall reflect the monthly, average daily population of sentenced and non-sentenced incarcerated persons by categories of each gender as of midnight of each day. The number of incarcerated persons occupying holding cells shall also be counted at midnight each day. An incarcerated person population report summarizing this information shall be created daily and distributed to the Sheriff and the Facility Manager (see the Population Management Policy). The Facility Manager shall provide the Board of State and Community Corrections with applicable incarcerated person demographic information as described in the Jail Profile Survey (15 CCR 1040).

1102.5 RESPONSIBILITIES

The Sheriff is responsible for ensuring that the facility has a sufficient number of housing units in an appropriate configuration so that incarcerated persons can be separated according to the facility's classification plan.

In the event of an emergency that causes the facility to be populated beyond the approved bed capacity, every reasonable effort should be made to reduce the incarcerated person population to the approved bed capacity as soon as reasonably practicable. The Office will take affirmative action to address excess population. In the event that the incarcerated person population remains over capacity or continues to increase, a crowding committee should be formed to examine any
